*Crusading and the Crusader States* Paulist Press

The study of war in all periods of prehistory and recorded history has always commanded the attention of historians, dramatists, poets and artists. The study of peace has, however, not yet gained a comparable readership, and the subject is attracting an increasing amount of scholarly research. This volume presents the first work of academic research to tackle this imbalance head on. It looks at war and peace through the ages, from the Classical world through to the 18th century. It considers the nature and advocacy of war and peace both from an historical perspective but also a philosophical one, particularly looking at how universal peace, which began as a personal philosophy, became over the centuries a political philosophy that underpins much of modern society's attitudes towards warfare and militarism. Roger Manning begins his journey through history by looking at the Greek martial ethos and philosophical concepts of peace and war in the ancient world; moving through the Roman empire's military advances, he explores the concepts of war and peace in the medieval world and the Renaissance, with the writing of Machiavelli and Erasmus; finally, his account of the search for a science of peace in the 17th and 18th centuries brings the book to its conclusion.

*Medieval Lives c. 1000-1292: The World of the Beaugency Family* is a gateway into Europe during the Central Middle Ages. Through charting the lives of the Beaugency family, this book delves into the history of Western Europe and explores the impact of the changes and events of the period on those who experienced

them. The Central Middle Ages were years of profound transformation, and through the two centuries in which they lived the Beaugency family experienced many of the key developments that have characterized the period, such as the launch of the crusades and the emergence of the commercial economy. By following the lives of the family, this book instills a deeper understanding of the significance that human experience has on our ability to truly comprehend the crucial historical events of the age. It personalizes the history of the Middle Ages and provides students with a unique insight into the culture of the period. Containing maps, genealogical tables, over thirty images, a large collection of previously unpublished archival sources used throughout the book, and accompanied by a companion website with interactive features, *Medieval Lives c. 1000-1292: The World of the Beaugency Family* is a portal into the lives of the Beaugency family and an ideal introduction to the Central Middle Ages.

*The World of the Beaugency Family* Paulist Press

"Conceptually well organized, stylistically clear, intellectually thoughtful, and pedagogically useful." - Thomas Head, *Speculum*  
"For its humane and learned approach to its enormous canvas, as well as for the cogency with which it penetrates at speed to the essentials of a vanished historical epoch, this *History of the Church in the Middle Ages* deserves a very wide audience indeed." - Barrie Dobson, *English Historical Review*  
"To have written a scholarly and very readable history of the Western Church over a millennium is a remarkable tour de force, for which Donald Logan is to be warmly congratulated." - C.H Lawrence, *The Tablet*  
"A feat of historical synthesis, most confident in its telling of the coming of Christianity. Books like Logan's are needed more than ever before." - Miri Rubin, *TLS*  
In this fascinating survey, F. Donald Logan introduces the reader to the Christian church, from the conversion of the Celtic and Germanic peoples to the discovery of the New World. He reveals how the church unified the people of Western Europe as they worshipped with the same ceremonies and used Latin as the language of civilized communication. From remote, rural parish to magnificent urban cathedral, *A History of the Church in the Middle Ages*

explores the role of the church as a central element in determining a thousand years of history. This new edition brings the book right up to date with recent scholarship, and includes an expanded introduction exploring the interaction of other faiths - particularly Judaism and Islam - with the Christian church.

*A History of the Church in the Middle Ages* Ave Maria Press

Examines the early Christian community, Gnosticism, the Catholic Church, the influence of the Roman Empire, the Crusades, the Reformation, and modern Christianity.

**The Real Story of Catholic History** Prentice Hall

A collection of major articles representing some of the best historical research by some of the world's most distinguished historians.

*The War for the Holy Land* Cambridge University Press

*Crusades* covers seven hundred years from the First Crusade (1095-1102) to the fall of Malta (1798) and draws together scholars working on theatres of war, their home fronts and settlements from the Baltic to Africa and from Spain to the Near East and on theology, law, literature, art, numismatics and economic, social, political and military history. Routledge publishes this journal for The Society for the Study of the Crusades and the Latin East. Particular attention is given to the publication of historical sources in all relevant languages - narrative, homiletic and documentary - in trustworthy editions, but studies and interpretative essays are welcomed too. *Crusades* appears in both print and online editions.

