*The Legal English Course Book* GRIN Verlag

Legal English effectively communicates to students the nuances of legal language in the United States. Professors Brostoff and Sinsheimer of the University of Pittsburgh School of Law unravel the legal system and study of law by using legal English in actual problems and exercises. This book acquaints readers with the two most important skills-legal research and writing-and approaches each problem and exercise from a different legal subject area. By discussing problem-solving techniques in a wide variety of topics, this workbook successfully increases student levels in reading and understanding legal documents. The new edition features revised and updated exercises, including: new internet research skills exercises, new writing and language exercises, and an expanded appellate advocacy section.

**Legal English** Routledge

This concise guide provides instruction for foreign legal practitioners or advanced LLM students on the basics of the U.S. legal system and the process of legal reasoning, using substantive topics in U.S. law as example. The book also provides special focus on contracts, torts, and trade law. In these areas, you'll find an outline of the law in the U.S., and central concepts of relevance to that area of law today

*International Legal English Teacher's Book* Routledge

An examination of the core principles, landmark disputes, and modern developments in IEL reflecting a global approach.

**Legal English** NYU Press

English is the dominant language of international business relations, and a good working knowledge of the language is essential for today's legal or business professional. This book provides a highly practical approach to the use of English in commercial legal contexts, and covers crucial law terminology and legal concepts. Written with the needs of both students and practitioners in mind, this book is particularly suitable for readers

whose first language is not English but need to use English on a regular basis in legal contexts. The book covers both written and verbal legal communication in typical legal situations in a straightforward manner. In addition to chapters on the grammar and punctuation utilised in legal writing, the book features sections on contract-drafting and the language used in negotiations, meetings and telephone conversations. It features a companion website which contains exercises covering the majority of the topics covered in the book's chapters. This edition thoroughly revises and expands the content of the companion website and contains updated examples, more detailed explanations of problematic areas and an expanded section on writing law essays.

*International Legal English* Cambridge Scholars Publishing

The recent internationalization and globalization make it inevitable to communicate successfully on a global level. English is one of the most frequently used languages for this specific purpose. Being able to properly communicate in English is a major selection criterion, especially for young professionals lacking practical experience. Legal English plays a major role for communication and practicing in law firms globally. Offices involved in international jurisdictions are reliant on this language and its use affects the outcome of processes, lawsuits and even success rates. This publication examines the role of English Legalese in the legal context for law firms not only residing in an Anglophone area. In order to debate this essential question, the author explains the historical background and the differences between Standard English and English Legalese. The publication gives relevant reasons why applying this language is a very efficient process, yet the downsides of using a very specific language need to be considered. Management should be very aware of the importance and impact this language can have on the overall prosperity of a company. In this book: - Business English; - lawyer; - young professionals; - coaching; - organizational psychology; - adult education

**Common Law Legal English and Grammar** BRILL

This book provides a systematic introduction to the issues involved in designing and implementing courses of English for

Legal Purposes. Each chapter highlights a different aspect of the curriculum development process, including syllabus design, taking into account the special role of needs analysis, materials development, and the question of assessing and testing languages for special purposes. In addition, the book provides a brief outline of key concepts in the methodology of English for S ...

*Legal English Manual, 2nd Edition* CreateSpace

Employing a hands-on, structured approach, the author leads the reader through carefully crafted exercises that allow readers to understand and make practical use of AngloAmerican legal terminology. The layered sequence of topics and exercises leads from the simplest use of legal terminology in conversation to mastery of advanced legal terminology and increasingly complex writing.

**Legal English** Hart Publishing

Also available as an e-book *Chance, Order, Change: The Course of International Law, General Course on Public International Law* by J. Crawford The course of international law over time needs to be understood if international law is to be understood. This work aims to provide such an understanding. It is directed not at topics or subject headings — sources, treaties, states, human rights and so on — but at some of the key unresolved problems of the discipline. Unresolved, they call into question its status as a discipline. Is international law “law” properly so-called? In what respects is it systematic? Does it — can it — respect the rule of law? These problems can be resolved, or at least reduced, by an imaginative reading of our shared practices and our increasingly shared history, with an emphasis on process. In this sense the practice of the institutions of international law is to be understood as the law itself. They are in a dialectical relationship with the law, shaping it and being shaped by it. This is explained by reference to actual cases and examples, providing a course of international law in some standard sense as well.

