*How to Take Charge of Your Life: The User's Guide to NLP* Bitter Lemon Press

NLP in 21 Days is an authoritative guide that covers the full international syllabus for NLP practitioner training. This easy-to-follow programme will benefit the growing number of people who now recognise the power Neuro Linguistic Programming has to improve all aspects of life, from personal relationships and career advancement to selling and even spelling and mental arithmetic. Written by two top NLP trainers, NLP in 21 Days covers 21 key topics and includes dozens of exercises and examples which you can immediately apply to your own situation.

*Using Your Brain--for a Change* Vintage

Transcriptions of video tapes by the originator and co-founder of Neuro-linguistic programming.

**PNL e Carisma** Health Communications Incorporated

Thinking on Purpose is an indispensable guide to anyone who wants to make changes in their life. Most people don't really 'think'. They 'remember'. That's why they are often destined to repeat the same negative patterns over and over again.

**Freedom is Everything & Love is All the Rest** Harper Collins  
The rules of communication are radically different than ever before. Standing out and being counted is no longer just an advantage. It is a necessity. You are your own brand and, unless you learn how to shine, you'll be left behind. Whether you are looking to get a promotion, become a better leader, master public speaking, build your business, sell more, improve your love life, social life or even your networking skills, you need to be more effective at engaging people – you need to be more effective at branding yourself and making an impact on others. Charisma is a must. And here's the good news: You can learn it. Find out: The secrets that the best speakers, screenwriters, comedians, politicians and gurus know about impacting their audience. The keys to supreme self-confidence and high self-esteem. How you can use your body, voice and energy to influence others. How to create an irresistible first impression, instantly. What only the

very best business leaders, sales people, marketing executives, advertisers and world class negotiators all understand about winning the hearts and minds of their teams and customers. Charisma is often misunderstood as a quality that some people have but others don't. In this book you'll learn how, in reality, charisma is an impression you create in the mind of another person which can be improved and mastered by anyone, including you.

*From Coach to Awakener* Arcade Publishing

Grabovoi's exercises teach people how to control events in their lives by using different concentration techniques. The exercises will help people grow spiritually and guarantee continued development.

The eighth book in the NYT bestselling Expanse series, Tiamat's Wrath finds the crew of the Rocinante fighting an underground war against a nearly invulnerable authoritarian empire, with James Holden a prisoner of the enemy. Now a Prime Original series. Thirteen hundred gates have opened to solar systems around the galaxy. But as humanity builds its interstellar empire in the alien ruins, the mysteries and threats grow deeper. In the dead systems where gates lead to stranger things than alien planets, Elvi Okoye begins a desperate search to discover the nature of a genocide that happened before the first human beings existed, and to find weapons to fight a war against forces at the edge of the imaginable. But the price of that knowledge may be higher than she can pay. At the heart of the empire, Teresa Duarte prepares to take on the burden of her father's godlike ambition. The sociopathic scientist Paolo Cortázar and the Mephistophelian prisoner James Holden are only two of the dangers in a palace thick with intrigue, but Teresa has a mind of her own and secrets even her father the emperor doesn't guess. And throughout the wide human empire, the scattered crew of the Rocinante fights a brave rear-guard action against Duarte's authoritarian regime. Memory of the old order falls away, and a future under Laconia's eternal rule -- and with it, a battle that humanity can only lose -- seems more and more certain. Because

against the terrors that lie between worlds, courage and ambition will not be enough... *I Can Make You Rich* Del Rey

Neuro-Linguistic Programming (NLP) is the psychology of excellence. It is based on the practical skills that are used by all good communicators to obtain excellent results. These skills are invaluable for personal and professional development.

Thinking on Purpose HarperThorsons

This is book is a how to guide to building a successful professional coaching practice. Within it are the foundational steps of how to: Coach clients and organizations. How to build your business through marketing, selling, and to create a practice from the inside that grows through a natural momentum. Finally once a strong momentum is created, how to expand your practice even more to create financial and emotional freedom as true wealth for yourself and others. This book was written as a distillation of years of creating a massively successful coaching business, of falling into huge rookie mistakes and from helping many other coaches build six figure practices quickly and efficiently while getting powerful results for their clients. You will learn what mistakes to avoid and how to build on the experience of others to avoid the pitfalls many coaches fall into and how to build success quickly. Learn from our experience and build upon it rather than reliving it from the ground up.

**Time for a Change** Penguin

Download this book NOW to nail your passion and spend the rest of your life doing what you love. Pick up your copy today by clicking the BUY NOW button at the top of this page!

