Learner's Book 1 provides the core input

for Stage 1 with nine thematic units of study ending with an engaging project and opportunity for self-assessment. Richly illustrated units contain six lessons, each developed around a unifying theme. The materials feature skills-building tasks for listening, reading, writing and speaking. 'Writing tip', 'Language detective' and 'Words to remember' features highlight and focus on vocabulary development and

language awareness. Lessons include a variety of texts: factual and fictional, dialogue and poetry covering a range of topics. Accompanying Audio CDs include listening material for Stage 1 Learner's and Activity Books. CEFR Level: towards A1.

Cambridge Primary Science is a flexible, engaging course written specifically for the Cambridge Primary Science curriculum framework. This Activity Book for Stage 4 contains exercises to support each topic in the Learner's Book, which may be completed in class or set as homework. Exercises are designed to consolidate understanding, develop application of knowledge in new situations, and develop Scientific Enquiry skills. There is also an exercise to practise the core vocabulary from each unit.

Maths, Stage 2 Cambridge University Press
Written by well-respected authors, the Cambridge Checkpoint Science suite provides a comprehensive, structured resource which covers the full Cambridge Secondary 1 framework and seamlessly progresses into the next stage. Checkpoint Science Skills Builder Workbook 7 provides tailored and scaffolded exercises that offer targeted support to students to help reinforce key skills and understanding when studying science. Using an active-learning approach the workbook aims to build students' confidence, promote scientific enquiry and enable students to continue to access the Checkpoint Science

curriculum.

Challenge 5 Cambridge University Press
Cambridge Primary Mathematics is a flexible and engaging course written specifically for Cambridge Primary Mathematics Curriculum Stages 1 to 6. The course offers a discussion-led approach with problem-solving integrated throughout. The language is pitched to ESL learners with illustrations to support visual understanding. Skills Builders provide consolidation activities for children who need extra learning opportunities to meet the standard for success. A full range of activities is provided to help raise a child's mathematical understanding and performance to match their peers, with teacher/parental guidance on key mathematical methods and concepts before each exercise.

Cambridge Primary Mathematics is a flexible and engaging course written specifically for Cambridge Primary Mathematics Curriculum Stages 1 to 6. The course offers a discussion-led approach with problem-solving integrated throughout. The language is pitched to

ESL learners with illustrations to support visual understanding. The Challenge Books provide extension activities for children who need more challenging activities to stretch their skills beyond the required standard for success. They include a full range of carefully levelled activities which help deepen a child's understanding, plus helpful guidance for explaining to the learner, teacher or parent the key mathematical concepts underpinning each exercise.

Cambridge Global English (1-6) is a six-level Primary course following the Cambridge Primary English as a Second Language Curriculum Framework developed by Cambridge English Language Assessment. Activity Book 1 provides additional practice activities to consolidate language skills and content material introduced in Learner's Book 1. Nine units correspond with the topics,

texts and language input of Learner's Book 1 with each lesson of the Learner's Book supported by two pages in the Activity Book. Learning is reinforced through activities clearly framed within the 'I can' objectives of the course, opportunities for personalisation and creative work and a higher level of challenge to support differentiation. Each unit in the Activity Book ends with a quiz, offering more in depth assessment for learners. CEFR Level: towards A1.

Cambridge Primary Mathematics Challenge 4 Routledge

Endorsed by Cambridge Assessment International Education to support the full curriculum framework from 2011. Develop learners' mathematical fluency, problem solving and reasoning skills using the mastery approach, with this series of Learner's Books. - Introduce topics through engaging starter activities - Develop mathematical language with New Words

and worked examples - Illustrate topics clearly and vividly with imaginative design and relatable characters - Build fluency and mathematical reasoning skills by exploring, clarifying, practising and then extending concepts to ensure learners master mathematical ideas - Enhance learners' ability to apply their skills and solve non-routine mathematical problems, by ensuring they secure a deep conceptual understanding of the subject - Support learners of all abilities with Hints and Try this extension challenges - Secure knowledge with problem solving integrated throughout - Incorporates assessment for learning through self-check activities at the end of each unit

Master the essential mathematical skills that underpin the new Cambridge Primary Mathematics curriculum framework (0096), with specifically sign-posted tasks and activities rooted in the mastery approach. - Get learners thinking mathematically with engaging activities designed to focus on key skills and principles. - Embed knowledge across all

areas of learning, enabling learners to make connections between different areas of mathematics. - Develop vocabulary with probing questions designed to encourage learners to use accurate language to describe how they solve particular problems.

Cambridge Primary Mathematics Skills Builders 5 Cambridge University Press

Explore, support and consolidate Early Years Mathematics with a colourful, simple story for ages 4-5, containing key mathematical concepts and practice opportunities. - Support learners with a brightly illustrated story and simple text, linked to the topics covered in Activity Book A and the Teacher's Resource Pack. - Practice key mathematical concepts with simple question prompts embedded in the story, and activities at the end of the book. - Give time for questioning and reflection with space at the back of the book to write-in and record ideas. - Provide extra support at home or in the classroom with advice and tips about the Early Learning Goals (which underpin the Cambridge Primary Mathematics Stage 1 curriculum) covered in the story for use by parents or

teachers.

Neurocognitive Mechanisms Cambridge University Press

Gualtiero Piccinini presents a systematic and rigorous philosophical defence of the computational theory of cognition. His view posits that cognition involves neural computation within multilevel neurocognitive mechanisms, and includes novel ideas about ontology, functions, neural representation, neural computation, and consciousness.

Cambridge Primary Science is a flexible, engaging course written specifically for the Cambridge Primary Science curriculum framework. This Learner's Book for Stage 1 covers all objectives required by the curriculum framework in an engaging, visually stimulating manner. Learning through enquiry is supported by hands-on activity suggestions, which provide integrated coverage of the Scientific Enquiry objectives. Assessment is achieved through 'Check your progress' questions at the end of each unit.

Key Stages 1 & 2 Hodder Education

Written for use with the Cambridge Primary Mathematics Curriculum Framework, and endorsed by Cambridge International Examinations, the Cambridge Primary Mathematics series is informed by the most up-to-date teaching philosophies from around the world. It aims to support teachers to help all learners become confident and successful mathematicians through a fun and engaging scheme. Through an investigatory approach children learn the skills of problem solving in the context of other mathematical strands in the course. The course will encourage learners to be independent thinkers with the confidence to tackle a

wide range of problems who understand the value and relevance of their mathematics. Classroom discussion is encouraged to help learners become good mathematical communicators, to justify answers and to make connections between ideas. This series is part of Cambridge Maths (www.cie.org.uk/cambridgeprimarymaths), a project between Cambridge University Press and Cambridge International Examinations and is appropriate for learners sitting the Primary Checkpoint test.
