Includes Text Of Treaty And Related Documents. Additional Contributors Include Frank B. Kellogg, Claudel, And Others.

The Crack in the Picture Window Harper Collins

In this provocative history of the Right in modern America, Critchlow finds a deep dilemma inherent in how conservative Republicans expressed their anti-statist ideology in an age of mass democracy and Cold War hostilities. As the Right moved forward with its political program, partisanship intensified and ideological division widened--both between the parties and across the electorate. This intensified partisanship reflects the vibrancy of a mature democracy, Critchlow argues, and a new level of political engagement despite its disquieting effect on American political debate.

The Federal Farm Loan Act First Second

A collection of essays which define "the religious right", discussing their attitudes regarding foreign policy, economic and social justice, homosexuality, and AIDS, from differing viewpoints. Includes a section on televangelists.

The Conscience of a Conservative University of Pennsylvania Press

In this amusingly written yet serious report about housing developments, author John C. Keats discusses every aspect of life in a development. His account is supported by solid facts and figures and presented in personal terms to convey an existence that combines all of the worst aspects and none of the advantages of suburban living. "If you ever wondered what goes on under those regimented roofs, this book will tell you. And if you already know, it will make you want to get up and break something. Fortunately the book also tells you how to put the pieces back together."

A CHOICE NOT AN ECHO Houghton Mifflin College Division

In *Main Street* and *Babbitt*, Sinclair Lewis drew on his boyhood memories of Sauk Centre, Minnesota, to reveal as no writer had done before the complacency and conformity of middle-class life in America. The remarkable novels presented here in this Library of America volume combine brilliant satire with a lingering affection for the men and women, who, as Lewis wrote of *Babbitt*, "want "to seize something more than motor cars and a house before it's too late." *Main Street* (1920), Lewis's first triumph, was a phenomenal event in American publishing and cultural history. Lewis's idealistic, imaginative heroine, Carol Kennicott, "longs to get [her] hands on one of those prairie towns and make it beautiful," but when her doctor husband brings her to Gopher Prairie, she finds that the romance of the American frontier has dwindled to the drab reality of the American Middle West. The

great romantic satire of its decade, *Main Street* is a wry, sad, funny account of a woman who attempts to challenge the hypocrisy and narrow-mindedness of her community. In the character of George F. Babbitt, the boisterous, vulgar, worried, gadget-loving real estate man from Zenith, Lewis fashioned a new and enduring figure in American literature—the total conformist. Babbitt is a "joiner," who thinks and feels with the crowd. Lewis surrounds him with a gallery of familiar American types—small businessman, Rotarians, Elks, boosters, supporters of evangelical Christianity. In biting satirical scenes of club lunches, after-dinner speeches, trade association conventions, fishing trips and Sunday School committees, Lewis reproduces the noisy restlessness of American commercial culture. In 1930 Sinclair Lewis was the first American to be awarded the Nobel Prize in Literature, largely for his achievement in *Babbitt*. These early novels not only define a crucial period in American history—from America's "coming of age" just before World War I to the dizzying boom of the twenties—they also continue to astonish us with essential truths about the country we live in today. LIBRARY OF AMERICA is an independent nonprofit cultural organization founded in 1979 to preserve our nation's literary heritage by publishing, and keeping permanently in print, America's best and most significant writing. The Library of America series includes more than 300 volumes to date, authoritative editions that average 1,000 pages in length, feature cloth covers, sewn bindings, and ribbon markers, and are printed on premium acid-free paper that will last for centuries.

The American Pageant McGraw-Hill Education

First published in 1987. Towards the end of the twentieth century there was a resurgence of thinking about politics, economics and society referred to variously as the 'New Right', the radical right, neo-conservatism, economic liberalism or libertarianism. Although the New Right is not a single coherent movement it represented a clear alternative to the prevailing social-democratic consensus and had had considerable influence on government policy in both America and Britain. This book presents an introductory survey of the New Right worldwide. It examines the varieties of free-market and 'monetarist' economic thought and introduces the reader to the public-choice critique of public policy. In political philosophy the book analyses American and British conservative thought and compares conservatism with neo-liberalism. The author pays particular attention to the New Right's analysis of constitutionalism and its critique of the dominance of 'politics' over 'economics' during the high-point of the consensus period. The author assesses the success which the different schools of the New Right have had in influencing public opinion and in the formation of government policy. He does not argue for or against the New Right but presents a dispassionate survey from which the reader can draw his or her own conclusions.

