How to close the gap between strategy and execution Two-thirds of executives say their organizations don't have the capabilities to support their strategy. In *Strategy That Works*, Paul Leinwand and Cesare Mainardi explain why. They identify conventional business practices that unintentionally create a gap

between strategy and execution. And they show how some of the best companies in the world consistently leap ahead of their competitors. Based on new research, the authors reveal five practices for connecting strategy and execution used by highly successful enterprises such as IKEA, Natura, Danaher, Haier, and Lego. These companies:

- Commit to what they do best instead of chasing multiple opportunities
- Build their own unique winning capabilities instead of copying others
- Put their culture to work instead

of struggling to change it • Invest where it matters instead of going lean across the board • Shape the future instead of reacting to it Packed with tools you can use for building these five practices into your organization and supported by in-depth profiles of companies that are known for making their strategy work, this is your guide for reconnecting strategy to execution.

"Carrying through Alina Wheeler's trademark of beautiful layout and design, the book takes you on a journey through just about every important element of branding you could think of, from passion to positioning." —The Influential Marketing Blog (May 2011) A company's brand is its most valuable asset. Wheeler takes the most seminal

tools used by a wide variety of thought leaders and practitioners and makes the information understandable, visible, relevant, exportable and applicable. With her best-selling debut book, *Designing Brand Identity* (Wall Street Journal, Best-Seller, Spotlight 1/23/2011), now in its third edition, Alina Wheeler reinvented the marketing textbook using a straightforward style to help demystify the branding process. This new offering from Wheeler, *Brand Atlas*, builds on this user-friendly approach to aggregate and simplify the science behind branding with a unique visual teaching method suited for time-crunched professionals. *Brand Atlas* follows the recent YouTube-iPhone-Pecha Kucha era trend toward fast-paced visual instruction by neglecting needless jargon and

combining vivid, full-color images and easy-to-follow diagrams to break down branding principles into basic step-by-step concepts that can be immediately applied. This handy reference: Speaks to a broad range of stakeholders in the branding process—from CEOs to designers to brand managers Provides tools to integrate brand throughout the entire customer experience, build relationships based on brand, measure a brand's value, and define a brand strategy Contains essential information illustrated through the use of diagrams With diagrams designed by Joel Katz, an internationally known information designer and a global authority on the visualization of complex information, Brand Atlas is a compact, no-nonsense guide that shows how tactical innovation

in the design process is crucial to building brand assets.

Brand Admiration uses deep research on consumer psychology, marketing, consumer engagement and communication to develop a powerful, integrated perspective and innovative approach to brand management. Using numerous real-world examples and backed by research from top notch academics, this book describes how companies can turn a product, service, corporate, person or place brand into one that customers love, trust and respect; in short, how to make a brand admired. The result? Greater brand loyalty, stronger brand advocacy, and higher brand equity. Admired brands

grow more revenue in a more efficient way over a longer period of time and with more opportunities for growth. The real power of Brand Admiration is that it provides concrete, actionable guidance on how brand managers can make customers (and employees) admire a brand. Admired brands don't just do the job; they offer exactly what customers need (enabling benefits), in way that's pleasing, fun, interesting, and emotionally involving (enticing benefits), while making people feel good about themselves (enriching benefits). Providing these benefits, called 3 Es, is foundational to building , strengthening and leveraging brand admiration. In addition, the authors articulate a common-sense and action based measure of brand equity, and they

develop dashboard metrics to diagnose if there are any 'canaries in the coal mine', and if so, what to do next. In short, Brand Admiration provides a coherent, cohesive approach to helping the brand stand the test of time. A well-designed, well-managed brand becomes a part of the public consciousness, and ultimately, a part of the culture. This trajectory is the fruit of decisions made from an integrated strategic standpoint. This book shows you how to shift the process for your brand, with practical guidance and an analytical approach. *Sales Force Design For Strategic Advantage* Springer  
Almost every company creates a marketing plan each year, and many spend hundreds of employee hours researching, preparing and presenting

their tomes to senior executives. But most marketing plans are a waste of time; they are too long, too complicated and too dense. They end up sitting on a shelf, unread and unrealized.

