There are many great books on marriage. Oneness seeks to participate in the conversation by rediscovering some of the foundational truths God built life and marriage upon. Those truths are found in the Garden of Eden, where we find God's image-bearing design for man and woman and His intent for marriage. So much of what is in the Garden has

been lost to our modern lives, yet so much of what we suffer and miss can be traced back to His beginning. Whether you are considering getting married or have been married for a while, Oneness will provide you with foundational truths upon which you can build, or repair, your marriage so that you can live God's intent, unafraid of whatever may come your way.

*The Change Agent* AuthorHouse  
As Maness so forcefully presents, religion is truly the greatest source for change in human history, and our staff chaplains facilitate that. Likewise, we

came to see there would be little true cost savings, in that some staffer would have to take care religion in prison-it's a right after all-and manage the good volunteers. Jerry Madden, Senior Fellow Right on Crime - [RightonCrime.org](http://RightonCrime.org) House Committee on Corrections Chairman 2011-12 It seemed like all was lost. . . . Dr. Keith Bellamy Senior Minister, Woodville Church of Christ TDCJ Certified Volunteer Chaplain 15-plus years Take a ride through Maness' book and learn firsthand about reducing crime, rehabilitating lives, making our streets safer, and bringing hope to the least, the last and the lost just like Jesus commanded. The chaplain of the prison brings hope and light in what can be a dark and stressful place, all the more reason we need them. Carol S. Vance

This book examines the experiences of relatives of those accused or convicted

of serious crimes such as murder, manslaughter, rape and sex offences. A broader literature exists on prisoners' families, but few studies have looked specifically at those related to serious offenders, or considered their experience other than as prison visitors. Many of the difficulties faced by 'mundane' prisoners' families are magnified for the relatives of serious offenders, first by the length of sentence, and secondly by the seriousness and stigmatizing impact through association of the offence itself. *Families Shamed* draws upon intense qualitative research which combines long, searching interviews with the relatives of serious offenders with ethnographic fieldwork over a period of several years. The book focuses on how relatives made sense of their

experiences, individually and collectively: how they described the difficulties they faced; whether they were blamed and shamed and in what manner; how they understood the offence and the circumstances which had brought it about; and how they dealt with the contradiction inherent in supporting someone and yet not condoning his or her actions. This is the first book to tell the story of serious offenders' families, the difficulties they face, and their attempts to overcome them. At the same time a focus on offenders' families also draws our attention to the ways in which women are affected by crime, illuminating the broader effects of crime and the criminal justice process on the proportionately greater number of women involved. It

contributes also to wider debates about the social organization of the meanings of crime, and questions the tenability of some core policy assumptions about offenders and their families; the relationship between the state and the family, and its bearing especially on expectations about family responsibilities.

**Families Shamed** Rutgers University Press

Examines the role of prison gangs and their members in controlling life in prison.

**Summary of Enactments** Penguin  
Mass incarceration. In recent years it's become clear that the size of America's prison population is unsustainable -- and isn't needed to protect public safety. In this remarkable bipartisan collaboration,

the country's most prominent public figures and experts join together to propose ideas for change. In these original essays, many authors speak out for the first time on the issue. The vast majority agree that reducing our incarcerated population is a priority. Marking a clear political shift on crime and punishment in America, these sentiments are a far cry from politicians racing to be the most punitive in the 1980s and 1990s. Mass incarceration threatens American democracy. Hiding in plain sight, it drives economic inequality, racial injustice, and poverty. How do we achieve change? From using federal funding to bolster police best practices to allowing for the release of low-level offenders while they wait for trial, from eliminating prison for low-level

drug crimes to increasing drug and mental health treatment, the ideas in this book pave a way forward. Solutions promises to further the intellectual and political momentum to reform our justice system.