**The Latin Church in the Crusader States** The Princeton Review

Winner of the American Sociological Association's 'Distinguished Book Award' in the Religion category. For most of us, "Apocalypse" suggests the cataclysmic end of the world. Yet in Greek "apocalypse" means "revelation," and the real subject of the Book of Revelation is how the sacred arises in history at a moment of crisis and destiny. With origins in ancient religions, the apocalyptic has been a transformative force from the time of the Crusades, through the Reformation, the French Revolution and modern communism, all the way to the present day "Islamic Jihad" and "War on Terror." In *Apocalypse*, John R. Hall explores

the significance of apocalyptic movements and the role they have played in the rise of the West and "The Empire of Modernity." This brilliant cross-disciplinary study offers a novel basis for rethinking our social order and its ambivalent relations to sacred history. Apocalypse will attract general readers seeking new understandings of the world in challenging times. Scholars and students will find a compelling synthesis that draws them into conversation with others interested in religion, theology, culture, philosophy, and phenomenology, as well as sociology, social theory, western civilization, and world history.

War and Peace in the Western Political Imagination The Crusades, Christianity, and Islam

Roman Catholicism may have been around for over 1,600 years now, but it is one of the most deceptive ongoing religious cults on the planet. Not only are they not Christian, but they lead people away from true Biblical Christianity, and frankly, straight into hell. Therefore, this book, Roman Catholicism & the Coming One World Religion, gives you the reader an in-depth understanding into the history, background, and false teachings of Roman Catholicism and their dastardly plans to create a global religion across the planet. Here you will uncover many powerful insights into such mind-blowing questions as: Is Catholicism Really Christian? Do Catholics Follow Doctrines of Demons? Is Catholicism a Cult? Do Catholics Follow False Doctrine? Is Catholicism Demonic? Do Catholics Teach a False Salvation? Is Catholicism the Great Harlot? Do Catholics Worship Mary? Can Catholicism & Christianity Coexist? Do Catholics Worship Saints? Will Catholicism Persecute True Christians? Do Catholics Need to be Witnessed To?

**The Relations Between Religion, Church, and Society** Wyatt North Publishing, LLC

The Crusades and the Inquisition, two separate historical events, are more closely related than most people realize. It is no accident that the Inquisition followed quickly on the heels of the Crusades, just as it is no coincidence that the Crusades as well as the Inquisition have been greatly misunderstood over the centuries, with popular historians focusing on and, indeed, exaggerating the "atrocities" committed by Christian armies and Inquisitors. Recent research has reversed many of these misconceptions, and the results will be enlightening to anyone curious about this much-disputed period in Christian history. In

this unique book, which combines discussion of both events and shows how they are related, Fr. John Vidmar, OP, offers a magisterial synthesis of the latest research and brings his own extensive knowledge as a historian of this era to provide an accessible, eminently readable book that will be indispensable to students and average readers alike.

What does "Protestant" mean? What are the differences in worship among Protestants? Who were the Huguenots? What does the Reformation mean for us today? This new book by best-selling author Don McKim answers these questions and many more, providing the essential history of the Protestant Reformation. In an easy-to-use question-and-answer style, Reformation Questions, Reformation Answers highlights the key facts, people, and theologies of the Protestant Reformation, as well as major legacies of the historical movement. Published in time for the 500th anniversary of the beginning of the Reformation, this new resource will help readers understand a critical moment in Christian history that still deeply affects who the church is today.

*The Crusades* Catholic Answers Press

Though buffeted on all sides by rapid and at times cataclysmic social, political, and economic change, the medieval church was able to make adjustments that kept it from becoming simply a fossil from the past rather than an enduring institution of salvation. The dynamic interaction between the medieval church and society gives form to this compelling and well-informed study by Adriaan Bredero. By considering medieval Christianity in full relation to its historical context, Bredero elucidates complex medieval realities - many of which run counter to common

