This exploration of the ways in which pregnancy affects narrative begins with two canonical American texts, Nathaniel Hawthorne's *The Scarlet Letter* (1848) and Harriet Jacobs's *Incidents in the Life of a Slave Girl* (1861). Relying on such diverse works as *Frankenstein*, *Peyton Place*, *Beloved*, and *I Love Lucy*, the book chronicles how pregnancy evolves from a conventional plot device into a mature narrative form. Especially in the 20th and 21st centuries, the pregnancy narrative in fiction and film acts as a lightning rod with the power to electrify all genres of fiction and film, from early melodrama (*Way Down East*) to noir (*Leave Her to Heaven*); from horror (*Rosemary's Baby*) to science fiction and dystopia (*Alien*, *The Handmaid's Tale*); and from iconic (*Lolita*) to independent (*Juno*, *Precious*). Ultimately, the pregnancy narrative in popular film and fiction provides a remarkably clear lens by which we can gauge how popular American film and fiction express our most profound--and most private--fears, values and hopes.

History is written by the winners—and the powerful—but how much of it is fiction? And who is really in control today? From the dawn of civilization to the 21st century, from ancient aliens to the New World Order, *Secret History: Conspiracies from Ancient Aliens to the New World Order* examines, explores, and uncovers the hidden, overlooked, and buried history of mankind. The book moves from biblical, Egyptian, Mayan, Greek, and early mysteries of antiquity to the clandestine doings of the Nazis and the Masons and assassination plots of the more recent past to the surveillance, monitoring, mind-control, and secret schemes of today. Researcher Nick Redfern

investigates the stories, mythologies, lore behind incredible events and clandestine groups of yesterday and today. More than 60 entries dig deep into the manipulation of events by influential groups, including ... • Historical riddles—alien visitations, space gods, and human–alien crossbreeding. • Government cover ups—mind control, murders, scientists, and secret agents. • Powerful groups and intended consequences—9-11, new world order, bird-flu, and chemtrails. Tracing the chilling and lasting effects of conspiracies, cabals, and plots, *Secret History: Conspiracies from Ancient Aliens to the New World Order* exposes their deep reach in shaping today's world.

(Applause Books). "Morton has written the definitive book on this innovative movie by Steven Spielberg...Meticulous research of this caliber is not found in other books on Close Encounters .

Fans will find Morton's take informative and fascinating." *Library Journal* . Steven Spielberg's 1977 masterpiece used all of the power and magic of cinema to tell a story of man's first meeting with extraterrestrial beings. Renouncing the fear and pessimism of the day, writer/director Spielberg boldly envisioned this as a peaceful, spiritual event full of hope and possibility. This awe-inspiring message made a powerful impact on audiences desperate for something to believe in. The film was a massive box-office hit and revolutionized the movie industry; along with *Star Wars* , it helped to create the modern blockbuster and ushered in a new era of hi-tech effects. Based on in-depth research and the recollections of many of the film's principal creators, *Close Encounters* is the first book to chronicle the making of this classic film from its inception through its tumultuous production to its many releases in "special" editions. Although it is primarily a book about God, this unique volume is more specifically about the ways in which Jews have spoken of and written about God throughout four millennia of history. By looking at the Bible, rabbinic literature, the liturgy, and the work of ancient and modern Jewish theologians, best-selling author and respected rabbi Ronald Isaacs presents the ways in which Jewish tradition responds to and grapples with questions about God, including God's nature, attributes, and plan for the universe. Topics explored include: basic conceptions of God, early classical proofs of God's existence, theories of revelation, writing and pronouncing God's name, prayer, God in Jewish mysticism, Jewish theology since the Holocaust, how to respond when children ask about God, and how to develop a personal theology. For many people, the search for personal growth and spiritual fulfillment has raised numerous questions of faith. A introduction to the broad spectrum of issues about God, *Close Encounters: Jewish Views about God* will provide intellectual sustenance and ideas for further exploration for those readers seeking to strengthen their spiritual identities.

From the dawn of humanity, the desire to control the thoughts, behaviors, and actions of others has been a pervasive one. From the use of coercive persuasion by ancient Egyptians and the Knights Templar to today's claims of electronic harassment and microwave "bombing," we have always been at the mercy of those who wish to reprogram our thoughts and reshape our beliefs. *Mind Wars* includes fascinating stories of: Ancient attempts at mind control using spell casting, potions, and rituals. Cults and the use of mental reprogramming. More modern mind-control techniques, from hypnosis, drugs, and electroshock to radiation and psychic driving. The inside story of the quest for a real Manchurian Candidate—MKUltra and the CIA connection. The brave new world of electronic harassment, "voice to skull" technology, and gang-stalking. The inner frontier of the human mind is the last bastion of privacy. But are we really in control of our own minds? The answer may shock you!

Everyone has heard of *Close Encounters of the Third Kind*. But what about close encounters of the fatal kind? The field of UFOs is rife with unsettling examples of suspicious deaths. Accounts of accidents that might not have been accidents after all, abound. Researchers and witnesses have

vanished, never to be seen again. Conveniently timed heart attacks are reported. Out-of-the-blue suicides that, upon investigation, bear the distinct hallmarks of murder, are all too common. And grisly deaths at the hands of both extraterrestrials and government agents have occurred. Highlights of *Close Encounters of the Fatal Kind* include: The strange saga of the incredible melting man. The UFO-related death of the first U.S. Secretary of Defense, James Forrestal. The mysterious disappearances of military pilots and their connection to UFOs. The connections between national security and the sudden deaths of UFO investigators. Getting too close to the cosmic truth about alien abductions, Roswell, and what the government really knows about UFOs can—clearly—be a deadly business. The government's latest admission of the existence of Area 51 is barely the tip of a very big iceberg.

