 6 Example Tic Tac Toe Tic-tac-toe (American English), noughts and crosses (Commonwealth English), or Xs and Os, is a paper-and-pencil game for two players, X and O, who take turns marking the spaces in a 3×3 grid. The player who succeeds in placing three of their marks in a

horizontal, vertical, or diagonal row is the winner. It is a solved game with a forced draw assuming best play from both players. Tic-tac-toe - Wikipedia For example, if you have to select any number then for X or O will be shown on the print board, and turn for next will be there. The task is to create a Java program to implement a 3×3 Tic-Tac-Toe game for two players. Tic-Tac-Toe Game in Java - GeeksforGeeks Play the classic Tic-Tac-Toe game

(also called Noughts and Crosses) for free online with one or two players. Neave Interactive. Tic-Tac-Toe. Play a retro version of tic-tac-toe (noughts and crosses, tres en raya) against the computer or with two players. Player Player 1 0. Tie 0. Tic-Tac-Toe - Play retro Tic-Tac-Toe online for free 6 Example: Tic-Tac-Toe planning data structure describe how 103 Program file for this chapter: This chapter is the first application of the ideas we've explored to a

sizable project. The primary purpose of the chapter is to introduce the techniques of a project, especially the choice of how to organize the information needed by the program ...6 Example: Tic-Tac-Toe - EECS at UC Berkeley  
 Line 45 of the Tic-Tac-Toe program provides a typical example of how a regular expression is used in a PERL program. The regular expression [1-9] is being applied to the variable game which holds the in-memory representation of the Tic-Tac-Toe game board.
