Discovering Mission San José The Rosen

The story of the missions is a compelling
human drama that is a vital piece not only
of California history, but also of American

history. Indeed, many keys to California's
past lie in the stories of the 20 missions
that stretch along the state's west coast
from San Diego to San Francisco. This vital
series is compatible with the mission-based
curriculum used in fourth-grade California
classrooms. It resonates equally with all
social studies programs that explore the
defunct notion of colonialism and its
controversial role in the history of the
United States, and with curricula that seek

to explore the interaction of different
cultures and the rights and voices of
indigenous peoples.

Monterey in 1786 The Rosen Publishing

On the afternoon of September 14, 1786,
two French ships appeared off the coast of
Monterey, the first foreign vessels to visit
Spain's California colonies. Aboard was a
party of eminent scientists, navigators,
cartographers, illustrators, and physicians.

For the next ten days the commander of this expedition, Jean François de La Pérouse, took detailed notes on the life and character of the area: its abundant wildlife, the labors of soldiers and monks, and the customs of Indians recently drawn into the mission. These observations provide a startling portrait of California two centuries ago.

Children of Coyote, Missionaries of Saint Francis The Rosen Publishing Group, Inc

Recovering lost voices and exploring issues intimate and institutional, this sweeping examination of Spanish California illuminates Indian struggles against a confining colonial order and amidst harrowing depopulation. To capture the enormous challenges Indians confronted, Steven W. Hackel integrates textual and quantitative sources and weaves together analyses of disease and depopulation, marriage and sexuality,

crime and punishment, and religious, economic, and political change. As colonization reduced their numbers and remade California, Indians congregated in missions, where they forged communities under Franciscan oversight. Yet missions proved disastrously unhealthful and coercive, as Franciscans sought control over Indians' beliefs and instituted unfamiliar systems of labor and punishment. Even so, remnants of Indian groups still survived when Mexican officials ended Franciscan rule in the 1830s. Many regained land and found strength in ancestral cultures that predated the Spaniards' arrival. At this study's heart are the dynamic interactions in and around Mission San Carlos Borromeo between Monterey region Indians (the Children of Coyote) and Spanish missionaries, soldiers, and settlers. Hackel places these local developments in the context of the California mission system and draws comparisons between California and other areas of the Spanish Borderlands and colonial America. Concentrating on the experiences of the Costanoan and Esselen peoples during the colonial period,

Children of Coyote concludes with an epilogue that carries the story of their survival to the present day.

California Mission Landscapes

"Nothing defines California and our nation's heritage as significantly or emotionally," says the California Mission Foundation, "as do the twenty-one missions that were founded along the coast from San Diego to Sonoma." Indeed,

the missions collectively represent the state's most iconic tourist destinations and are touchstones for interpreting its history. Elementary school students today still make model missions evoking the romanticized versions of the 1930s. Does it occur to them or to the tourists that the missions have a dark history? California Mission Landscapes is an unprecedented and fascinating history of California mission landscapes from colonial outposts to their reinvention as heritage sites through the late nineteenth and twentieth centuries. Illuminating the deeply political nature of this transformation, Elizabeth Kryder-Reid argues that the designed landscapes have long recast the missions from sites of colonial oppression to aestheticized and nostalgia-drenched monasteries. She investigates how such landscapes have been appropriated in social and political power struggles, particularly in the perpetuation of social inequalities across boundaries of gender, race, class, ethnicity, and religion. California Mission Landscapes demonstrates how the gardens planted in mission courtyards over the past 150 years are not merely anachronistic but

have become potent ideological spaces. The transformation of these sites of conquest into physical and metaphoric gardens has reinforced the marginalization of indigenous agency and diminished the contemporary consequences of colonialism. And yet, importantly, this book also points to the potential to create very different visitor experiences than these landscapes currently do. Despite the wealth of scholarship on California history, until now no book has explored the mission landscapes as an avenue into understanding the politics of the past, tracing the continuum between the Spanish colonial period, emerging American nationalism, and the contemporary heritage industry.

Go back in time to learn more about the Spanish missionaries who came to California in the 1700s and how the mission system shaped California's history. Each book in this series examines a region of California that was greatly influenced by missions. Missions introduced in San Francisco Bay Area Missions include San Francisco de Asís, Santa Clara de Asís, San José, Mission San Rafael Arcángel, and Mission San Francisco Solano. In this title, you'll learn about the Native Americans living in the San Francisco Bay area before missionaries arrived; why missionaries chose this area and what happened when they arrived; how the missionaries designed and built the missions; what daily life was like at the missions; what happened to cause the end of each mission; and what the missions look like today. This series also includes California Mission Projects and Layouts, which

provides directions for creating models of missions. Get ready for Exploring California Missions!

California Trails, Intimate Guide to the Old Missions Millefleurs

This book is a compelling and balanced history of the California missions and their impact on the Indians they tried to convert. Focusing primarily on the religious conflict between the two groups, it sheds new light on the tensions, accomplishments, and limitations of the California mission experience. James A. Sandos, an eminent authority on the American West, traces the history of the Franciscan missions from the creation of the first one in 1769 until they were turned over to the public in 1836.

Addressing such topics as the singular theology of the missions, the role of music in bonding Indians to Franciscan enterprises, the diseases caused by contact with the missions, and the Indian resistance to missionary activity, Sandos not only describes what happened in the California missions but offers a persuasive explanation for why it happened.

In two centuries, La Purísima Concepción went from a fledgling frontier mission to a renowned California State Historic Park.

Once home to many Spanish soldiers, settlers and hundreds of Chumash Indians, La Purísima held the seat of the California Mission government under Father Mariano Payeras. It withstood catastrophic events, including widespread disease in early years and a great Southern California earthquake in 1812. Emerging from ruins for the last time in 1934, after restoration by the Civilian Conservation Corps, structures appear today as they did in the early nineteenth century. The uniquely restored California Mission complex operates as a state park in a pastoral setting. Author and archivist Michael R. Hardwick chronicles the story of La Purísima and the resilient people and culture that made a lasting influence.

San Francisco de Solano was the last of the 21 California missions to be built. Fray Altimira began construction on the mission on August 25, 1823. The Spanish were not the only European settlers to live in the area where San Francisco de Solano was built. The Russians built Fort Ross nearby with plans to colonize the area. As many other missions did, Solano began to

decline in the 1830s prompting many Indians to leave the missions in search of more stable circumstances. The content provided in this book, aligned to California state standards, will provide students with a greater insight into the story of

California's mission system, and this gorgeous mission. This book is filled with excellent primary source materials and visuals, including illustrations, paintings, and maps.
