Concept 6.1 To study
cells, biologists use
microscopes and the
tools of biochemistry 1.
The study of cells has
been limited by their
small size, and so they

were not seen and described Chapter 6: A Tour of the Cell - BIOLOGY JUNCTION We will begin our study of cells by looking at the structures present in both prokaryotes and eukaryotes in chapter 5. In chapter 6 we will look closer at the cell boundary, the plasma membrane, and examine the process of diffusion & osmosis. Chapter 7 will then examine how cells communicate with each other across the membrane.
