This book constitutes the proceedings of the 7th International Conference on Mobile Computing, Applications, and Services (MobiCASE 2015) held in Berlin, Germany, in November 2015. The 16 full and 4 poster papers were carefully reviewed and selected from 43 submissions, and are presented together with 4 papers from the First Workshop on Situation Recognition by Mining Temporal Information (SIREMETI 2015). The conference papers cover the following topics: intelligent caching, activity recognition and crowdsourcing, mobile frameworks, middleware, interactive applications and mobility.

Entries. Third Series

Selected Problems of the Rural Classroom with Solutions by Teachers in Colorado
 Selected Water Resources Abstracts
 A Survey of Major Problems and Solutions in the Field of the Aged and the Aging
 A Compilation of Responses to a Survey by the Subcommittee on Problems of the Aged and Aging of the Committee on Labor and Public Welfare, United States Senate
 Mobile Computing, Applications, and Services
 7th International Conference, MobiCASE 2015, Berlin, Germany, November 12-13, 2015, Revised Selected Papers
 Introduces a variety of animals and habitats that exist along Colorado's Front Range. Ages 12 and up.

Proceedings Springer
 This wide-ranging collection of essays is intended to provoke both thought and action. The pieces collected here explore a variety of issues facing the American West

-- deteriorating air quality, suburban sprawl, species loss, grassland degradation, disappearing Native American languages, and many others -- and suggest steps toward "healing." More than "dealing with" or "solving," according to the editors, the concept of healing addresses not just symptoms but their underlying causes, offering not just a temporary cure but a permanent one. The very idea of restoring the West to health, the contributors and editors contend, unleashes our imaginations, sharpens our minds, and gives meaning to the ways we choose to live our lives. At the same time, acknowledging the profound difficulty of the work that lies ahead immunizes us against our own arrogance as we set about the task of healing the West.

 Three important areas of process dynamics and control: chemical reactors, distillation columns and batch processes are the main topics of discussion and evaluation at the IFAC

Symposium on Dynamics and Control of Chemical Reactors, Distillation Columns and Batch Processes (DYCORD '95). This valuable publication was produced from the latest in the series, providing a detailed assessment of developments of key technologies within the field of process dynamics and control.
