On the Streets of Renaissance Lisbon Italice Pr

This book gathers together a group of international artists, architects, scenographers, performers, and theorists to establish Performance Design as a fluid and emerging field, which explores the speculative and projective acts of designing performance and performing design. The theoretical essays and realised projects offer a lively and stimulating range of performative expressions across disciplines, where design artefacts -- objects, gestures, images, occasions and environments -- are aligned to performance through notions of embodiment, action and event. Performance Design is presented as an aesthetic practice that harnesses and orchestrates the dynamic forces of the lived world,

as well as the participatory role of a co-creative audience, to provide a critical tool for reflecting, confronting and realigning worldviews.

Consolation for the Tribulations of Israel (Consolaçam Às Tribulaçoens de Israel) John Benjamins Publishing

Nowadays there are many spaces of fascination in visual art. Of course, installative space and contextual space have been on the art scene for awhile. However, they are now accompanied by other spaces such as urban space, architectural space, cyberspace, hyperspace, and screen-based space. In this volume, architects, artists, theorists, three symposia and four exhibitions attempt to find answers to questions such as: Could the architectonic study and/or deconstruction of space play a decisive role in the shift of attention to space? Which theoretical factors structure the current experience and meaning of space? What is the role of the aesthetization of the environment on our concept of space? *Smooth Space - VCC de Brakke Grond, Amsterdam* - is a project at the heart of this publication. Spatial interests range from how the concept of space is redefined and exploited in our current visual culture to how the digital world influences our spatial concepts. Participants in this issue are: Jean Attali, Annette W. Balkema, Andrew Benjamin, Ole Bouman, Bernard Cache, Paul Crowther, Christoph Fink, Hugo Heyrman, Hou Hanru, Rem Koolhaas, Geert Lovink, Karlheinz Lüdeking, Bartomeu Mari, Kas Oosterhuis, Jan van de Pavert, Keiko Sato, Eran Schaerf, Lara Schnitger, Roger Scruton, Martin Seel, Nasrine Seraji, Henk Slager, Sjoerd Soeters, Lars Spuybroek, Ann Van Sevenant, Peter Weibel and Mark Wigley.

Architecture and Utopia leads the reader beyond architectural form into a broader understanding of the relation of architecture to society and the architect to the workforce and the marketplace. Written from a neo-Marxist point of view by a prominent Italian architectural historian, Architecture and Utopia leads the reader beyond architectural form into a broader understanding of the relation of architecture to society and the architect to the workforce and the marketplace. It discusses the Garden Cities movement and the suburban developments it generated, the German-Russian architectural experiments of the 1920s, the place of the avant-garde in the plastic arts, and the uses and pitfalls of seismological approaches to architecture, and assesses the prospects of socialist alternatives.

Awarded an Honorable Mention by The Eleanor Tufts Award. The Award Committee called the book a "transformative scholarly contribution." Recently identified by the editors as the Rua Nova dos Mercadores, the principal commercial and financial street in Renaissance Lisbon, two sixteenth-century paintings, acquired by Dante Gabriel Rossetti in 1866, form the starting point for this portrait of a global city in the early modern period. Focusing on unpublished objects, and incorporating newly discovered documents and inventories that allow novel interpretations of the Rua Nova and the goods for sale on it, these essays offer a compelling and original study of a metropolis whose reach once spanned four continents. The Rua Nova views painted by an anonymous Flemish artist portray an everyday scene on a recognizable street, with a diverse global population. This thoroughfare was the meeting point of all kinds of people, from rich to poor, slave to knight, indigenous Portuguese to Jews and diasporic black Africans. The volume highlights the unique status of Lisbon as an entrepôt for curiosities, luxury goods and wild animals. As the Portuguese trading empire of the fifteenth and sixteenth century expanded sea-routes and networks from West Africa to India and the Far East, non-European cargoes were brought back to Renaissance Lisbon. Many rarities were earmarked for the Portuguese court, but simultaneously exclusive items were readily available for sale on the Rua Nova, the Lisbon equivalent of Bond Street or Fifth Avenue. Specialized shops offered West African and Ceylonese ivories, raffia and Asian textiles, rock crystals, Ming porcelain, Chinese and Ryukyuan