*The Audit Agenda* Simon and Schuster As Maness so forcefully presents, religion is truly the greatest source for change in human history, and our staff chaplains facilitate that. Likewise, we came to see there would be little true cost savings, in that some staffer would have to take care religion in prisonits a right after alland manage the good volunteers. Understanding Penal Practice Routledge

This handbook discusses the importance of effective prisoner file management, illustrating the consequences of poor or non-existent management. It will be of particular relevance to prison systems that do not have electronic systems for managing files. It outlines the key international human rights standards that apply to prisoner and detainee file management. It also summarizes and illustrates the key requirements of prison systems in relation to prisoner and

detainee file management in order to meet international human rights standards and how these might be met. "Prisons Make Us Safer" W. W. Norton & Company

Over the years, American colleges and universities have made various efforts to provide prisoners with access to education. However, few of these outreach programs presume that incarcerated men and women can rise to the challenge of a truly rigorous college curriculum. The Bard Prison Initiative is different. College in Prison chronicles how, since 2001, Bard College has provided hundreds of incarcerated men and women across the country access to a high-quality liberal arts education. Earning degrees in subjects ranging from Mandarin to advanced mathematics,

graduates have, upon release, gone on to rewarding careers and elite graduate and professional programs. Yet this is more than just a story of exceptional individuals triumphing against the odds. It is a study in how the liberal arts can alter the landscape of some of our most important public institutions giving people from all walks of life a chance to enrich their minds and expand their opportunities. Drawing on fifteen years of experience as a director of and teacher within the Bard Prison Initiative, Daniel Karpowitz tells the story of BPI's development from a small pilot project to a nationwide network. At the same time, he recounts dramatic scenes from in and around college-in-prison classrooms pinpointing the contested meanings that emerge in moments of

highly-charged reading, writing, and public speaking. Through examining the transformative encounter between two characteristically American institutions—the undergraduate college and the modern penitentiary—*College in Prison* makes a powerful case for why liberal arts education is still vital to the future of democracy in the United States.

*ABA Standards for Criminal Justice*  
Metropolitan Books

One out of every hundred adults in the U.S. is in prison. This book provides a crash course in what drives mass incarceration, the human and community costs, and how to stop the numbers from going even higher. This volume collects the three comic books published by the Real Cost of Prisons

Project. The stories and statistical information in each comic book is thoroughly researched and documented. *Prison Town: Paying the Price* tells the story of how the financing and site locations of prisons affects the people of rural communities in which prison are built. It also tells the story of how mass incarceration affects people of urban communities from where the majority of incarcerated people come from. *Prisoners of the War on Drugs* includes the history of the war on drugs, mandatory minimums, how racism creates harsher sentences for people of color, stories on how the war on drugs works against women, three strikes laws, obstacles to coming home after incarceration, and how mass incarceration destabilizes

neighborhoods. *Prisoners of a Hard Life: Women and Their Children* includes stories about women trapped by mandatory sentencing and the "costs" of incarceration for women and their families. Also included are alternatives to the present system, a glossary and footnotes. Over 125,000 copies of the comic books have been printed and more than 100,000 have been sent to families of people who are incarcerated, people who are incarcerated and to organizers and activists throughout the country. The book includes a chapter with descriptions about how the comix have been put to use in the work of organizers and activists in prison and in the "free world" by ESL teachers, high school teachers, college professors, students, and health care providers

throughout the country. The demand for them is constant and the ways in which they are being used is inspiring.

*Beyond Religion* Beacon Press

Criminological and penological scholarship has in recent years explored how and why institutions and systems of punishment change – and how and why these changes differ in different contexts. Important though these analyses are, this book focuses not so much on the changing nature of institutions and systems, but rather the changing nature of penal practice and practitioners Bringing together leading

researchers from around the world, this collection unites studies that aim to describe and critically analyse penal practice with studies that investigate its effectiveness and prescribe its future development. Reversing penology's usual preoccupation with the prison, the book focuses mainly on penal practice in the community (i.e. on probation, parole, offender supervision and 'community corrections'). The first part of the book focuses on understanding practice and practitioners, exploring how changing social, cultural, political, and organisational contexts influence practice, and how training, development, professional socialisation and other factors influence practitioners. The second part is concerned with how practitioners can be best supported to

develop the skills and approaches that seem most likely to generate positive impacts. It contains accounts of new practice models and approaches, as well as reports of research projects seeking both to discover and to encourage effective practices. This book explores internationally significant and cutting-edge theoretical and empirical work on the cultures, practices, roles and impacts of frontline practitioners in delivering penal sanctions. As such, it will be of interest to researchers in criminology, social work and social policy as well as correctional policy makers and those involved in community supervision.