*TOLES Legal English* Cambridge University Press

TOLES Legal English: Advanced English for Lawyers, Plain & Simple. International Legal English for Lawyers, Law Professionals & Law Students ( "Master Legal Vocabulary & Terminology" TOLES

Edition) Most lawyers whose first language is not English face a problem when it comes to setting time aside to improve their communication skills in English, mainly due to a lack of time. This self-study book aims to bridge that gap by providing a structured framework under which law students, lawyers and other law professionals can significantly improve their knowledge of Legal English, contract law and the English legal system. You will be taken through the main vocabulary and grammar structures in commercial contracts and allowed to practise them through highly targeted activities which aim to develop, not only your lexical and grammatical skills, but also your confidence and overall competence within international legal settings. At the end of the book you will find a link to a short glossary with all the main terms of contract law and legal English, together with a phrasal verb mini-dictionary which includes definitions and exercises to perfect your mastery of this area of English. This book provides a complete preparation for Advanced Legal English vocabulary and grammar (from Basic to Advanced level) in the TOLES exam (Legal English)

Great for those working in law whose first language is not English. Click "Buy Now" to start learning more legal English today !

**Civil Litigation and Dispute Resolution** ACCO

Students can become familiar with legal syntax and legal vocabulary in this introduction to basic legal information and the U.S. legal system.

Civil Litigation and Dispute Resolution Prentice Hall

Originally published by Hersch Lauterpacht in 1947, this book presents a detailed study of recognition in international law, examining its crucial significance in relation to statehood, governments and belligerency. The author develops a strong argument for positioning recognition within the context of international law, reacting against the widely accepted conception of it as an area of international politics. Numerous examples of the use of law and conscious adherence to legal principle in the practice of states are used to give weight to this perspective. This paperback re-issue in 2012 includes a newly commissioned Foreword by James Crawford, Whewell Professor of International Law at the University of Cambridge and a Fellow of Jesus College, Cambridge.

*International Legal English* Cambridge University Press

'Legal English' will enable students to confidently write on and discuss legal topics as well as conduct legal work - such as drafting legal documentation, negotiating, litigating, advising,

presenting, writing and acting as an advocate.

**Efficient use of foreign languages as an important factor of success in the modern working environment** CreateSpace

This edition contains additional troubleshooting tips for legal writing, guidance on good style, and new sections on writing law essays and applying for legal positions.

Absolute Legal English Cambridge University Press

An essential handbook for international lawyers and students Focusing on vocabulary, *Essential Legal English in Context* introduces the US legal system and its terminology. Designed especially for foreign-trained lawyers and students whose first language is not English, the book is a must-read for those who want to expand their US legal vocabulary and basic understanding of US government. Ross uses a unique approach by selecting legal terms that arise solely within the context of the levels and branches of US government, including terminology related to current political issues such as partisanship. Inspired by her students' questions over her years of teaching, she includes a vast collection of legal vocabulary, concepts, idioms, and phrasal verbs and unpacks concepts embedded in US case law, such as how the US constitutional separation of powers may affect a court's interpretation of the law. The handbook differentiates basic terms in civil and criminal cases and compares terms that may seem similar because of close spellings but in fact have

different meanings. For instance, what is the distinction between “taking the stand” and “taking a stand?” What is the difference between “treaties” and “treatises”? Featuring illustrations and hands-on exercises, *Essential Legal English in Context* is a valuable self-study resource for those who want to improve their legal English terminology before entering a US law school, studying US law or government, or working as a seconded attorney to a US law firm. Instructors can use the handbook in an introductory US legal English course.

*The Lawyer's English Language Coursebook* Routledge  
Lord Denning, an influential but controversial English judge, stated that 'Words are the lawyer's tools of trade'. This course book reflects that conviction as it focuses on words, the language of the law - legal terms, expressions, and grammar - introduced systematically with relevant aspects of the law, and examined in context through analytical reading activities based on original legal texts selected for their interest and importance in different branches of the common law system. This book explores constitutional law, criminal law, tort, and contract; yet includes international legal contexts, with a particular focus on human rights and European law. The presentation of legal concepts and

terminology in context in each chapter is graded so that the course progresses, building on the vocabulary and law encountered in earlier chapters. Each chapter, organized thematically, includes a series of activities - tasks - to complete, yet the book does not presuppose previous knowledge of legal English or of the common law: full answer keys and reflective commentary on both legal and linguistic aspects are given and sections marked 'Advanced' offer especially challenging materials. Consolidation sections are designed to test students' global comprehension of the legal texts analysed, including precise usage of legal vocabulary in context, with solutions. *Common Law Legal English and Grammar* is addressed to the non-native speaker of English, and in particular, intermediate to advanced students who are studying law, or academics with a professional interest in Anglo-American law. Practising lawyers will also find that the book offers valuable analysis of the language of legal documents. Please note, this book is not available for purchase in Italy.
