MARISA ERIN

Logic in Grammar

Oxford University Press
A new edition of a successful undergraduate textbook on contemporary international Standard English grammar, based on Huddleston and Pullum's earlier award-winning work, *The Cambridge Grammar of the English Language* (2002). The analyses defended there are outlined here more briefly, in an engagingly accessible and informal style. Errors of the older tradition of English grammar are noted and corrected, and the excesses of prescriptive usage manuals are firmly rebutted in specially highlighted notes that explain what older authorities have called 'incorrect' and show why those authorities are mistaken. Intended for students in colleges or universities who have little or no background in grammar or linguistics, this teaching resource contains numerous exercises and online resources suitable for any course on the structure of

English in either linguistics or English departments. A thoroughly modern undergraduate textbook, rewritten in an easy-to-read conversational style with a minimum of technical and theoretical terminology.

Practical English Usage Third Edition Cambridge University Press

This work brings together classic and recent papers in the philosophical and linguistic analysis of fuzzy grammar, of gradience in meaning, word classes and syntax.

[Oxford Thesaurus of English](#) Oxford University Press

An A-Z of 1,000 English grammatical terms, including current mainstream terminology, older, traditional and many new, controversial terms plus coverage of wider linguistics items. Concise definitions are accompanied by more detailed explanations with examples of usage and many quotations from grammar books. Now available in paperback this book should be found on the shelves of all those with an interest in the English language

[A Graphic Biography](#) Oxford University Press,

USA

Including examples of real usage, this handy volume provides clear information about grammar and punctuation that we need on a day-to-day basis in over 300 entries. Revised and updated, *The Oxford A-Z of Grammar and Punctuation* offers accessible and coherent explanations across a broad range of topics, and is the first port of call for any reader seeking clear, authoritative help with grammar and punctuation. Both easy to use and comprehensive, it is an essential tool for writing at home, in the office, at school, and at college.

Concise Oxford English Dictionary Cambridge University Press

Presents more than seven thousand words and phrases in contemporary usage, with variant spellings, grammatical applications, and definitions

[Polarity, Free Choice, and Intervention](#) OXFORD University Press

Correct English usage as it's never been taught before: lucidly, memorably, and humorously -- for all ages. *Oxford English Dictionary* Cambridge University

Press
The Oxford Guide to English Grammar is a systematic account of grammatical forms and the way they are used in modern standard English. It is designed for learners at intermediate and advanced levels and for teachers, and is equally suitable for quick reference to details or for the more leisurely study of grammatical topics. The emphasis is on meaning in the choice of grammatical pattern, and on the use of patterns in texts and in conversations.

Oxford Discover - Grammar, Level 2

Walter de Gruyter
The new edition of this textbook gives students a thorough grounding in the basics of sentence structure and syntactic argumentation. This edition is completely revised, with the chapter on X-bar syntax now split in two to give greater prominence to clauses. It also contains many new exercises, which are now graded in terms of level of difficulty. Each chapter has a section on suggested further reading material, and there is a bibliography and list of recommended reference works.

A Reader Oxford

University Press on Demand
In this book, David Crystal confronts the foe of many : grammar. Once taught relentlessly to all students in the English-speaking world, grammar disappeared from most school curricula, so terms such as "preposition" and "conjunction" now often confound children and adults alike. In this breezy, entertaining book, Crystal proves that grammar needn't make us uneasy--we can all make sense of how we make sense. -- Provided by publisher.

The Glamorous Story of English Grammar Oxford University Press

A major reference grammar offering comprehensive coverage of spoken and written English based on real everyday usage. With its clear, two part structure, this is a user-friendly book from the world's leading English grammar publisher. The accompanying CD-ROM (Windows only) makes Cambridge Grammar of English even more accessible with:

- The whole book in handy, searchable format.
- Audio recordings of all the examples from the book.
- Links to the Cambridge Advanced Learner's

Dictionary online for instant definitions of new vocabulary.

The Verb in Contemporary English Clarendon Press

Offers definitions for English words and phrases, along with observations about the evolution of the dictionary since its first edition and tables that contain information for such topics as countries and chemical elements.

All the Grammar You Need to Succeed in Life

Express yourself more accurately with 'Choose the Right Word' boxes exploring the difference between similar words. Find the word you need quickly with most useful synonyms given first. Broaden your vocabulary

and find solutions to word puzzles and crosswords with carefully selected thematic word lists.

The Perfect English Grammar Workbook

Pan

This collection of essays sheds new light on the verb in English. The authors illustrate that verbs can only be properly understood if studied from both a theoretical and descriptive perspective. In Part One, the authors explore topics such as the terminological problems of classification, verb complementation, the semantics and pragmatics of verbs and verbal combinations, and the notions of tense, aspect, voice and modality. In Part Two, computer corpora are used to study various types of verb complements and collocations, to trace the development in English of certain verb forms, and to detail the usage of verbs in different varieties and genres of English.

Explaining English

Grammar London : Royal National Institute for the Blind, [197-?]

How do you ensure your students have a full understanding of grammar use, meaning, and form? Using an inquiry-based approach to

learning, Oxford Discover develops the communication skills and thinking skills students need for success in the 21st century. Who are your family and friends? Where can we see colors? How can we make music? Oxford Discover uses Big Questions such as these to tap into students' natural curiosity. It enables them to ask their own questions, find their own answers, and explore the world around them. This approach to language learning and literacy, supported by a controlled grammar and skills syllabus, helps students achieve near-native fluency in English. Oxford Discover gives teachers the tools to develop children's 21st century skills, creating young thinkers with great futures. Use with Show and Tell as part of 9-level course.

Simple Rules and Quizzes to Master

Today's English Oxford University Press, USA Focusing on how the English language works in the Indian context, this book discusses all the critical components of modern English grammar: from finite and non-finite verb and gerunds and the infinitive to different kinds

of clauses, tense, active and passive voice, punctuation, phrasal verbs, etc.

Oxford Guide to Plain English Palgrave

Macmillan

Are you looking for a genuine introduction to the linguistics of English that provides a broad overview of the subject that sustains students' interest and avoids excessive detail?

Introducing English Linguistics accomplishes this goal in two ways.

First, it takes a top-down approach to language, beginning with the largest unit of linguistic structure, the text, and working its way down through successively smaller structures (sentences, words, and finally speech sounds). The advantage of presenting language this way is that students are first given the larger picture - they study language in context - and then see how the smaller pieces of language are a consequence of the larger goals of linguistic communication. Second, the book does not contain invented examples, as is the case with most comparable texts, but instead takes its sample materials from the major computerised databases of spoken and written

English, giving students a more realistic view of language.

Fuzzy Grammar Oxford University Press, USA
The Oxford Dictionary of English Grammar is a straightforward and accessible A-Z guide to the diverse and often complex terminology of English grammar. It contains over 1,600 entries with clear and concise definitions, enhanced by numerous example sentences, as well as relevant quotations from the scholarly literature of the field. This second edition is written and edited by

Professor Bas Aarts of University College London, writer of the acclaimed Oxford Modern English Grammar. It has been fully revised and updated, with particular attention paid to refreshing the example sentences included within the text. There are over 150 new entries that cover current terminology which has arisen since the publication of the first edition, and there are also new entries on the most important English grammars published since the start of the 20th century. Hundreds of new cross-references enhance the user-friendly nature of

the text, and the list of works cited has been thoroughly updated to reflect the current state of the field. A short appendix of web links has been added. All in all, this Dictionary is an invaluable guide to English grammar for all students and teachers of the subject, as well as all those with an informed interest in the English language.
