Paper P5 Advanced Performance Management is an optional paper at Professional level. It builds on the performance management techniques introduced in Paper F5. There is also a significant element of strategic thinking and thus P5 has links with paper P3 Business Analysis. The syllabus looks at external factors that</p>

affect the organisation's performance such as stakeholders. Internal factors are also considered including the design features of effective performance management information and monitoring systems. Ethics is introduced as a key ACCA topic. Finally, the syllabus considers the impact of current developments in management accounting and

performance management on organisational performance. The P5 Revision Kit contains the pilot paper and subject-specific questions covering the syllabus, including many from past exams. The Kit is full of good advice and features to aid your question practice. Read the section on Passing P5 which is subject-specific guidance on tackling the exam. There are plenty of written

questions to test your application and evaluation of knowledge at this level. The examiner likes to examine performance measures so there are several exam-standard numerical questions too. Also read the examiner's own comments on past questions as well as his own answers at the back of the Kit. BPP Learning Media is the publisher of choice for many ACCA students and tuition

The Association of Chartered Certified Accountants (ACCA) is the global body for professional accountants. With over 100 years of providing world-class accounting and finance qualifications, the ACCA has

significantly raised its international profile in recent years and now supports a BSc (Hons) in Applied Accounting and an MBA. BPP Learning Media is an ACCA Official Publisher. Paper P3 is called Business Analysis, but it covers the whole field of business and corporate strategy, including the choice and implementation of courses of action. For accountants, the overall

purpose of studying this subject is to be able to make proper contributions to the strategic management of whatever organisations they find themselves working in. To do this requires the acquisition and considered use of theory lying well outside the mainstream of financial and accountancy topics. In addition to the core material relating to business strategy, there are

<p>strong links to the fields of economics, marketing and human behaviour. The P3 Study Text is based on the primary authorities specified in the official syllabus reading list; it is supplemented by a wide range of other material that extends, amplifies and, in some cases,</p>	<p>clarifies the basic references. The study material is thus selected and presented in an easily used form that has been approved by the Examiner. The syllabus emphasises the integrated nature of the subject and the Study Text points up the links between the various topics. The</p>	<p>ability to discern and use these links is likely to be of great importance in the examination.