*The Psychology of Criminal Conduct*

Bloomsbury Publishing USA

A vivid history of America's biggest, baddest prison system and how it came

to lead the nation's punitive revolution. In the prison business, all roads lead to Texas. The most locked-down state in the nation has led the way in criminal justice severity, from assembly-line executions to isolation supermaxes, from prison privatization to sentencing juveniles as adults. Texas Tough, a sweeping history of American imprisonment from the days of slavery to the present, shows how a plantation-based penal system once dismissed as barbaric became the national template. Drawing on convict accounts, official records, and interviews with prisoners, guards, and lawmakers, historian Robert Perkinson reveals the Southern roots of our present-day prison colossus. While conventional histories emphasize the North's rehabilitative approach, he

shows how the retributive and profit-driven regime of the South ultimately triumphed. Most provocatively, he argues that just as convict leasing and segregation emerged in response to Reconstruction, so today's mass incarceration, with its vast racial disparities, must be seen as a backlash against civil rights. Illuminating for the first time the origins of America's prison juggernaut, *Texas Tough* points toward a more just and humane future.

Revenge Body Cambridge University Press

Unsparring and important. . . . An informative, clearheaded and sobering book.—Jonathan Yardley, *Washington Post* (1999 Critic's Choice) Inner-city black America is often stereotyped as a place of random violence, but in fact,

violence in the inner city is regulated through an informal but well-known code of the street. This unwritten set of rules—based largely on an individual's ability to command respect—is a powerful and pervasive form of etiquette, governing the way in which people learn to negotiate public spaces. Elijah Anderson's incisive book delineates the code and examines it as a response to the lack of jobs that pay a living wage, to the stigma of race, to rampant drug use, to alienation and lack of hope.

### **Death Row: The Final Minutes**

Criminal Justice Handbook

America holds more than two million inmates in its prisons and jails, and hosts more than two million daily visits to museums, figures which represent a ten-

fold increase in the last twenty-five years. *Corrections and Collections* explores and connects these two massive expansions in our built environment. Author Joe Day shows how institutions of discipline and exhibition have replaced malls and office towers as the anchor tenants of U.S. cities. Prisons and museums, though diametrically opposed in terms of public engagement, class representation, and civic pride, are complementary structures, employing related spatial and visual tactics to secure and array problematic citizens or priceless treasures. Our recent demand for museums and prisons has encouraged architects to be innovative with their design, and experimental with their scale and distribution through our cities. Contemporary museums are the

petri dishes of advanced architectural speculation; prisons remain the staging grounds for every new technology of constraint and oversight. Now that criminal and creative transgression are America's defining civic priorities, *Corrections and Collections* will recalibrate your assumptions about art, architecture, and urban design.

*The Sergeants Major of the Army*  
McGraw-Hill Humanities, Social Sciences  
& World Languages

"Beyond Religion" is a stirring call to move beyond religion for the guidance to improve human life on individual, community, and global levels--including a guided meditation practice for cultivating key human values.

*The Coffee Bean* Routledge  
Community Justice discusses concepts of

community within the context of justice policy and programs, and addresses the important relationship between the criminal justice system and the community in the USA. Taking a bold stance in the criminal justice debate, this book argues that crime management is more effective through the use of informal (as opposed to formal) social control. It demonstrates how an increasing number of criminal justice elements are beginning to understand that the development of partnerships within the community that enhance informal social control will lead to a stabilization and possible a decline in crime, especially violent crime, and make communities more liveable. Borrowing from an eclectic toolbox of ideas and strategies - community

organizing, environmental crime prevention, private-public partnerships, justice initiatives - Community Justice puts forward a new approach to establishing safe communities, and highlights the failure of the current American justice system in its lack of vision and misuse of resources. Providing detailed information about how community justice fits within each area of the criminal justice system, and including relevant case studies to exemplify this philosophy in action, this book is essential reading for undergraduate and postgraduate students of subjects such as criminology, law and sociology.

