Come back to Thunder
Point with an emotional,
uplifting story in book 5 of
the beloved series by #1
New York Times
bestselling author Robyn
Carr. Scott Grant has a
bustling family practice in

the small Oregon
community of Thunder
Point. The town and its
people have embraced
the widowed doctor and
father of two, his children
are thriving, and Scott
knows it's time to move
on from his loss. But as
the town's only doctor,
the dating pool is limited.
That is, until a stunning
physician's assistant
applies for a job at his
clinic. Peyton Lacoumette

considers herself entirely
out of the dating scene.
She's already been
burned by a man with
kids, and she's come to
Thunder Point determined
not to repeat past
mistakes. When Scott
offers her a job, at a much
lower salary than she's
used to, Peyton is
surprisingly eager to
accept...at least for now.
She's willing to stay for a
three-month trial period

while she explores other options. Scott and Peyton know the arrangement is temporary—it isn't enough time to build a real relationship, never mind anything with lasting commitment. But love can blossom faster than you think when the timing is right, and this short visit just might hold the promise of forever.

In *Complaint!* Sara Ahmed examines what we can learn about power from

those who complain about abuses of power. Drawing on oral and written testimonies from academics and students who have made complaints about harassment, bullying, and unequal working conditions at universities, Ahmed explores the gap between what is supposed to happen when complaints are made and what actually happens. To make complaints within institutions is to learn how they work and for whom they work: complaint as feminist pedagogy.

Ahmed explores how complaints are made behind closed doors and how doors are often closed on those who complain. To open these doors---to get complaints through, keep them going, or keep them alive---Ahmed emphasizes, requires forming new kinds of collectives. This book offers a systematic analysis of the methods used to stop complaints and a powerful and poetic meditation on what complaints can be used to do. Following a long lineage of Black feminist

and feminist of color critiques of the university, Ahmed delivers a timely consideration of how institutional change becomes possible and why it is necessary. USA Today on The Gate to Everything *The Story of Patriarchs and Prophets* Houghton Mifflin Harcourt "A perceptive, poignant novel of middle-school identity and friendship" from the author of Prettiest Doll (The Horn Book). Sarah promised Marjorie when they were five years old that they would be best friends forever. But that was before seventh grade, when everything changed—everything except Marjorie. While Sarah wants to meet new

people and try new things, Marjorie still likes doing the same things they always did. It seems the more time the two girls spend together, the more time Sarah wants to spend apart. How did a promise that was so easy to make become so hard to keep? With beautifully drawn characters and vivid details, this incisive novel portrays middle school in all its complexity—both the promise of what is to come and the pain of what must be left behind.  Hundreds of years of ridicule, persecution, erasure, misunderstanding, and institutionalization could put anyone in a bad mood. Killjoy invites you into her castle for a queer exorcism and celebration

of the past. Lesbian feminist histories can have a haunting effect on the present. This book explores the making and experience of Killjoy’s Kastle, an immersive walk-through installation and performance artwork (by Allyson Mitchell and Deirdre Logue). Inspired by Evangelical Christian hell houses, the exhibition has been staged in three cities so far – Toronto, London, and Los Angeles – engaging thousands in interactive encounters with the spirits that haunt feminist and queer

history. Where traditional hell houses set out to scare and convert, Killjoy's Kastle cheekily aims to provoke and pervert. Inside Killjoy's Kastle extends and reflects on the theoretical and political legacies of the installation in chapters by queer and feminist scholars and in vignettes by participating artists. The many colourful photos in the book also bring the kastle to life, offering an important visual context. [Differences that Matter](#)

Princess Harper is a happy girl and she wants everyone in the kingdom to share in her happiness. **Complaint!** Duke University Press
In his recent writings on religion and secularization, Habermas has challenged reason to clarify its relation to religious experience and to engage religions in a constructive dialogue. Given the global challenges facing humanity, nothing is more dangerous than the refusal to communicate that we encounter today

in different forms of religious and ideological fundamentalism. Habermas argues that in order to engage in this dialogue, two conditions must be met: religion must accept the authority of secular reason as the fallible results of the sciences and the universalistic egalitarianism in law and morality; and conversely, secular reason must not set itself up as the judge concerning truths of faith. This argument was developed in part as a reaction to the conception

of the relation between faith and reason formulated by Pope Benedict XVI in his 2006 Regensburg address. In 2007 Habermas conducted a debate, under the title 'An Awareness of What Is Missing', with philosophers from the Jesuit School for Philosophy in Munich. This volume includes Habermas's essay, the contributions of his interlocutors and Habermas's reply to them. It will be indispensable reading for anyone who

wishes to understand one of the most urgent and intractable issues of our time.

 In *Mothering through Precarity* Julie A. Wilson and Emily Chivers Yochim explore how working- and middle-class mothers negotiate the difficulties of twenty-first-century mothering through their everyday engagement

with digital media. From Facebook and Pinterest to couponing, health, and parenting websites, the women Wilson and Yochim study rely upon online resources and communities for material and emotional support. Feeling responsible for their family's economic security, these women often become "mamapreneurs," running side businesses out of their homes. They also feel the need to provide for their family's happiness, making successful mothering

dependent upon economic and emotional labor. Questioning these standards of motherhood, Wilson and Yochim demonstrate that mothers' work is inseparable from digital media as it provides them the means for sustaining their families through such difficulties as health scares, underfunded schools, a weakening social safety net, and job losses.

