Queen Elizabeth's  
spymasters recruit an  
unlikely agent—the  
only Muslim in  
England—for an  
impossible mission in a  
mesmerizing novel

from “one of the best writers in America” (The Washington Post) “Evokes flashes of Hilary Mantel, John le Carré and Graham Greene, but the wry, tricky plot that drives it is pure Arthur Phillips.”—The Wall Street Journal NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE NEW YORK TIMES BOOK REVIEW AND THE WASHINGTON POST The year is 1601. Queen Elizabeth I is dying, childless. Her nervous kingdom has no heir. It is a capital crime even to think that Elizabeth will ever die. Potential successors secretly maneuver to be in position when the inevitable occurs. The leading candidate is King James VI of Scotland, but there is a problem. The queen’s

spymasters—hardened veterans of a long war on terror and religious extremism—fear that James is not what he appears. He has every reason to claim to be a Protestant, but if he secretly shares his family’s Catholicism, then forty years of religious war will have been for nothing, and a bloodbath will ensue. With time running out, London confronts a seemingly impossible question: What does James truly believe? It falls to Geoffrey Belloc, a secret warrior from the hottest days of England’s religious battles, to devise a test to discover the true nature of King James’s soul. Belloc enlists Mahmoud Ezzedine, a Muslim physician left behind by the last diplomatic visit from the Ottoman Empire,

as his undercover agent. The perfect man for the job, Ezzedine is the ultimate outsider, stranded on this cold, wet, and primitive island. He will do almost anything to return home to his wife and son. Arthur Phillips returns with a unique and thrilling novel that will leave readers questioning the nature of truth at every turn.

The task, taken up by such a rogue comic talent, could be nothing other than strangely delightful; and in In-House Weddings, the first of the trilogy that Hrabal produced, we meet the author through the

eyes of his wife Eliska. She narrates his life from his upbringing in Nymburk through his work as a dispatcher in a train station and then in a scrap paper plant, his first publication, his trouble with the authorities, and his association with notable artists and authors such as Jiri Kolar, Vladimir Boudnik, and Arnost Lustig.

A Tale of Two

Monasteries takes an unprecedented look at one of the great rivalries of the Middle Ages and offers it as a revealing lens through which to view the intertwined histories of medieval England and France. This is the first

book to systematically compare Westminster Abbey and the abbey of Saint-Denis--two of the most important ecclesiastical institutions of the thirteenth century--and to do so through the lives and competing careers of the two men who ruled them, Richard de Ware of Westminster and Mathieu de Vendôme of Saint-Denis. Esteemed historian William Jordan weaves a breathtaking narrative of the social, cultural, and political history of the period. It was an age of rebellion and crusades, of artistic and architectural innovation, of unprecedented political reform, and of frustrating international diplomacy--and

Richard and Mathieu, in one way or another, played important roles in all these developments. Jordan traces their rise from obscure backgrounds to the highest ranks of political authority, Abbot Richard becoming royal treasurer of England, and Abbot Mathieu twice serving as a regent of France during the crusades. By enabling us to understand the complex relationships the abbots and their rival institutions shared with each other and with the kings and social networks that supported and exploited them, *A Tale of Two Monasteries* paints a vivid portrait of medieval society and politics, and of the ambitious men who influenced them so

profoundly.

Nathaniel Philbrick In  
the summer of 1843,  
James Strang, a

lawyer and avowed  
atheist, vanished from  
a rural town in New  
York. Months later he

he practiced plural  
marriage and  
perpetrated thefts,  
corruption, and frauds

of all kinds. Eventually, having run afoul of powerful enemies, including the American president, Strang was assassinated, an event that was frontpage news across the country. The King of Confidence tells this fascinating but largely forgotten story. Centering his narrative on this charlatan's turbulent twelve years in power, Miles Harvey gets to the root of a timeless American original: the Confidence Man. Full of adventure, bad behavior, and insight into a crucial period of antebellum history, The King of Confidence brings us a compulsively readable account of one of the country's boldest con men and the boisterous era that allowed him to thrive.

*Gospel Principles I Served the King of England* Toward the end of the year 1920 the Government of the United States had practically completed the programme, adopted during the last months of President Winthrop's

administration. The country was apparently tranquil. Everybody knows how the Tariff and Labour questions were settled. The war with Germany, incident on that country's seizure of the Samoan Islands, had left no visible scars upon the republic, and the temporary occupation of Norfolk by the invading army had been forgotten in the joy over repeated naval victories, and the subsequent ridiculous plight of General Von Gartenlaube's forces in the State of New Jersey. The Cuban and Hawaiian investments had paid one hundred per cent and the territory of Samoa was well worth its cost as a coaling station. The country was in a superb state of defence. Every coast

city had been well supplied with land fortifications; the army under the parental eye of the General Staff, organized according to the Prussian system, had been increased to 300,000 men, with a territorial reserve of a million; and six magnificent squadrons of cruisers and battle-ships patrolled the six stations of the navigable seas, leaving a steam reserve amply fitted to control home waters. The gentlemen from the West had at last been constrained to acknowledge that a college for the training of diplomats was as necessary as law schools are for the training of barristers; consequently we were no longer represented abroad by incompetent patriots. The nation was prosperous;

