PATRICIA STEIN

Frankenstein Oxford University Press, USA

Victor Frankenstein's inventions aren't usually scary - they just make his friends giggle. But he's about to invent something truly terrifying! Books with short chapters are a great way for children who are reading independently to extend reading stamina and progress to the next step of their reading journey. This Read with Oxford Stage 6 book has short chapters, an engaging story and humorous colour illustrations. Tips for parents and fun after-reading activities help you to get the most out of the story. Featuring much-loved characters, great authors, engaging storylines and fun activities, Read with Oxford offers an exciting range of carefully levelled reading books to build your child's reading confidence. Find practical advice, free eBooks and fun activities to help your child progress on a [href=" https://www.oxfordowl.co.uk/"](https://www.oxfordowl.co.uk/) https://www.oxfordowl.co.uk/a. Let's get them flying!

Oxford Reading Tree: Stage 16A: TreeTops Classics: Frankenstein Cambridge University Press

From the chilling threats of the "ISIS vampire" to the view of al-Qaeda as the "Frankenstein the CIA created," terrorism seems to be inextricably bound with monstrosity. But why do the media and government officials often portray terrorists as monsters? And perhaps more puzzling, why do terrorists sometimes want to be perceived as such? This book, the first of its kind, examines the use of archetypal metaphors of monstrosity in relation to

terrorism, from the gorgons of Robespierre's "reign of terror" to the dragons and lycanthropes of anarchism, the beasts and blood-licking demons of ethnonational terrorism, and the hydras and Frankenstein's monsters of Islamic jihadism. Marco Pinfari argues that politicians frame terrorists as unmanageable monsters not only in an effort at cultural "othering" and dehumanization, but also to secure popular backing for rule-breaking behavior in counter-terrorism. The book also explores the way that terrorists themselves impersonate monsters, showing that several groups have pursued such a tactic throughout the history of terrorism. It contributes to a number of ongoing public debates by highlighting how, even when actors like the Islamic State present themselves as mad and irrational, their tactics remain in essence rational. Pinfari also provides an original historical outlook on the roots of monster metaphors and discusses several types of terrorism, including state terrorism, left-wing terrorism, anarchism, ethnonationalist terrorism, and white supremacist groups. In unpacking the functions played by monster metaphors and by their impersonation, *Terrorists as Monsters* helps the reader understand the political processes that hide behind the fangs.

Terrorists As Monsters Oxford University Press, USA

"Perhaps best recognized for the horror films it has spawned, 'Frankenstein,' written by 19-year-old Mary Shelley, was first published in 1818.

'Frankenstein' warns against the irresponsible use of science and technology and makes readers reconsider who the world's monsters really are and how society contributes to creating them. Ideal for research or general interest, this resource furnishes students with a collection of the most insightful critical essays available on this Gothic thriller, selected from a variety of literary sources."--

Frankenstein OUP Oxford

"Published for the 200th anniversary, this edition is based on the original 1818 text"--Page ii.

Heart of Darkness and Other Tales Oxford University Press

The Prometheus myth, for several reasons became a crucial site for conceptualizing human liberation in the immanent space of a finite globe structured by white domination and black slavery. The titan's defiant theft of fire from the regnant gods was translated through a high-stakes racial coding either as an 'African' revolt against the cosmic status quo that augured a pure autonomy, a black revolutionary immanence against which idealist philosophers like Hegel defined their projects and slaveholders defended their lives and positions. Or as a 'Caucasian' reflection of the divine power evidently working in favor of Euro-Christian civilization that transmuted the naked egoism of conquest into a righteous heteronomy-Euro-Christian civilization's mobilization by the Absolute or its internalization of a transcendent principle of universal Reason.

Frankenstein OUP Oxford

Sixteen original essays by leading scholars on Mary Shelley's novel provide an introduction to Frankenstein and its various critical contexts.

Frankenstein, Or, The Modern Prometheus Oxford University

Part of a series of dramatizations of well-known novels, selected for Key Stage 3 students, this play examines the monster's situation in a sympathetic light, and shows how the experiment to create an artificial human being went horribly wrong.

Frankenstein - With Audio Level 3 Oxford Bookworms Library Oxford University Press, USA

Shelley's suspenseful and intellectually rich gothic tale confronts some of the most important and enduring themes in all of literature—the power of human imagination, the potential hubris of science, the gulf between appearance and essence, the effects of human cruelty, the desire for revenge and the need for forgiveness, and much more. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

D.L. Macdonald and Kathleen Scherf's edition of Frankenstein has been widely acclaimed as an outstanding edition of the novel—for the general reader and the student as much as for the scholar. The editors use as their copy-text the original 1818 version, and detail in an appendix all of Shelley's later revisions. They also include a range of contemporary documents that shed light on the historical context from which this unique masterpiece emerged. New to this edition is a discussion of Percy Shelley's role in contributing to the first draft of the novel. Recent scholarship has provoked considerable interest in the degree to which Percy Shelley contributed to Mary Shelley's original text, and this edition's updated introduction discusses this scholarship. A new appendix also includes Lord Byron's "A Fragment" and John William Polidori's *The Vampyre*, works that are engaging in their own right and that also add further insights into the literary context of Frankenstein.