The Promise of Love John Wiley & Sons
The Promise of Failure is part memoir of the writing

life, part advice book, and part craft book; sometimes funny, sometimes wrenching, but always honest. McNally uses his own life as a blueprint for the writer's daily struggles as well as the existential ones, tackling subjects such as when to quit and when to keep going, how to deal with depression, what risking something of yourself means, and ways to reenergize your writing through reinvention. What McNally illuminates is how rejection, in its best light, is another element of

craft, a necessary stage to move the writer from one project to the next, and that it's best to see rejection and failure on a life-long continuum so that you can see the interconnectedness between failure and success, rather than focusing on failure as a measure of self-worth. As brutally candid as McNally can sometimes be, *The Promise of Failure* is ultimately an inspiring book—never in a Pollyannaish self-help way. McNally approaches the reader as a

sympathetic companion with cautionary tales to tell. Written by an author who has as many unpublished books under his belt as published ones, *The Promise of Failure* is as much for the newcomer as it is for the established writer. *The Promise* Duke University Press
In *The Reproductive Industry*, scholars explore the local and international histories of in vitro fertilization and assisted reproduction, revealing the dynamics of the evolving reproductive

Queer Attachments Duke University Press
Examining the relationship between strangers, embodiment and community, *Strange Encounters* challenges the assumptions that the stranger is simply anybody we do not recognize and instead proposes that he or she is socially constructed as somebody we already know. Using feminist and postcolonial theory this book examines the impact of multiculturalism and globalization on

embodiment and community whilst considering the ethical and political implication of its critique for post-colonial feminism. A diverse range of texts are analyzed which produce the figure of 'the stranger', showing that it has alternatively been expelled as the origin of danger - such as in neighbourhood watch, or celebrated as the origin of difference - as in multiculturalism. The author argues that both of these standpoints are problematic as they

involve 'stranger fetishism'; they assume that the stranger 'has a life of its own'.

'Socrates was one of that small number of adventurers who, from time to time, have enlarged the horizon of the human spirit.' In this book, F. M. Cornford explains why the life and work of Socrates stand out as marking a turning-point in the history of thought. He shows how Socrates revolutionized

the concept of philosophy, converting it from the study of Nature to the study of the human soul, the meaning of right and wrong, and the ends for which we ought to live. This is, in fact, the story of the whole creative period of Greek philosophy—the Ionian science of Nature before Socrates, Socrates himself, and his chief followers, Plato and his pupil Aristotle. It tells of the different contributions each made, and shows how within three centuries the Greek tradition grew to maturity

and the fullness of intellectual power. 'Refreshing and stimulating...it is not only a masterly piece of condensation, nor only a delightful introduction to further reading; it is more, and it claims the attention of every serious student of the subject.'—Journal of Hellenic Studies 'It can be confidently recommended to those who wish for a competent statement in a short compass of what the Greek philosophers believed and why.'—C. E. M. JOAD in New Statesman 'Provides a

clear insight into the development of Greek philosophy and a brilliant commentary on the Greek mind and its attitude to life. The first chapter forms one of the most attractive introductions to philosophy that it is possible to find.'—The Times Literary Supplement
The Promise of Failure
 The Promise of Happiness Ahmed argues that a commitment to diversity is frequently substituted for a commitment to actual change. She traces the work that diversity

does, examining how the term is used and the way it serves to make questions about racism seem impertinent. Her study is based in universities and her research is primarily in the UK and Australia, but the argument is equally valid in North America and beyond.

The classical utilitarian legacy of Jeremy Bentham, J. S. Mill, James Mill, and Henry Sidgwick has often been charged with both theoretical and practical complicity in the growth of British imperialism and the emerging racialist discourse of the

nineteenth century. But there has been little scholarly work devoted to bringing together the conflicting interpretive perspectives on this legacy and its complex evolution with respect to orientalism and imperialism. This volume, with contributions by leading scholars in the field, represents the first attempt to survey the full range of current scholarly controversy on how the classical utilitarians conceived of 'race' and the part it played in their ethical and political

programs, particularly with respect to such issues as slavery and the governance of India. The book both advances our understanding of the history of utilitarianism and imperialism and promotes the scholarly debate, clarifying the major points at issue between those sympathetic to the utilitarian legacy and those critical of it.

The Reproductive Industry Duke University Press

In *Living a Feminist Life* Sara Ahmed shows how

feminist theory is generated from everyday life and the ordinary experiences of being a feminist at home and at work. Building on legacies of feminist of color scholarship in particular, Ahmed offers a poetic and personal meditation on how feminists become estranged from worlds they critique—often by naming and calling attention to problems—and how feminists learn about worlds from their efforts to transform them. Ahmed also provides her most

sustained commentary on the figure of the feminist killjoy introduced in her earlier work while showing how feminists create inventive solutions—such as forming support systems—to survive the shattering experiences of facing the walls of racism and sexism. The killjoy survival kit and killjoy manifesto, with which the book concludes, supply practical tools for how to live a feminist life, thereby strengthening the ties between the inventive creation of feminist theory and living a life that

sustains it.