modern notions about the Middle Ages. Bredero moves beyond the usual treatment of history by framing his overall discussion in terms of a fascinating and relevant question: To what extent is Christianity today still molded by medieval society? The book begins with an overview of religion and the church in medieval society, from the early Christianization of Western Europe through the fifteenth century. Bredero counters earlier romanticized assessments of the Middle Ages as a thoroughly Christian period by arriving at a definition of Christendom, not in its original sense as the empire of Charlemagne, but rather as "the countries, people, and matters which stood under the influence of Christ." Other chapters develop the following topics: medieval conceptions of reality that are prone to modern misunderstanding, such as a view of time that distinguished the distant, "ancient" past - an ideal, golden age - from the recent, "modern" past - an inferior, sub-Christian time - a concept that led to the rise of millenarianism; the role of Jerusalem in Western Christian thought - as a goal for pilgrims, a motivation for the Crusades, and a source of holy relics; the "Truce of God" movement as an attempt by bishops to restore peace, along with an analysis of its motives, limitations, and consequences; the rise of the Cistercian and Cluniac orders as reform movements within monasticism, with particular attention to the role of Bernard of Clairvaux; the veneration of saints, the nature of sainthood, and the growing authority of the pope in determining who was to be called a "saint"; Peter Abelard and his peculiar adversities; the evolution from the ideals of Francis of Assisi to the lifestyle of the Franciscan order. In an important and particularly intriguing chapter, Bredero deals with anti-Jewish feelings in the Middle Ages, examining how both the medieval church and society at large persecuted the Jews.

**The Handy Religion Answer Book** Univ of California Press  
Anti-Catholics like to paint Church teachings in a way that makes them seem vain, backward, or superstitious, all in the hope of drawing people out of the Faith and into sects or unbelief. Catholic apologists fight back with facts and sound arguments. But there's another area where the Church's enemies tell their own false story of Catholicism: its history. Whether it's from the media, classrooms, or out of the mouths of pastors and politicians, we've all heard a version of Catholic history filled with unrelenting violence, ignorance, worldliness, and bigotry. It's

enough to make many believers question whether the Church truly was founded by Christ. This kind of attack requires no less of a response from those who know the truth. In *The Real Story of Catholic History*, Steve Weidenkopf gives it to you. Weidenkopf (*The Glory of the Crusades*) collects over fifty of the most common and dangerous lies about Catholic history and, drawing on his experience as a historian and apologist, shows how to answer them simply and powerfully. Whether its claims about Catholicism's supposedly pagan origins, old myths about Galileo or the Inquisition that never seem to go away, or more modern misconceptions that anti-Catholics cynically exploit, *The Real Story* provides the desperately needed corrective. Packed with research and diligent in pursuit of the truth, while never whitewashing or explaining away the Church's past faults when they're found, *The Real Story of Catholic History* is an essential resource for every Catholic's bookshelf. Book jacket.

*A Handbook for Christian Higher Education* Greenwood Publishing Group

Providing detailed descriptions of the beliefs, rituals, history, and organization of the world's eight major religious traditions, including Judaism, Christianity, Islam, Buddhism, Hinduism, Confucianism, Taoism, and Shinto, this fully revised and updated edition is an easy-to-use comparative guide for anyone seeking basic religious literacy. Clearly and eloquently written by a scholar with more than 40 years of study and teaching experience, *The Handy Religion Answer Book* is organized into chapters on each major religion and contains a wealth of information about their history, beliefs, symbols, membership, leaders, observances, and customs. The reference answers more than 800 questions, such as What is the significance of the Star of David? How did so many different Christian churches come into being? What is the importance of the month of Ramadan? What is an Ayatollah? and Do Taoists believe in heaven and hell?, as well as new questions concerning religion and violence and suborganizations that claim affiliation with the major faith communities. A glossary of religious terminology, maps of the general coverage areas for each religion, and suggestions for further reading are also included. Explores the origins, battles, symbolism, and narratives of the

Crusades.