*The Truce* Hay House, Inc

You don't need to have been born under a lucky star, or with incredible wealth, or with terrific contacts and connections, or even special skills...but what you do need to succeed in any of your life goals is self-discipline. Unfortunately, most people give in to the two worst enemies of success; they take the path of least resistance (in other words, they're lazy) and/or they want immediate gratification; they don't consider the long-term consequences of the actions they take today. No EYescuses! shows you how you can achieve success in all three major areas of your life; 1. Your personal goals.2. Your business and money goals.3. Your overall happiness. Each of the 21 chapters in this book shows you how to be more disciplined in one aspect of your life, with end-of-chapter eYescercises to help you apply the no eYescuses approach to your own life. With these guidelines, you can learn how to be more successful in everything you do - instead of wistfully envying others who you think are just luckier than you. A little self-discipline goes a long way...so stop making eYescuses and read this book!

L'autore Owen Fitzpatrick è stato il più giovane Master Trainer di PNL al mondo. E' psicologo, psicoterapeuta e Coach.

**Letters from a Self-made Merchant to His Son** HarperCollins UK

Dorotheus of Sidon, who appears to have lived in Alexandria, flourished in the first century AD. He wrote his Pentateuch (five books) on astrology in Greek, in verse. This translation, from 1976 by David Pingree, is from a fourth century Pahlavi (Persian) source. The first book is on the judgement of nativities. Book two concerns marriage and children. Book three is on the length of life. Book four is on the transfer of years, i.e., forecasting. Book five is on interrogations, i.e., electional astrology. In this book are the earliest known astrological charts. Dorotheus bases much of his interpretative methods on the triplicity rulers, by day and by night. All fire signs have the same rulers. All earth signs have their rulers, as do air and water signs. He uses Egyptian terms. He, like the Greeks of his day, also uses the Dodecatemoria, which are the twelfths of a sign. And many, many lots, all defined. For the first time in this edition: Pingree's Preface newly translated. An appendix with charts in modern format. A complete table of terms and triplicity rulers. A table to calculate Dodecatemoria. Newly reset to match Pingree's original 1976 edition. Written a century before Ptolemy, here is the mainstream of Greek astrology. It will handsomely repay study.

**Lateral Thinking** Abacus

In his highly acclaimed debut, *The Lies of Locke Lamora*, Scott Lynch took us on an adrenaline-fueled adventure with a band of daring thieves led by con artist extraordinaire Locke Lamora. Now Lynch brings back his outrageous hero for a caper so death-defying, nothing short of a miracle will pull it off. After a brutal battle with the underworld that nearly destroyed him, Locke and his trusted sidekick, Jean, fled the island city of their birth and landed on the exotic shores of Tal Verrar to nurse their wounds. But even at this westernmost edge of civilization, they can't rest for long—and are soon back to what they do best: stealing from the undeserving rich and pocketing the proceeds for themselves. This time, however, they have targeted the grandest prize of all: the Sinspire, the most exclusive and heavily guarded gambling house in the world. Its nine floors attract the wealthiest clientele—and to rise to the top, one must impress with good credit, amusing behavior...and excruciatingly impeccable play. For there is one cardinal rule, enforced by Requin, the house's cold-blooded master: it is death to cheat at any game at the

Sinspire. Brazenly undeterred, Locke and Jean have orchestrated an elaborate plan to lie, trick, and swindle their way up the nine floors...straight to Requin's teeming vault. Under the cloak of false identities, they meticulously make their climb—until they are closer to the spoils than ever. But someone in Tal Verrar has uncovered the duo's secret. Someone from their past who has every intention of making the impudent criminals pay for their sins. Now it will take every ounce of cunning to save their mercenary souls. And even that may not be enough.... Praise for *Red Seas Under Red Skies* "Lynch hasn't merely imagined a far-off world, he's created it, put it all down on paper—the smells, the sounds, the people, the feel of the place. The novel is a virtuoso performance, and sf/fantasy fans will gobble it up."—Booklist (starred review) "Red Seas Under Red Skies firmly proves that Scott Lynch isn't a one-hit wonder. . . . It'll only be a matter of time before Scott Lynch is mentioned in the same breath as George R. R. Martin and Steven Erikson."—Fantasy Book Critic "Grand, grandiose, grandiloquent . . . No critic is likely to fault Lynch in his overflowing qualities of inventiveness, audacious draftsmanship, and sympathetic characterization."—Locus [An Everyday Guide to Developing Your Own Charisma and Compelling Communications Skills](#) Orbit

Six days ago, astronaut Mark Watney became one of the first people to walk on Mars. Now, he's sure he'll be the first person to die there. After a dust storm nearly kills him and forces his crew to evacuate while thinking him dead, Mark finds himself stranded and completely alone with no way to even signal Earth that he's alive--and even if he could get word out, his supplies would be gone long before a rescue could arrive. Chances are, though, he won't have time to starve to death. The damaged machinery, unforgiving environment, or plain old "human error" are much more likely to kill him first. But Mark isn't ready to give up yet. Drawing on his ingenuity, his engineering skills--and a relentless, dogged refusal to quit--he steadfastly confronts one seemingly insurmountable obstacle after the next. Will his resourcefulness be enough to overcome the impossible odds against him?

