When the Umayyads, the first Islamic dynasty, rose to power shortly after the death of the Prophet Muhammad (d. 632), the polity of which they assumed control had only recently expanded out of Arabia into the Roman eastern Mediterranean, Iraq and Iran. A century later, by the time of their downfall in 750, the last Umayyad caliphs governed the largest empire that the world had seen, stretching from Spain in the West to the Indus valley and Central Asia in the East. By then, their dynasty and the ruling circles around it had articulated with increasing clarity the public face of the new monotheistic religion of Islam, created major masterpieces of world art and architecture, some of which still stand today, and built a state apparatus that was crucial to ensuring the continuity of the Islamic polity. Within the vast lands under their control, the Umayyads and their allies ruled over a mosaic of peoples, languages and faiths, first among them

Christianity, Judaism and the Ancient religion of Iran, Zoroastrianism. The Umayyad period is profoundly different from ours, yet it also resonates with modern concerns, from the origins of Islam to dynamics of cultural exchange. Editors Alain George and Andrew Marsham bring together a collection of essays that shed new light on this crucial period. Power, Patronage, and Memory in Early Islam elucidates the ways in which Umayyad elites fashioned and projected their self-image, and how these articulations, in turn, mirrored their own times. The authors, combining perspectives from different disciplines, present new material evidence, introduce fresh perspectives about key themes and monuments, and revisit the nature of the historical writing that shaped our knowledge of this period.

This prize-winning novel of a fugitive priest in Mexico is quite simply "Graham Greene's masterpiece" (John Updike, *The New York Review of Books*). In the Mexican state of Tabasco in the 1930s, all vestiges of Catholicism are being outlawed by the government. As churches are razed, icons are banned, and the price of devotion is execution, an unnamed member of the clergy flees. He's known only as the "whisky priest." Beset by heretical vices, guilt, and an immoral past, he's torn between self-destruction and self-preservation. Too modest to be a martyr, too stubborn to follow the law, and too craven to take a bullet, he now travels as one of the hunted—attending, in secret, to the spiritual needs of the faithful. When a peasant begs him to return to Tabasco to hear the confessions of a dying man, the whisky priest knows it's a trap. But it's also his duty—and possibly his

salvation. Named by Time magazine as one of the hundred best English-language novels written since 1923, *The Power and the Glory* is "a violent, raw" work on "suffering, strained faith, and ultimate redemption" (The Atlantic).

"Karin Bergöö Larsson (1859-1928) was a mother of eight and wife to Sweden's beloved painter, Carl Larsson. She was herself a

well-regarded artist but gave it up when she married, at the request of her husband. Replacing paintbrushes and canvas with needles and cloth, she turned a somewhat ugly cottage into a designer showcase"--

But then a vital new force takes root and flourishes, causing their lives to converge with devastating effect. Teenage girls now have immense physical power--they can cause agonizing pain and even death. And, with this small twist of nature, the world drastically resets. People, Politics, and Power Pit Bull Flower Power For decades, pit bulls have been demonized by society and portrayed as hellhounds. They've become the most feared, hated, and abused

of all companion animals. Some cities and even entire countries ban them, while the media persist in associating them with viciousness. This unjust reputation has sealed the fate of millions of dogs, who face prejudice around the world and languish in shelters, where they are the most euthanized. In America alone, hundreds of thousands of pit bulls are put to sleep every year. Since 2014, French photographer Sophie Gamand has been composing portraits of adoptable pit bulls from more than thirty shelters and rescues throughout the United States. Many had been waiting for years for a home. Adorning her models with handmade flower-crowns, Gamand tells each dog's story and celebrates their inherent personality, vulnerability, and individuality. Posted and shared widely on social media, the portraits--at once charming, candid, and deeply affecting--have not only led to hundreds of dogs finding loving, forever homes, but have also spurred efforts to destigmatize an animal whose reputation for violence says more about us than it does the character of the dogs themselves. Full of moving, honest, and inspiring stories of individual dogs and their lives (and deaths), Pit Bull Flower Power presents a vivid, beautifully composed cross-section of Gamand's extraordinary work. The book also serves as a testament to the caring people who work in animal rescue, the passion and dedication of those who provide homes for these animals, and the dignity, forbearance, and love of these dogs, who are at the mercy of humans.

The conceptual territory of religious tourism is fluid. While recreation and leisure-based motivation and behaviors are evident in religious tourism, this volume reiterates its rootedness in tenets from religious traditions and pilgrimages. Using fresh perspectives on place-stories, rituals, performances, that are central to pilgrimage and sacred sites, essays in this volume explain contemporary expressions of religious tourism and illustrate the dynamic nature of religious tourism as an ecosystem embedded in religious practices, rituals and performances. The explanations will benefit researchers and practitioners alike and they can find numerous examples that show the significance of religious tourism for sustainable development of destinations.