[The Foundations of Freedom](#) Rodopi

'Asbridge can't help but tell a ripping yarn, often breezily dramatic, whipping the narrative along.' *The Times* In the eleventh century, a vast Christian army, summoned to holy war by the Pope, rampaged through the Muslim world of the eastern Mediterranean, seizing possession of Jerusalem, a city revered by both faiths. Over the two hundred years that followed this First Crusade, Islam and the West fought for dominion of the Holy Land, clashing in a succession of chillingly brutal wars, both firm in the belief that they were at God's work. *The Crusades* tells the story of this epic struggle from the perspective of both Christians and Muslims, reconstructing the experiences and attitudes of those on either side of the conflict. Mixing pulsing narrative and piercing insight, it exposes the full horror, passion and barbaric grandeur of the crusading era. 'A dramatic and powerful look at both sides of the story . . .' *Sunday Times* 'A compelling narrative . . . A masterful conclusion' *Observer*

*Christian History Made Easy* Routledge

The Magna Carta, Latin for "Great Charter" (literally "Great Paper"), also known as 'Magna Carta Libertatum, is an English 1215 charter which limited the power of English Monarchs, specifically King John, from absolute rule. The Magna Carta was the result of disagreements between the Pope and King John and his barons over the rights of the king: Magna Carta required the king to accept that the will of the king could be bound by law. The Code of Hammurabi was a Mesopotamian legal code that laid a foundation for later Hebraic and European law. The Magna Carta is widely considered to be the first step in a long historical process leading to the rule of constitutional law and is one of the most famous documents in the world. Originally issued by King John of England (r.1199-1216) as a practical solution to the political crisis he faced in 1215, Magna Carta established for the first time the principle that everybody, including the king, was subject to the law. Although nearly a third of the text was deleted or substantially rewritten within ten years, and almost all the clauses have been repealed in modern times, Magna Carta remains a cornerstone of the British constitution. Most of the 63 clauses granted by King John dealt with specific grievances relating to his rule. However, buried within them were a number of fundamental values that both challenged the autocracy of the

king and proved highly adaptable in future centuries. Most famously, the 39th clause gave all 'free men' the right to justice and a fair trial. Some of Magna Carta's core principles are echoed in the United States Bill of Rights (1791) and in many other constitutional documents around the world, as well as in the Universal Declaration of Human Rights (1948) and the European Convention on Human Rights (1950). This translation is considered to be the best and an excellent reference document for your library. This is book 10 in the series of 150 books entitled "The Trail to Liberty." The following is a partial list (20 of 150) of books in this series on the development of constitutional law. 1. Laws of the town Eshnunna (ca. 1800 BC), the laws of King Lipit-Ishtar of Isin (ca. 1930 BC), and Old Babylonian copies (ca. 1900-1700 BC) of the Ur-Nammu law code 2. Code of Hammurabi (1760 BCE) - Early Mesopotamian legal code 3. Ancient Greek and Latin Library - Selected works on ancient history, customs and laws. 4. The Civil Law, tr. & ed. Samuel Parsons Scott (1932) - Includes the classics of ancient Roman law: the Law of the Twelve Tables (450 BCE) 5. "Constitution" of Medina (Dustur al-Madinah), Mohammed (622) 6. Policraticus, John of Salisbury (1159), various translations - Argued that citizens have the right to depose and kill tyrannical rulers. 7. Constitutions of Clarendon (1164) - Established rights of laymen and the church in England. 8. Assize of Clarendon (1166) - Defined rights and duties of courts and people in criminal cases. 9. Assize of Arms (1181) - Defined rights and duties of people and militias. 10. Magna Carta (1215) - Established the principle that no one, not even the king or a lawmaker, is above the law. 11. Britton, (written 1290, printed 1530) 12. Confirmatio Cartarum (1297) - United Magna Carta to the common law 13. The Declaration of Arbroath (1320) - Scotland's declaration of independence from England. 14. The Prince, Niccolò Machiavelli (1513) - Practical advice on governance and statecraft 15. Utopia, Thomas More (1516) 16. Discourses on Livy, Niccolò Machiavelli (1517 tr. Henry Neville 1675) 17. Relectiones, Franciscus de Victoria (lect. 1532, first pub. 1557) - Provided the basis for the law of nations doctrine. 18. Discourse on Voluntary Servitude, Étienne De La Boétie (1548, tr.) 19. De Republica Anglorum, Thomas Smith (1565, 1583) - describes the constitution of England under Elizabeth I 20. Vindiciae Contra Tyrannos (Defense of Liberty Against Tyrants)
