BRUNO LAWRENCE

Research Handbook on Feminist Jurisprudence Edward Elgar Publishing
This edition of our successful series to support the Cambridge IGCSE Biology syllabus (0610) is fully updated for the revised syllabus for first examination from 2016. Written by an experienced teacher and examiner, Cambridge IGCSE Biology Coursebook with CD-ROM gives comprehensive and accessible coverage of the syllabus content. Suggestions for practical activities are included, designed to help develop the required experimental skills, with full guidance included on the CD-ROM. Study tips throughout the text, exam-style questions at the end of each chapter and a host of revision and practice material on the CD-ROM are designed to help students prepare for their examinations. Answers to the exam-style questions in the Coursebook are provided on the CD-ROM.

A Very Short Introduction Oxford University Press
Building on earlier work in the anthropology of law and taking a critical stance toward it, June Starr and Jane F. Collier ask, "Should social anthropologists continue to isolate the 'legal' as a separate field of study?" To answer this question, they confront critics of legal anthropology who suggest that the subfield is dying and advocate a reintegration of legal anthropology into a renewed general anthropology. Chapters by anthropologists, sociologists, and law professors, using anthropological rather than legal methodologies, provide

original analyses of particular legal developments. Some contributors adopt an interpretative approach, focusing on law as a system of meaning; others adopt a materialistic approach, analyzing the economic and political forces that historically shaped relations between social groups. Contributors include Said Armir Arjomand, Anton Blok, Bernard Cohn, George Collier, Carol Greenhouse, Sally Falk Moore, Laura Nader, June Nash, Lawrence Rosen, June Starr, and Joan Vincent.

Text with Materials Oxford University Press, USA

Doctrinal and critical, Thompson's *Modern Land Law* looks at the core areas of this subject area through a theoretical lens. The authors excel at explaining difficult rules and concepts clearly but without oversimplification, guiding students around the common pitfalls in areas where there is typically misunderstanding or confusion. Straightforward accounts of the law are underpinned by insightful author commentary on areas of debate, exposing students to critical reasoning. Examples of the context in which land law operates helps students to understand abstract topics and encourages them to appreciate the social importance of this subject.

Central Issues in Jurisprudence

Independently Published

The *Research Handbook on Feminist Jurisprudence* surveys feminist theoretical understandings of law, including liberal and radical feminism, as well as socialist, relational, intersectional, post-modern, and pro-sex and queer feminist legal theories.

A Practical Approach to Criminal Procedure Oxford University Press

This book provides an account and explanation of a fundamental dilemma facing secular states: the 'legitimacy gap' left by the withdrawal of religion as a source of legitimacy. Legitimacy represents a particular problem for the secular state. The 'secular' in all its manifestations is very much linked to the historical rise of the modern state. It should not be seen as a category that separates culture and religion from politics, but rather as one that links these different dimensions. In the first part of the book, Depaigne explains how modern constitutional law has moved away from a 'substantive' legitimacy, based in particular on natural law, towards a 'procedural' legitimacy based on popular sovereignty and human rights. Depaigne examines three case studies of constitutional responses to legitimacy challenges which articulate the three main sources of 'procedural' legitimacy (people, rights, and culture) in different ways: the 'neutral model' (constitutions based on the 'displacement of culture'); the 'multicultural model' (constitutions based on diversity and pluralism); and the 'asymmetric model' (constitutions based on tradition). Even if secularization can be considered European in its origin, it is best seen today as a global phenomenon, which needs to be approached by taking into account the particular cultural dimension in which it is rooted. Depaigne's detailed study shows how secularization has moved either towards 'nationalization' linked to a particular national identity (as in France and, to some extent, in India)- or towards 'de-secularization', whereby secularism is displaced by particular cultural norms, as in Malaysia.

Legitimacy Gap Law Book Company for New South Wales Bar Association

This volume in the 'Core Text Series' covers the law of trusts, explaining from first principles what 'trusts' is about and providing the student with an understanding of the law and the important academic controversies surrounding it.