Breakthrough Marketing Plans is an essential tool for people who create marketing plans and people who review them. The book provides simple, clear frameworks that are easy to apply, and highlights why marketing plans matter, where they go wrong and how to create a powerful plan that will help build a strong, profitable business.

This book counteracts the claim that luxury and sustainability are conflicting concepts, and contends that they can successfully co-exist. Discussing key characteristics of luxury such as craftsmanship and preservation of artisan skills, product quality and durability, and limited quantities of luxury goods, the authors argue that luxury brands are inherently sustainable from economic, social and environmental perspectives. Sustainable

Luxury Brands gives a comprehensive overview of luxury to demonstrate this claim, also focusing on sustainable luxury from a consumer perspective. The authors furthermore compare and contrast sustainability within the mass market to the luxury sector, and present insights into current and upcoming topics in luxury research.

The definitive book on sensory branding, shows how companies appeal to consumers' five senses to sell products. Did you know that the gratifying smell that accompanies the purchase of a new automobile actually comes from a factory-installed aerosol can containing "new car" aroma? Or that Kellogg's trademarked "crunch" is generated in

sound laboratories? Or that the distinctive click of a just-opened jar of Nescafé freeze-dried coffee, as well as the aroma of the crystals, has been developed in factories over the past decades? Or that many adolescents recognize a pair of Abercrombie & Fitch jeans not by their look or cut but by their fragrance? In perhaps the most creative and authoritative book on how our senses affect our everyday purchasing decisions, global branding guru Martin Lindstrom reveals how the world's most successful companies and products integrate touch, taste, smell, sight, and sound with startling and sometimes even shocking results. In conjunction with renowned research institution Millward Brown, Lindstrom's innovative worldwide study unveils how all of us are slaves to

our senses—and how, after reading this book, we'll never be able to see, hear, or touch anything from our running shoes to our own car doors the same way again. An expert on consumer shopping behavior, Lindstrom has helped transform the face of global marketing with more than twenty years of hands-on experience. Firmly grounded in science, and disclosing the secrets of all our favorite brands, *Brand Sense* shows how we consumers are unwittingly seduced by touch, smell, sound, and more. *BrandSimple: How the Best Brands Keep it Simple and Succeed* John Wiley & Sons World-class branding for the interconnected modern marketplace Kellogg on Branding in a Hyper-Connected World offers authoritative guidance on building new brands,

This volume brings

together quantitative and qualitative approaches and highlights the most current innovations in theory and practice. Going beyond the traditional constraints of “price theory” and “price policy,” the authors coined the term “price management” to represent a holistic approach to pricing strategy and tactical implementation. They remind us that the Ancient Romans used one word, pretium, to mean both price and value. This is the fundamental philosophy that drives successful price management where producer and customer meet. Featuring dozens of examples and case studies drawn from their extensive research, consulting, and teaching around the world, Simon and Fassnacht cover all aspects of pricing following the price management process with its four

phases: strategy, analysis, decision, and implementation. Thereby, the authors take into account the nuances across industry sectors, including consumer goods, industrial products, services, and trade/distribution. In particular, they address the implications of technological advancements, such as the Internet and new measurement and sensor technologies that have led to a wealth of price management innovations, such as flat rates, freemium, pay-per-use, or pay-what-you-want. They also address the emergence of new price metrics, Big Data applications, two-sided price systems, negative prices, and the sharing economy, as well as emerging payment systems such as bitcoin. The result is a “bible” for leaders who recognize that price is not only a means

to drive profit in the short term, but a tool to generate sustained growth in shareholder value over the longer term, and a primer for researchers, instructors, and students alike. Praise for Price Management “This book is truly state of the art and the most comprehensive work in price management.” - Prof. Philip Kotler, Kellogg School of Management, Northwestern University “This very important book builds an outstanding bridge between science and practice.” - Kasper Rorsted, CEO, Adidas “This book provides practical guidelines on value creation, communication and management, which is an imperative for businesses to survive in the coming era of uncertainty.” - Dr. Chang-Gyu Hwang, Chairman and CEO, KT Corporation (Korea Telecom)