How Ancient Alien Civilizations Almost Destroyed the Earth *Close Encounters of the Fatal Kind* *Suspicious Deaths*, *Mysterious Murders*, and *Bizarre Disappearances in UFO History* The devil goes by many names, and his tribe is legion. Throughout human history, we have been obsessed with the dark opposites of God and angels, light, and mercy. Whether it is our religious and sacred texts, folklore and myths of old, legends, fairy tales, novels, or the movies and television shows of today, the dark entities enthrall us, terrify us, and remind us of the dualities of life. But where did they originate? Are they real? Does every religion or region of the world include them? Exploring over two dozen religious traditions, myths, folkloric and spiritual traditions, the world of the supernatural, and the demons, the Devil, and fallen angels in today's pop culture, *Demons, the Devil, and Fallen Angels* is a comprehensive resource of the many faces of the devil, his minions, ominous deities, and the darker side of nature and ourselves. From ancient demon worship to modern Satanism, the bloody era of the Inquisitions and later witch burnings to the Satanic Panic of the late-twentieth century, and secret occult societies to Hitler's involvement with demonology, this book covers it all. Readers will learn about the key figures in history associated with demons and the Devil, the worshiping of the dark forces, and the lives of Aleister Crowley, John Dee, and Anton LaVey, as well as well-known figures who were alleged Satanists, some of whom may surprise you! Also featured are dozens of examples of links between demons/fallen angels and aliens, cryptids, apparitions and poltergeists, and IDEs (interdimensional entities). Were the demons of the Bible possibly ancient alien visitors? Are alien abductions and poltergeists really demons in disguise? Is Slender Man a modern day demonic entity ... or totally fake? This fascinating look at Satan, evil spirits, and their 10,000-year history has 120 photographs, drawings, and illustrations to bring the portraits of over 200 demons and fallen angels to shivering life. *Demons, the Devil, and Fallen Angels* also includes a helpful bibliography and an extensive index, adding to its usefulness. It is a comprehensive, clear, and objective look at a subject that fills most people with fear and dread. Yet the presence of dark angels continues to remain a part of our human experience, our popular culture, and our spiritual understandings. Come and explore the shadowy side of existence and its integral part of our nature.

1969 was a momentous year for the world and especially America. It was a year when man first set foot on the moon and in an equally amazing feat, the New York Mets won baseballs coveted World Series. While earth shaking events were happening two hundred thousand miles from home or deep within the confines of Shea Stadium, men of every race, education and age group were fighting and dying 12,000 miles from home in Americas most unpopular war, Vietnam. Today, 40 years later, writer, husband and Veteran Jack Manick reaches into his soul and resurrects the fear, tension, foreboding, laughter and terror that he and his fellow "Band of Brothers" felt as they walked the jungles and forests of the Central Highlands of Vietnam in 1969. While in the "Bush", he carried a pack, a medical aid bag, two knives, three grenades, a rifle, pistol and an unbreakable commitment to save the lives of his fellow soldiers, even at the cost of his own. The story of Jack "Doc" Manick and his fellow soldiers is one of survival...survival in a country laden with malaria, crawling with venomous snakes, scorpions, rats, giant centipedes and tigers and dominated by an enemy determined "Not to lose the War!" The language is as tough as the enemy who fought against him, as unrelenting as the blistering heat of the Dry Season and as depressing as the endless mud and mold of the Monsoon Season. *Incoming* invites you to lace up your jungle boots and take a walk with Jack through the jungles and the fields of dry grass in the Central Highlands of Vietnam in 1969.

From bestselling author Gabor Maté, the essential resource for understanding the roots and behaviors of addiction--now with an added introduction by the author. Based on Gabor Maté's two decades of experience as a medical doctor and his groundbreaking work with the severely addicted on Vancouver's skid row, *In the Realm of Hungry Ghosts* radically reenvision this much misunderstood field by taking a holistic approach. Dr. Maté presents addiction not as a discrete phenomenon confined to an unfortunate or weak-willed few, but as a continuum that runs throughout (and perhaps underpins) our society; not a medical "condition" distinct from the lives it affects, rather the result of a complex interplay among personal history, emotional, and neurological development, brain chemistry, and the drugs (and behaviors) of addiction. Simplifying a wide array of brain and addiction research findings from around the globe, the book avoids glib self-help remedies, instead promoting a thorough and compassionate self-understanding as the first key to healing and wellness. In *The Realm of Hungry Ghosts* argues persuasively against contemporary health, social, and criminal justice policies toward addiction and those impacted by it. The mix of personal stories—including the author's candid discussion of his own "high-status" addictive tendencies—and science with positive solutions makes the book equally useful for lay readers and professionals.

There are days when, if we hunt or fish or watch birds, we just want to be alone with our thoughts. Other times, however, contemplating the great outdoors that contains so many unknowns, we may wish to learn about moaning moose . . . or mumbling carp . . . or magnetic deer. And this is where Robert M. Zink enters the scene. A writer who humorously bridges the gap between esoteric information and nature as we have come to know it, Zink distills the latest news from the world of

science into three-minute bursts of irresistible lore for the layman. In these brief, engaging essays readers will discover, for instance, how deer use the earth's magnetic field for orientation; a long-gone tradition of hunting loons in North Carolina; how porcupine quills are advancing new ideas about delivering inoculations; and why deer antlers can model bone regeneration for amputees. How do predator-prey cycles get started? Should we worry about black bear attacks in the woods? Zink has the answers—often to questions we didn't think to ask but wish we had. This is the outdoors at its mysterious best, as the experience of nature and the findings of science combine to educate our sense of wonder and tickle our fancy—to say nothing of our highly unscientific funny bone.