*The Ultimate Introduction to NLP: How to build a successful life* Harper Collins

Bandler covers a lot of ground in this book - in his unique style - and provides real insight into areas such as sub-modalities and multiple perspectives in a fairly short period (157 pages). The

content is edited notes from a series of Bandler workshops (in a similar vein to *Frogs into Princes* and *Trance-Formations*). The book begins with an overview of NLP - making particular reference to the "new" submodality patterns (the book was written in 1985) and presenting these as a faster and more powerful way of creating personal change. Subsequent chapters provide a humorous exploration of many of the traditional approaches to personal change and outline many useful guiding principles (structure versus content etc) for the application of NLP to personal change. The author makes repeated reference to a number of epistemological issues underlying traditional psychological approaches that tend to focus on "what's wrong, when you broke, ... what broke you, ... and why you broke." He goes on to state that "psychologists have never been interested in how you broke, or how you continue to maintain the state of being broken." NLP on the other hand, Bandler asserts, assumes people work perfectly and that people are just doing something different from what we (or they) want to have happen. This provides a clear indication of the approach adopted in the remainder of the book, and suggests that the focus of NLP on subjective experience (as the study of subjective experience) is entirely valid and necessary. Bandler provides a convincing argument for tailoring all our change work to the individual - purely because each individual is unique. The book continues with a useful and insightful exploration of a number of techniques (including the fast phobia cure, contrastive analysis in belief change, integrated anchors and Swish,) as well as discussion of more general (and generative) strategies for learning and motivation.

*How to Build a Successful Coaching Business During the Coaching Tsunami* Bitter Lemon Press

Learn how to get everything you want with this motivational book

from the #1 New York Times bestselling authors of the *Chicken Soup for the Soul* series. Anything is possible...if you dare to ask! Personal happiness. Creative fulfillment. Professional success. Freedom from fear—and a new promise of joy that's yours for the asking. We have the ability at our fingertips to achieve these things. It's the Aladdin Factor: the magical wellspring of confidence, desire—and the willingness to ask—that allows us to make wishes come true. Now bestselling motivational authors Jack Canfield and Mark Victor Hansen introduce us to the Aladdin Factor—and help us put it into effect in our own lives. The Aladdin Factor helps us by pinpointing the major stumbling blocks to asking—and teaching simple techniques to overcome them. With inspirational stories about people who have succeeded by asking for what they want, this book shows us how to turn our lives around—no matter what kind of obstacles we face. And with this knowledge, we can reap the riches of a truly well-lived life—a treasure that comes not from an enchanted lamp, but from the heart.

**The Aladdin Factor** Astrology Center of America

Richard Bandler, co-creator of NLP and the man who taught and trained Paul McKenna, joins forces with Alessio Roberti and Owen Fitzpatrick once again to give you the tools to change your life.

*Involuntary Witness* Jaico Publishing House

"This could be a very useful book for teachers and non-teachers alike. Dr. DeBono does not claim to be able to turn us all into Miltons, Davincis, and Einsteins...but his techniques provide an alternative to just sitting around waiting for the Muse to appear. The Muse never appears to most of us—hence the value of this book."— David Cohen, Times Educational Supplement The first practical explanation of how creativity works, this results-oriented bestseller trains listeners to move beyond a "vertical" mode of

thought to tap the potential of lateral thinking "The underlying argument of the book is that there are two kinds of thinking—vertical and lateral. Most of us are educated to think vertically, to go from one logical step to the next, moving all the time towards the one correct solution of our problem. We are not usually educated to be creative, to generate idea after idea... "Dr. DeBono argues that the function of vertical, logical thinking is to argue what is wrong. It is a very useful way of thinking, but it is not the only useful way. To claim it is, is the sort of intellectual arrogance that makes creative thinking unlikely....

**NLP in 21 Days** Rare Ware Medienverlag (Publishers)

A moving firsthand account of migrant landings on the island of Lampedusa that gives voice to refugees, locals, and volunteers while also exploring a deeply personal father-son relationship. On the island of Lampedusa, the southernmost part of Italy, between Africa and Europe, Davide Enia looks in the faces of those who arrive and those who wait, and tells the story of an individual and collective shipwreck. On one side, a multitude in motion, crossing entire nations and then the Mediterranean Sea under conditions beyond any imagination. On the other, a handful of men and women on the border of an era and a continent, trying to welcome the newcomers. In the middle is the author himself, telling of what actually happens at sea and on land, and the failure of words in the attempt to understand the present paradoxes. Enia reveals the emotional consequences of this touching and disconcerting reality, especially in his relationship with his father, a recently retired doctor who agrees to travel with him to Lampedusa. Witnessing together the public pain of those who land and those who save them from death, alongside the private pain of his uncle's illness, pushes them to reinvent their relationship, to forge a new and unprecedented dialogue that replaces the silences of the past.