The Dissolution of Legal Theory CQ Press
Understanding Jurisprudence by Raymond Wacks adopts a novel approach to this challenging subject; It reveals the nature of legal theory with clarity, enthusiasm, and wit, without avoiding its complexities and subtleties. The author provides an illuminating guide to the central questions of legal theory. An experienced teacher of jurisprudence and distinguished writer in the field, his approach is stimulating, accessible, and even entertaining. The concept of law lies at the heart of our social and political life. Jurisprudence explores the concept of law and its role in society. It elucidates its meaning and its relation to the universal questions of justice, rights, and morality. And it analyzes the nature and purpose of our legal system, and its practice by courts, lawyers, and judges.

An Introduction to Law Cambridge University Press

This primer on legal reasoning is aimed at law students and upper-level undergraduates. But it is also an original exposition of basic legal concepts that scholars and lawyers will find stimulating. It covers such topics as rules, precedent, authority, analogical reasoning, the common law, statutory interpretation, legal realism, judicial opinions, legal facts, and burden of proof.

Commentary and Materials

Psychology Press

Earlier editions have title : Introduction to jurisprudence.

Edward Elgar Publishing
 Philosophy of Law: An Introduction provides an ideal starting point for students of philosophy and law as it assumes no prior knowledge of either subject. The book is structured around the key issues and themes in the philosophy of law, including: what is the law? - exploring the major legal theories of realism, positivism and natural law the reach of the law - covering authority, rights, liberty, privacy and tolerance criminal responsibility and punishment - including legal defenses, crime, diminished responsibility and theories of punishment. The second edition is updated with important developments in English law, the general impact of the Human Rights Act and the defence of necessity in relation to the Case of the Conjoined Twins. Radical Marxism, feminist, critical legal studies and critical race theories are also explained against the background of controversy between postmodernism and defences of modernity. New chapters assess the value of traditional legal theory and various critical perspectives and study questions at the end of each chapter help students explore the most important issues in philosophy of law.
Cambridge IGCSE® Biology Coursebook with CD-ROM Routledge
 "Family Law, 10th edition, by Jonathan Herring, is the best-selling textbook that's loved by students and lecturers alike. Offering exceptional coverage of all key family law principles, this book explores the theories, debates and ethical dilemmas that underpin the subject, ensuring you have the knowledge required to critique the existing law and evaluate reform options. The tenth edition has been fully updated with all significant legal developments in the area of family law"-

-
The Land is the Source of the Law Oxford University Press, USA
 In this original and thought-provoking Research Handbook, an international and interdisciplinary group of scholars, artists, lawyers, judges, and writers offer a range of perspectives on rethinking law by means of literary concepts. Presenting a comprehensive introduction to jurisliterary themes, it destabilises the traditional hierarchy that places law before literature and exposes the literary nature of the legal.
Information Technology Law Folens Limited
 Essential reading for all those who wish to understand why legal theory is important to legal education, and for those who wish to extend their understanding of this dynamic academic discipline. A variety of perspectives are drawn together including social, literary, feminist and postmodernist theories.
An Introduction to Legal Theory Cornell University Press
 Commercial law plays a large part in China's transition to its status as a major trading nation. This book contains chapters that focus on areas of the law pertinent to China's continuing economic development. It provides an analysis of the Five Year Plans and their effect on the development of and changes in commercial law. China is focused on developing its internal market and
 COMMERCIAL LAW OF THE PEOPLE'S REPUBLIC OF CHINA provides an examination of a number of highly relevant topics, such as Company Law, Labour Law, Property Law, Intellectual Property Law, Consumer Law, Energy Law and Renewable Energy Law. Chapters on Tax Law, Competition Law and Policy, and Commercial Arbitration Law written by experts in their field

provide an up-to-date and in-depth coverage of other important commercial law subjects. This book acknowledges that China's rapid development is affected by policy changes on issues such as urbanisation, the structure of the industrial sector and the environment. These changes and their effect on the national economy and the legal system are discussed in the book.