lacquerware, jewelry, precious stones, naturalia and exotic animal byproducts. Lisbon was also a hub of distribution for overseas goods to other courts and cities in Europe. The cross-cultural and artistic influences between Lisbon and Portuguese Africa and Asia at this date will be reassessed. Lisbon was imagined as the head of empire or caput mundi, while the River Tagus became the aquatic gateway to a globally connected world. Lisbon evolved into a dynamic Atlantic port city, excelling in shipbuilding, cartography and the manufacture of naval instruments. The historian Damião de Góis bragged of the "Tagus reigning over the world". Lisbon's fame depended on its river, an aquatic avenue that competed with the Rua Nova, providing a means of interaction, trade and communication along Lisbon's coastline. Even for the cosmopolitan Góis, who traveled extensively for the Portuguese crown, Lisbon's chaotic docks were worth describing. Of all the European cities he experienced, only Lisbon and her rival Seville could be "rightfully called Ladies and Queens of the Sea". Góis contended that they had opened up the early modern world through circumnavigation. Lisbon was destroyed in a devastating earthquake and tsunami in November 1755. These paintings are the only large-scale vistas of Rua Nova dos Mercadores to have survived, and together with the new objects and archival sources offer a fresh and original insight into Renaissance Lisbon and its material culture. REVIEWS "This handsomely illustrated book offers a tantalising view of a vanished city that in its day, according to do Góis, "reigned over the world."" Their Texts and Their World Texts and Editions for New Testament Manuscripts Their Texts and Their World comprises twelve essays dealing with manuscripts of the New Testament and/or what we can learn from them today. Starting from different angles the contributors distinguished scholars of international reputation focus on the fascinating and thrilling stories manuscripts tell, for instance about the times they were produced in or the people who handled them. The multitude of manuscripts used for establishing the critical text of the New Testament is often only perceived as abbreviations in form of single letters or numerals, and today's biblical scholars may hardly ever take notice of the specific features of an original manuscript, above all those not mentioned in a critical edition. Therefore, three sets of contributions deal with the conditions under which manuscripts from the early days of Christianity were produced and transmitted, specific individual manuscripts, and then special features observed in and with the help of various manuscripts. In a final essay the usual method of how to organize and categorize New Testament manuscripts is challenged and an alternative method proposed. The essays are linked with each other so that readers may get a feeling of how astounding an occupation with the original manuscripts of the New Testament and the days of the early Christians can be.

Chamavam-se Inessa, Clara, Nadia, Magda, Felismina, Jiang Qing,

Elena, Catherine... E eles Lenine, Mussolini, Estaline, Hitler, Salazar, Mao, Ceausescu, Bokassa. Prostitutas ou mulheres da alta burguesia intelectual, paixões fugazes ou amores intensos, eles maltratavam ou adoravam-nas, mas, sistematicamente, voltavam para os seus braços. Esposas, companheiras, musas, admiradoras, todas têm em comum o facto de terem sido vencedoras, enganadas e sacrificadas. Aos seus homens cruéis, violentos, tiranos e infieis, faziam crer que eram belos, charmosos e todo-poderosos. Sendo a virilidade um dos alicerces do poder absoluto, os ditadores sentiam a necessidade de juntar figuras femininas ao imaginário de poder e domínio que criaram. E assim controlando-os na sombra, por vezes, até à morte, como se vivessem sob a égide de um Pigmaleão. Diane Ducret relata em detalhe os momentos, as estratégias de sedução, os casos amorosos, as intervenções políticas e os destinos diversos, ocasionalmente trágicos, das mulheres que cruzaram o caminho ou passaram pelo leito dos ditadores.

In *The Codex*, published in 1954, C.H. Roberts studied the process by which in the early centuries of our era the roll as the vehicle for literature was replaced by the codex, which has remained the format of the book ever since. New evidence that has accumulated in the last thirty years has set some of the problems in a new light and in this book, published here for the first time in paperback, the authors re-examine these and offer a different explanation for the remarkable part in the transformation played by the early Church.

Assessments of China's importance on the world stage usually focus on a single dimension of China's increasing power, rather than on the multiple sources of China's rise, including its economic might and the continuing modernization of its military. This book offers multiple analytical perspectives—constructivist, liberal, neorealist—on the significance of the many dimensions of China's regional and global influence. Distinguished authors consider the likelihood of conflict and peaceful accommodation as

China grows ever stronger. They look at the changing position of China "from the inside": How do Chinese policymakers evaluate the contemporary international order and what are the regional and global implications of that worldview? The authors also address the implications of China's increasing power for Chinese policymaking and for the foreign policies of Korea, Japan, and the United States.
