The Ultimate Medicine

is not for those who
like their spirituality
watered down, but for
serious students
searching for
awareness. Sri
Nisargadatta Maharaj
(1897-1981) lived and

taught in a small apartment in the slums of Bombay. A realized master of the Tantric Nath lineage, he supported himself and his family by selling cheap goods in a small booth on the streets outside his tenement for many years. His life exemplified the concept of absolute nonduality of being. In this volume, Maharaj shares the highest truth of nonduality in his own unique way. His teaching style is abrupt, provocative, and immensely profound, cutting to the core and wasting little effort on inessentials. His terse but potent sayings are known for their ability to trigger shifts in consciousness, just by hearing or reading them."The point is that man freed from his

fetters is morality personified. Such a man therefore does not need any moralistic injunctions in order to live righteously. Free a man from his bondage and thereafter everything else will take care of itself. On the other hand, man in his unredeemed state cannot possibly live morally, no matter what moral teaching he is given. It is an intrinsic impossibility, for his very foundation is immorality. That is, he lives a lie, a basic contradiction: functioning in all his relationships as the separate entity he believes himself to be, whereas in reality no such separation exists. His every action therefore does violence to other 'selves' and other 'creatures,' which are only manifestations

of the unitary consciousness. So Society had to invent some restraints in order to protect itself from its own worst excesses and thereby maintain some kind of status quo. The resulting arbitrary rules, which vary with place and time and therefore are purely relative, it calls 'morality,' and by upholding this man-invented 'idea' as the highest good—oftentimes sanctioned by religious 'revelation' and scriptures—society has provided man with one more excuse to disregard the quest for liberation or relegate it to a fairly low priority in his scheme of things."

This novel follows the path of a young woman, Amina, as she makes her way through a city, a life, and a sense of self that have been ravaged by an earthquake.

Inspired by an earthquake in northern Algeria in 2003, the author interweaves descriptions of the earthquake with descriptions of Amina's family, culture, and country and her place within them. She leaves the reader to wonder whether Amina is fleeing the earthquake or something more complex.

Mourad: New Moroccan
BRILL

A soulful chef creates his first masterpiece What Mourad Lahlou has developed over the last decade and a half at his Michelin-starred San Francisco restaurant is nothing less than a new, modern Moroccan cuisine, inspired by memories, steeped in colorful stories, and informed by the tireless exploration of his curious mind. His book is anything but a dutifully “authentic” documentation of Moroccan home cooking. Yes, the great classics are all here—the basteeya, the couscous, the preserved lemons, and much more. But Mourad adapts them in

stunningly creative ways that take a Moroccan idea to a whole new place. The 100-plus recipes, lavishly illustrated with food and location photography, and terrifically engaging text offer a rare blend of heat, heart, and palate.

Year of the Elephant

Rowman & Littlefield

So Vast the Prison is the double-threaded story of a modern, educated Algerian woman existing in a man's society, and, not surprisingly, living a life of contradictions. Djebbar, too, tackles cross-cultural issues just by writing in French of an Arab society (the actual act of writing contrasting with the strong oral traditions of the indigenous culture), as a woman who has seen

revolution in a now post-colonial country, and as an Algerian living in exile. In this new novel, Djébar brilliantly plays these contradictions against the bloody history of Carthage, a great civilization the Berbers were once compared to, and makes it both a tribute to the loss of Berber culture and a meeting-point of culture and language. As the story of one woman's experience in Algeria, it is a private tale, but one embedded in a vast history. A radically singular voice in the world of literature, Assia Djébar's work ultimately reaches beyond the particulars of Algeria to embrace, in stark yet sensuous language, the universal themes of violence, intimacy, ostracism,

victimization, and exile.

In this intriguing blend of the commonplace and the ancient, Jean Bottéro presents the first extensive look at the delectable secrets of Mesopotamia. Bottéro's broad perspective takes us inside the religious rites, everyday rituals, attitudes and taboos, and even the detailed preparation techniques involving food and drink in Mesopotamian high culture during the second and third millennia BCE, as the Mesopotamians recorded them. Offering everything from translated recipes for pigeon and gazelle stews, the contents of medicinal teas and broths, and the origins of ingredients native to

the region, this book reveals the cuisine of one of history's most fascinating societies. Links to the modern world, along with incredible recreations of a rich, ancient culture through its cuisine, make Bottéro's guide an entertaining and mesmerizing read.

Rai music is often called the voice of the voiceless in Algeria, a society currently swept by tragic conflict. Rai is the voice of Algerian men, young men

caught between generations and classes, in political strife, and in economic inequality. In a groundbreaking study, anthropologist Marc Schade-Poulsen uses this popular music genre as a lens through which he views Algerian society, particularly male society. He situates raï within Algerian family life, moral codes, and broader power relations. Schade-Poulsen did his research in the 1990s, in clubs, recording studios, at weddings, and with street musicians. He describes the history of raï, which emerged in the late 1970s and spread throughout North Africa at the same time the Islamist movement was growing to become the

most potent socio-political movement in Algeria. Outsiders consider raï to be Western in origin, but Schade-Poulsen shows its Islamic roots as well. The musicians do use Western instruments, but the music itself mixes Algerian popular songs and rhythms with the beat of American disco, Egyptian modalities, Moroccan wedding tunes, and the songs of Julio Iglesias. The lyrics deal with male-female relationships but also with generational relationships and the problems of youth, as they struggle to find a place in a conflicted society. The study, in its innovative approach to music as a template of society, helps the reader understand the two major movements among today's Algerian

youth: one toward the mosque and the other toward the West.

A cross between kiss-and-tell and curse-and-tell, Malika

Mokeddem's memoir of the men in her life

presents a mosaic of relationships defining what it is to be a

woman, an immigrant, a doctor, and a citizen of an uncertain world.

From her childhood days in French colonial Algeria to her later

years as a doctor in Paris and a writer in

Montpellier, Mokeddem traces the path of a

brilliant girl in a world

of men. Anorexia, insomnia, financial independence, escapism in books, atheism, self-imposed exile, painting, and the poetics of free love—such are the various ways in which she has responded to discrimination.

Mokeddem hauntingly describes how her

literary and medical careers blossomed along with her

sexuality and her desire to escape the

gender bias that

shackled Algerian

tradition. At once a scathing critique of

Algerian patriarchy and a soaring tribute to the

men who opened a window on the world,

Mokeddem's story is a fascinating portrait of

gender as it is actually felt, lived, and never

left behind.