An Introduction Pearson UK

The Land is the Source of Law brings an inter-jurisdictional dimension to the field of indigenous jurisprudence: comparing Indigenous legal regimes in New Zealand, the USA and Australia, it offers a 'dialogical encounter with an Indigenous jurisprudence' in which individuals are characterised by their rights and responsibilities into the Land. Though a relatively "new" field, indigenous jurisprudence is the product of the oldest continuous legal system in the world. Utilising a range of texts – films, novels, poetry, as well as "law stories" CF Black blends legality and narrative in order to redefine jurisprudentia in indigenous terms. This re-definition gives shape to the jurisprudential framework of the book: a shape that is not just abstract, but physical and metaphysical; a shape that is circular and concentric at the same time. The outer circle is the cosmology, so that the human never forgets that they are inside a universe – a universe that has a law. This law is found in the second circle which, whilst resembling the ancient Greek law of physis is a law based on relationship. This is a relationship that orders the placing of the individual in the innermost circle, and which structures their rights and responsibilities into the land. The jurisprudential texts which inform the theoretical framework of this book bring

to our attention the urgent message that the Djang (primordial energy) is out of balance, and that the rebalancing of that Djang is up to the individual through their lawful behaviour, a behaviour which patterns them back into land.

Thus, *The Land is the Source of the Law* concludes not only with a diagnosis of the cause of climate change, but a prescription which offers an alternative legal approach to global health.

Can feminism be regarded as a single coherent approach to the study of law and social theory? A critical evaluation Oxford University Press

Information technology affects all aspects of modern life. From the information shared on social media such as Facebook, Twitter, and Instagram to online shopping and mobile devices, it is rare that a person is not touched by some form of IT every day. *Information Technology Law* examines the legal dimensions of these everyday interactions with technology and the impact on privacy and data protection, as well as their relationship to other areas of substantive law, including intellectual property and criminal proceedings. Focusing primarily on developments within the UK and EU, this book provides a broad-ranging introduction and analysis of the increasingly complex relationship between the law and IT. *Information Technology Law* is essential reading for students of IT law and also appropriate for business and management students, as well as IT and legal professionals. Online resources The accompanying online resources include a catalogue of web links to key readings and updates to the law since publication. **Company Law** Oxford University Press Written by leading figures in the field,

this third edition of the Principles of Banking Law provides an authoritative account of the subject, incorporating all significant changes in banking law, regulation, and practice that have occurred since the publication of the second edition in 2002. The authors offer a thoughtful and contextual treatment of domestic and international banking and financial services law, with in-depth expert coverage of global bank regulation, payment systems, lending, and trade finance.

An Analysis of the Economic Torts Oxford University Press

Now in its fourteenth edition, *A Practical Approach to Criminal Procedure* provides a complete guide to the criminal process in England and Wales. It explains what happens before the accused appears in court, the way in which prosecutions are commenced, funding by the criminal defence service, and bail. It describes proceedings in the magistrates' court, including summary trial and committal for sentence, as well as the way in which the youth court operates. Committal and transfer for trial are clearly explained and the process by which serious offences are sent direct to the Crown Court is also studied. Trial on indictment is discussed in detail, as are sentencing and appeals. This new edition has been fully updated to incorporate recent developments in the field. In particular, attention is paid to the changes resulting from the Legal Aid, Sentencing and Punishment of Offenders Act, as well as to recent Sentencing Guidelines. Changes to the PACE codes are also considered in detail. Very much a

practical guide, this title makes frequent use of examples, flowcharts, and tables, and is specifically designed to assist the busy professional and student. *A Practical Approach to Criminal Procedure* is an indispensable resource for those working in this field. The *A Practical Approach* series is the perfect partner for practice work. Each title focuses on one field of the law and provides a comprehensive overview of the subject together with clear, practical advice and tips on issues likely to arise in practice.

The books are also an excellent resource for those new to the law, where the expert overview and clear layout promote ease of understanding.

Asking the Law Question Routledge Offering the most thought-provoking introduction to EU law. Written in a highly readable narrative style, the book provides students with a succinct yet sophisticated analysis of the core aspects of the subject, while also equipping them with the tools for further exploration. Figures and tables clarify complex ideas and processes, and a guide to finding and reading EU judgments offers valuable practical support. This carefully structured guide brings clarity to a broad and multifaceted subject.

International Law Harvard University Press

The ninth edition of the leading textbook on jurisprudence contains extracts from the works of more than 100 jurists. These are supported by detailed introductory sections which give background and critical insight into the texts.