Frankenstein - Third Edition OUP Oxford

In the United States, egg donation for reproduction and egg donation for research involve the same procedures, the same risks, and the same population of donors—disadvantaged women at the intersections of race and class. Yet cultural attitudes and state-level policies regarding egg

donation are dramatically different depending on whether the donation is for reproduction or for research. Erin Heidt-Forsythe explores the ways that framing egg donation itself creates diverse politics in the United States, which, unlike other Western democracies, has no centralized method of regulating donations, relying instead on market forces and state legislatures to regulate egg donation and reproductive technologies. Beginning with a history of scientific research around the human egg, the book connects historical debates about the "natural" (reproduction) and "unnatural" (research) uses of women's eggs to contemporary political regulation of egg donation. Examining egg donation in California, New York, Arizona, and Louisiana and coupled with original data on how egg donation has been regulated over the last twenty years, this book is the first comprehensive overview and analysis of the politics of egg donation across the United States.

The Classic Horror Stories Oxford University Press - Children

Victor Frankenstein thinks he has found the secret of life. He takes parts from dead people and builds a new 'man'. But this monster is so big and frightening that everyone runs away from him - even Frankenstein himself! The monster is like an enormous baby who needs love. But nobody gives him love, and soon he learns to hate.

The Gothic: A Very Short Introduction Pearson UK

HEART OF DARKNESS * AN OUTPOST OF PROGRESS * KARAIN * YOUTH The finest of all Conrad's tales, 'Heart of Darkness' is set in an atmosphere of mystery and menace, and tells of Marlow's perilous journey up the Congo River to relieve his employer's agent, the renowned and formidable Mr Kurtz. What he sees on his journey, and his eventual encounter with Kurtz, horrify and perplex him, and call into question the very bases of civilization and human nature. Endlessly reinterpreted by critics and adapted for film, radio, and television, the story shows Conrad at his most intense and sophisticated. The other three tales in this volume depict corruption and obsession, and question racial assumptions. Set in the exotic surroundings of Africa, Malaysia, and the east, they variously appraise the glamour, folly, and rapacity of imperial adventure. This revised edition uses the English first edition texts and has a new chronology and bibliography. ABOUT THE SERIES: For over 100 years Oxford World's Classics has made available the widest range of literature from around the globe. Each affordable volume reflects Oxford's commitment to scholarship, providing the most accurate text plus a wealth of other valuable features, including expert introductions by leading authorities, helpful notes to clarify the text, up-to-date bibliographies for further study, and much more.

Powers OUP Oxford

A level 3 Oxford Bookworms Library graded reader. This version includes an audio book: listen to the story as you read. Retold for Learners of English by Patrick Nobes. Victor Frankenstein thinks he has found the secret of life. He takes parts from dead people and builds a new 'man'. But this monster is so big and frightening that everyone runs away from him - even Frankenstein himself! The monster is like an enormous baby who needs love. But nobody gives him love, and soon he learns to hate. And, because he is so strong, the next thing he learns is how to kill . . .

Frankenstein : Or, The Modern Prometheus OUP Oxford

The Gothic is wildly diverse. It can refer to ecclesiastical architecture, supernatural fiction, cult horror films, and a distinctive style of rock music. It has influenced political theorists and social reformers, as well as Victorian home décor and contemporary fashion. Nick Groom shows how the Gothic has come to encompass so many meanings by telling the story of the Gothic from the ancient tribe who sacked Rome to the alternative subculture of the present day. This unique Very Short Introduction reveals that the Gothic has predominantly been a way of understanding and responding to the past. Time after time, the Gothic has been invoked in order to reveal what lies behind conventional history. It is a way of disclosing secrets, whether in the constitutional politics of seventeenth-century England or the racial politics of the United States. While contexts change, the Gothic perpetually regards the past with fascination, both yearning and horrified. It reminds us that neither societies nor individuals can escape the consequences of their actions. The anatomy of the Gothic is richly complex and perversely contradictory, and so the thirteen chapters here range deliberately widely. This is the first time that the entire story of the Gothic has been written as a continuous history: from the historians of late antiquity to the gardens of Georgian England, from the mediaeval cult of the macabre to German Expressionist cinema, from Elizabethan Revenge Tragedy to American consumer society, from folk ballads to vampires, from the past to the present. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

The Cambridge Companion to Mary Shelley Oxford University Press

This collection of forty new essays, written by the leading scholars in adaptation studies and distinguished contributors from outside the field, is the most comprehensive volume on adaptation ever published. Written to appeal alike to specialists in adaptation, scholars in allied fields, and general readers, it hearkens back to the foundations of adaptation studies a century and more ago, surveys its ferment of activity over the past twenty years, and looks forward to the future. It considers the very different problems in adapting the classics, from the Bible to Frankenstein to Philip Roth, and the commons, from online mashups and remixes to adult movies. It surveys a dizzying range of adaptations around the world, from Latin American telenovelas to Czech cinema, from Hong Kong comics to Classics Illustrated, from Bollywood to zombies, and explores the ways media as different as radio, opera, popular song, and videogames have handled adaptation. Going still further, it examines the relations between adaptation and such intertextual practices as translation, illustration, prequels, sequels, remakes, intermediality, and transmediality. The volume's contributors consider the similarities and differences between adaptation and history, adaptation and performance, adaptation and revision, and textual and biological adaptation, casting an appreciative but critical eye on the theory and practice of adaptation scholars--and, occasionally, each other. The Oxford Handbook of Adaptation Studies offers specific suggestions for how to read, teach, create, and write about adaptations in order to prepare for a world in which adaptation, already ubiquitous, is likely to become ever more important.