Chicago, for a moment paralyzed after a second great fire, had risen from its ruins, white and imperial, and more beautiful than the white city which had been built for its plaything in 1893. Everywhere good architecture was replacing bad, and even in New York, a sudden craving for decency had swept away a great portion of the existing horrors. Streets had been widened, properly paved and lighted, trees had been planted, squares laid out, elevated structures demolished and underground roads built to replace them. The new government buildings and barracks were fine bits of architecture, and the long system of stone quays which

completely surrounded the island had been turned into parks which proved a god-send to the population. The subsidizing of the state theatre and state opera brought its own reward. The United States National Academy of Design was much like European institutions of the same kind. Nobody envied the Secretary of Fine Arts, either his cabinet position or his portfolio. The Secretary of Forestry and Game Preservation had a much easier time, thanks to the new system of National Mounted Police. We had profited well by the latest treaties with France and England; the exclusion of foreign-born Jews as a measure of self-preservation, the

settlement of the new independent negro state of Suanee, the checking of immigration, the new laws concerning naturalization, and the gradual centralization of power in the executive all contributed to national calm and prosperity. When the Government solved the Indian problem and squadrons of Indian cavalry scouts in native costume were substituted for the pitiable organizations tacked on to the tail of skeletonized regiments by a former Secretary of War, the nation drew a long sigh of relief. When, after the colossal Congress of Religions, bigotry and intolerance were laid in their graves and kindness and charity began to draw warring

sects together, many thought the millennium had arrived, at least in the new world which after all is a world by itself.

*King of None* Penguin Rake, drunkard, aesthete, gossip, raconteur

extraordinaire: the narrator of Bohumil Hrabal's rambling, rambunctious masterpiece *Dancing Lessons for the Advanced in Age* is all these and more.

Speaking to a group of sunbathing women who remind him of lovers past, this elderly roué tells the story of his life—or at least unburdens himself of a lifetime's worth of stories. Thus we learn of amatory conquests (and humiliations), of scandals both private and public, of military adventures and

domestic feuds, of what things were like “in the days of the monarchy” and how they’ve changed since. As the book tumbles restlessly forward, and the comic tone takes on darker shadings, we realize we are listening to a man talking as much out of desperation as from exuberance. Hrabal, one of the great Czech writers of the twentieth century, as well as an inveterate haunter of Prague’s pubs and football stadiums, developed a unique method which he termed “palavering,” whereby characters gab and soliloquize with abandon. Part drunken boast, part soul-rending confession, part metaphysical poem on the nature of love and time, this astonishing

novel (which unfolds in a single monumental sentence) shows why he has earned the admiration of such writers as Milan Kundera, John Banville, and Louise Erdrich. The Global Film Book Da Capo Press

Faber & Faber

Based on the incredible true story of one woman's journey to the exotic world of nineteenth-century Siam, the riveting novel that inspired *The King and I*. In 1862, recently widowed and with two small children to support, British schoolteacher Anna Leonowens agrees to serve as governess to the children of King Mongkut of Siam (present-day Thailand), unaware that her years in the royal palace will change not only her own life, but also the future of a nation. Her

relationship with King Mongkut, famously portrayed by Yul Brynner in the classic film *The King and I*, is complicated from the start, pitting two headstrong personalities against each other: While the king favors tradition, Anna embraces change. As governess, Anna often finds herself at cross-purposes, marveling at the foreign customs, fascinating people, and striking landscape of the kingdom and its harems, while simultaneously trying to influence her pupils—especially young Prince Chulalongkorn—with her Western ideals and values. Years later, as king, this very influence leads Chulalongkorn to abolish slavery in Siam

and introduce democratic reform based on the ideas of freedom and human dignity he first learned from his beloved tutor. This captivating novel brilliantly combines in-depth research—author Margaret Landon drew from Siamese court records and Anna’s own writings—with richly imagined details to create a lush portrait of 1860s Siam. As a Rodgers & Hammerstein Broadway musical and an Academy Award-winning film, the story of Anna and the King of Siam has enchanted millions over the years. It is a gripping tale of cultural differences and shared humanity that invites readers into a vivid and sensory world populated by

unforgettable characters. *The Golden Wood* Madam's Books Sixteen-year-old Tiuri must spend hours locked in a chapel in silent contemplation if he is to be knighted the next day.
