Evaluation Briefs No 18 Techniques Of Documentation In ResearchIn a report or research paper, documentation is the evidence provided for information and ideas borrowed from others. That evidence includes both primary sources and secondary sources . There are numerous documentation styles and formats, including MLA style (used for

research in the humanities), APA style (psychology, sociology, education), Chicago style (history), and ACS style (chemistry).Documentation in Reports and Research PapersPart of the duty of a champion is to teach and demonstrate, and to encourage others. Documentation is a vital tool in this duty. You can (and many do) lead a long, happy and productive SCA life, without ever opening a book or writing a single sentence of documentation. You can even win a number of contests.Research and Documentaiton for BeginnersThis is

why methods for documentation are always rigidly formalized, though characteristics and requirements may vary depending on the specific citation style. In legal terms, proper documentation also helps writers avoid such transgressions as plagiarism and theft of intellectual property.
