Single best answer (SBA) questions have been introduced into the Final FRCR Part A examination of the Royal College of Radiologists in the UK for the first time. This book of 600 SBA questions and explanatory answers has been written to aid students preparing for the exam by current trainees in clinical radiology, coordinated through The Society of Radiologists in Training (SRT). Questions are grouped by topic and each topic is split into three papers of 70 questions, with explanations separated into chapters to enable readers to either attempt a whole mock exam paper or to browse question by question. The book is a bridge between a pure revision aid and a reference text, including a bibliography of useful references for further information. Candidates for other professional exams in Radiology will find the text useful, as will and those from other specialties wishing to explore the radiological aspects of their syllabus in greater depth. This is a companion volume to Final FRCR Part A Modules 4-6 Single Best Answer MCQs by the same team.

Trainees in subspecialty of geriatric psychiatry and general psychiatry need to master core competencies in geriatric psychiatry in order to practice. This book is designed to provide short-answer question-based learning centering around the core curriculum topics in geriatric psychiatry and is primarily ideal not only for medical students, residents, and fellows, but also for psychiatrists preparing for re-certification. This book features approximately 300 short-answer questions on geriatric psychiatry topics, each comprising the stem of a brief clinical scenario or concise question with expected number of answers. The book also features detailed teaching notes, graphics, and the respective source references. The format is consistently structured from chapter to chapter, practical and concise, and designed to enhance the reader's diagnostic and management ability and clinical understanding. Each answer includes a concise discussion, pertinent illustrations, and source references. This text is a valuable reference and teaching tool that provides an opportunity for learning across a rapidly growing field. The material covered matches the existing postgraduate curricula in geriatric psychiatry and helps prepare candidates for their specialty and subspecialty certification examinations. The cases map well to both the American Geriatric Psychiatry Association and Canadian Academy of Geriatric Psychiatry as well as other international postgraduate curricula. The book covers main topics within

geriatric psychiatry, some such as substance use disorders and sexuality and sexual dysfunction in later life. As the Baby Boomers age, this reference will continue to be a valuable staple in geriatric workforce training. Geriatric Psychiatry Study Guide is the ultimate resource for students, residents, fellows, psychiatrists, psychologists, family practitioners, nurses, social workers, and all clinicians rising to the challenges of the mental health segment of the geriatric workforce.

Success International English Skills for IGCSE Teacher's Book Pearson

Based around the core curriculum for specialist trainees in cardiology, Oxford Case Histories in Cardiology contains 50 well-structured, peer-reviewed cases gathered from the Oxford Hospitals, comprehensively covering the various disorders of the cardiac system. Each case history is followed by questions on important aspects of the diagnosis, interpretation of investigations, and management. The answers are accompanied by a detailed discussion, including the differential diagnosis where relevant and other clinically important aspects of the condition. The book contains numerous illustrations of echocardiographic, radiographic and electrocardiographic data. The list of cases by diagnosis and category according to the cardiology curriculum from the JRCPTB and the extensive index allows the book to be used for revision and reference. The book will be of particular use to post-membership trainees who are preparing for specialty knowledge based assessments in cardiology and acute general medicine in the UK and Europe, and will also be of interest to those who wish to improve their skills in diagnosis and management of a broad range of cardiac diseases.