**Handbook on Prisoner File Management** AuthorHouse

When Texas Prison Scams Religion

exposes corruption in the Texas Department of Criminal Justice, especially in the abuse of religion. In many ways, this book is a literature review of 1,800-plus works that defends freedom of conscience in prison while exposing the unconstitutionality of the seminary program that “buys faith with favor” from prisoners. The state veritably ordains the prisoner a “Field Minister” that represents the offices of the Governor, TDCJ Director, and wardens throughout the prison. Therein, TDCJ lies about neutrality in a program all about Christian missions and lies again in falsely certifying elementary Bible students as counselors. Why is the director sponsoring psychopaths counseling psychopaths? In fact, TDCJ pays \$314 million a year to UTMB for

psychiatric care and receives not a single report of the care given, and worse, for UTMB generates no reports itself. The underbelly TDCJ’s executive culture of cover up is exposed. TDCJ has hired the lowest qualified of the applicant pool many times in the last 25 years and regularly destroys statistics on violence. TDCJ Dir. Collier led the prison to model Louisiana Warden Burl Cain, the most scandal-ridden in penal history according to a host of published news stories for 20 years. Therein, Collier led TDCJ to favor the smallest segment of religious society within Evangelical Dominionism. Texas has no business endorsing the truth of any religion over another. We close with a proposal that utilizes the 400,000,000 hours of officer contact over ten years as a definitive

influence in contrast to a commissioner that spends less than 10 minutes on each decision. Maness has been lobbying Austin for 15 years to definitively access staff for his “100,000 Mothers’ 1% Certainty Parole Texas Constitutional Amendment,” which would revolutionize prison culture and save Texans millions of the dollars. Dispensing of Medication Routledge “Tells the story of a traumatic life spent witnessing hundreds of people being executed in Texas’ most infamous prison.” —Daily Beast “I can’t remember his name or his crime. What I remember is the nothingness. No family members, no friends, no comfort. Maybe he didn’t want them to come, maybe they didn’t care, maybe he didn’t have any in the first place. It was just a prison official

and two reporters, including me, looking through the glass at this man strapped fast to the gurney, needles in both arms, staring hard at the ceiling. When the warden stepped forward and asked if he wanted to make a last statement, the man barely shook his head, said nothing and started blinking. That’s when I saw it: a single tear at the corner of his right eye. A tear he desperately wanted to blink away, a tear he didn’t want us to see. It pooled there for a moment before running down his cheek. The warden gave his signal, the chemicals started flowing, the man coughed, sputtered and exhaled. A doctor entered the room, pronounced the man dead and pulled a sheet over his head.” —Michelle Lyons, from the Prologue Michelle Lyons witnessed nearly 300 executions at the

Texas State penitentiary. This “haunting, dark and hard to put down” behind-the-scenes look at those final moments of life relates shocking true stories of the inmate, his/her family members, prison officials, the death-row chaplain and the victim’s loved ones—all of whom come together in the death chamber (Houston Chronicle).

*Corrections in the 21st Century with Student Tutorial (Glencoe)* Pm Press  
 REVENGE BODY traces moments in the aftermath of survival and rebuilding toward a more livable future for survivors. While refusing to hide, minimize, justify or ignore instances of trauma, it also refuses to succumb to them. Instead, it probes these histories as a strategy to move through the pain and forge an alternate path for a new

tomorrow. Poetry.

It's about Time Bonnier Publishing Ltd.  
 From bestselling author Jon Gordon and rising star Damon West comes *The Coffee Bean*: an illustrated fable that teaches readers how to transform their environment, overcome challenges, and create positive change. Life is often difficult. It can be harsh, stressful, and feel like a pot of boiling hot water. The environments we find ourselves in can change, weaken, or harden us, and test who we truly are. We can be like the carrot that weakens in the pot or like the egg that hardens. Or, we can be like the coffee bean and discover the power inside us to transform our environment. *The Coffee Bean* is an inspiring tale that follows Abe, a young man filled with stress and fear as he faces challenges

and pressure at school and home. One day after class, his teacher shares with him the life-changing lesson of the coffee bean, and this powerful message changes the way he thinks, acts, and sees the world. Abe discovers that instead of letting his environment change him for the worse, he can transform any environment he is in for the better. Equipped with this transformational truth, Abe embarks on an inspirational journey to live his life like the coffee bean. Wherever his life

takes him, from school, to the military, to the business world, Abe demonstrates how this simple lesson can unleash the unstoppable power within you. A delightful, quick read, *The Coffee Bean* is purposely written and designed for readers of all ages so that everyone can benefit from this transformational lesson. This is a book and message that, when read and shared, has the power to change your life and the world around you. You just have to decide: are you a carrot, egg, or coffee bean?
