The Color of Kink Ave Maria Press
First published in 1944 and now a spiritual classic for Catholics across the globe, *The Reed of God* contains meditations on the humanity of Mary, Mother of God. British Catholic writer and artist Caryl Houselander lovingly explores Mary's intimately human side, depicting Our Lady as a musical instrument who makes divine love known to the world. This refreshed edition is rich and rewarding reading for all Christians who wonder what Mary was really like. While the Second Vatican Council led to a renewed interest in the theology and person of Mary, Caryl Houselander offered a simple yet profound reflection on the Mother of God almost fifteen years before the council began. Confronting the static, surreal "Madonna of the Christmas card," Houselander provides instead an intuitive, warmly human, and approachable image of the Mother of God. Through the central image of a reed that is played for music, Houselander demonstrates how Mary chose to make herself an instrument for the divine plan, giving her inmost being to the proclamation of God's greatness. In sharing her distinctive vision of Mary, Houselander offers the Mother of God as a model for all people seeking to be instruments of the Divine. The essays and poems in *The Reed of God* also

reflect on the mysteries of Mary's life and her impact on salvation history. In the book's four parts, Houselander explores key events of Mary's life, including her fiat, finding Jesus in the Temple, and the Assumption, as well as the themes of fruitful emptiness and the eternal search for union with God.

Context: The Effects of Environment on Product Design and Evaluation
addresses the environment, or context, in which we consume products and the impact of context on choice and acceptability. The book explores what context is, how it influences design by specialists, and acceptance by consumers. Chapters discuss the basics of context, food and drink in context, testing a range of other products, and other contextual variables. Historically, research on context has been done in the laboratory and various natural locations, but rapid growth in other methods to study context, including evoked contexts, immersive contexts, virtual reality contexts, and more have

widened research possibilities. Appealing to the professional, academic and commercial markets, this book will be of interest to those who conduct research in product development and product testing, to those who study what controls product usage, including eating from the health perspective, and to those who make decisions about product and space development. Explores information on how context works and how to assess its influence on product decisions Discusses the basics of context, food and drink in context, and testing other products in context, including personal care products and home and workspace design Identifies variables that contribute to the contextual experience

A true story of dancing, dreams and desire St. Paul Press

The Color of Kink explores black women's representations and performances within American pornography and BDSM (bondage and discipline, domination and submission, and sadism and masochism) from the 1930s to the present, revealing the ways in which they illustrate a complex and contradictory negotiation of pain, pleasure, and power for black women. Based on personal interviews conducted with pornography performers, producers, and professional dominatrices, visual and textual analysis, and extensive archival research, Ariane Cruz reveals BDSM and pornography as critical sites from which to rethink the formative links between Black female sexuality and violence. She explores how violence becomes not just a vehicle of pleasure but also a mode of accessing and contesting power. Drawing on feminist and queer theory, critical race theory, and media studies, Cruz argues that BDSM is a productive space from which to consider the complexity and diverseness of black women's sexual practice and the mutability of black female sexuality. Illuminating the cross-pollination of black sexuality and BDSM, The Color of Kink makes a unique contribution to the growing scholarship on racialized sexuality.

Classic tales of crime detection featuring Byomkesh Bakshi, the master inquisitor Written long before Satyajit Ray's Feluda series, Saradindu Bandyopadhyay's Byomkesh Bakshi mysteries heralded a new era in Bengali popular fiction. Set in the old-world Calcutta of the Raj, these stories featuring the astute investigator and his chronicler friend Ajit are still as gripping and delightful as when they first appeared. Byomkesh's world, peopled with wonderfully delineated characters and framed by a brilliantly captured pre-Independence urban milieu, is fascinating because of its contemporary flavor. In the first story, Byomkesh works undercover to expose an organized crime ring trafficking in drugs. In 'The Gramophone Pin Mystery', he must put his razor-sharp intellect to good use to unearth the pattern behind a series of bizarre roadside murders. In 'Calamity Strikes', the ace detective is called upon to investigate the strange and sudden death of a girl in a neighbour's kitchen. In the next story, he has to lock horns with an old enemy who has vowed to kill him with an innocuous but deadly weapon. And in 'Picture Imperfect', Byomkesh Bakshi unravels a complex mystery involving a stolen group photograph, an amorous couple, and an apparently unnecessary murder. Available in English for the first time in a superb translation, these stories will captivate every lover of crime fiction, young and old alike.

Written for a broad audience and grounded in cutting-edge, contemporary scholarship, this volume addresses some of the key questions asked about pornography today. What is it? For whom is it produced? What sorts of sexualities does it help produce? Why should we study it, and what should be the most urgent issues when we do? What does it mean when we talk about pornography as violence? What could it mean if we discussed pornography through frameworks of consent, self-determination and performance? This book places the arguments from conservative and radical anti-porn activists against the challenges coming from a new generation of feminist and queer porn performers and educators. Combining sensitive and detailed discussion of case studies with careful attention to the voices of those working in pornography, it provides scholars, activists and those hoping to find new ways of understanding sexuality with the first overview of the histories and futures of pornography.

Discovering for herself that relationships don't end in death, Jamie recounts her remarkable experience where, through the depths of her grief after Jean's sudden passing, her husband made his continued presence—and undying love—known. Radio Drama brings together the practical skills needed for radio drams, such as directing, writing and sound design, with media history and communication theory. Challenging the belief that sound drama is a 'blind medium', Radio Drama shows how experimentation in radio narrative has blurred the dividing line between fiction and reality in modern media. Using extracts from scripts and analysing radio broadcasts from America, Britain, Canada and Australia, the book explores the practicalities of producing drama for radio. Tim Crook illustrates how far radio drama has developed since the first 'audiophonic production' and evaluates the future of radio drama in the age of live phone-ins and immediate access to programmes on the Internet.