Intervention Against Communism Franklin Classics

Includes the contract, explains the contract, and replaces myths about the plan with facts

Contract with America Stanford University Press

Includes the "AP Advantage 3-Step Solution, 1 Platform" formula for learning.

American History: Connecting with the Past McGraw-Hill Education

Released for the first time in paperback, this landmark social and political volume on feminism is

Public Papers of the Presidents of the United States: Richard M. Nixon, 1974 America's HistoryOut of the War?The Conscience of a ConservativeThe Crack in the Picture Window
Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history, considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience).

Our Country Three Rivers Press

In this epic dual biography, one of our most distinguished scholars—the bestselling author of *An Unfinished Life*—probes the lives and times of two unlikely leaders whose partnership dominated American and world affairs and changed the course of history Richard Nixon and Henry Kissinger were two of the most compelling, contradictory, and important leaders in America in the second half of the 20th century. Both were largely self-made men, brimming with ambition, driven by their own inner demons, and often ruthless in pursuit of their goals. Tapping into a wealth of recently declassified documents and tapes, Robert Dallek uncovers fascinating details about Nixon and Kissinger's tumultuous personal relationship—their collaboration and rivalry—and the extent to which they struggled to outdo each other in the reach of foreign policy achievements. He also brilliantly analyzes their dealings with power brokers at home and abroad, including the nightmare of Vietnam, the brilliant opening to China, détente with the Soviet Union, the Yom Kippur War in the Middle East, the disastrous overthrow of Allende in Chile, and growing tensions between India and Pakistan, while recognizing how both men were continually plotting to distract the American public's attention from the growing scandal of Watergate. Authoritative, illuminating, and deeply engrossing, Nixon and Kissinger provides a shocking new understanding of the immense power and sway these two men held in affecting world history.

The Religious Right Gale Cengage Learning

This volume contains a study on the living conditions for African Americans in the United States in the first decade of the 1900s.

Wealth Against Commonwealth Pickle Partners Publishing

This is a book of things to do, stories to read, games to play, songs to sing - all with illustrations by Norman Rockwell reproduced from the pages of *The Saturday Evening Post*. Think of it as a kind of treasure hunt; you and your family are the seekers and ultimate benefactors, the treasure is simple enjoyment.

The Promise of American Life Best Books on

Regarded as one of the most important sociological and business commentaries of modern times, *The Organization Man* developed the first thorough description of the impact of mass organization on American society. During the height of the Eisenhower administration, corporations appeared to

provide a blissful answer to postwar life with the marketing of new technologies—television, affordable cars, space travel, fast food—and lifestyles, such as carefully planned suburban communities centered around the nuclear family. William H. Whyte found this phenomenon alarming. As an editor for *Fortune* magazine, Whyte was well placed to observe corporate America; it became clear to him that the American belief in the perfectibility of society was shifting from one of individual initiative to one that could be achieved at the expense of the individual. With its clear analysis of contemporary working and living arrangements, *The Organization Man* rapidly achieved bestseller status. Since the time of the book's original publication, the American workplace has undergone massive changes. In the 1990s, the rule of large corporations seemed less relevant as small entrepreneurs made fortunes from new technologies, in the process bucking old corporate trends. In fact this "new economy" appeared to have doomed Whyte's original analysis as an artifact from a bygone day. But the recent collapse of so many startup businesses, gigantic mergers of international conglomerates, and the reality of economic globalization make *The Organization Man* all the more essential as background for understanding today's global market. This edition contains a new foreword by noted journalist and author Joseph Nocera. In an afterword Jenny Bell Whyte describes how *The Organization Man* was written.

Out of the War? Cosimo Classics

This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it. This work is in the public domain in the United States of America, and possibly other nations. Within the United States, you may freely copy and distribute this work, as no entity (individual or corporate) has a copyright on the body of the work. Scholars believe, and we concur, that this work is important enough to be preserved, reproduced, and made generally available to the public. To ensure a quality reading experience, this work has been proofread and republished using a format that seamlessly blends the original graphical elements with text in an easy-to-read typeface. We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

America's History JHU Press

This book condemns slavery, by appealed to whites' rational self-interest, rather than any altruism towards blacks. Helper claimed that slavery hurt the Southern economy by preventing economic development and industrialization, and that it was the main reason why the South had progressed so much less than the North since the late 18th century.

The Columbiad Library of America

It then turns to the close interaction between Soviet and foreign policy before situating the event into the broader timeline of Soviet history.

U.S. History Routledge

A tour-de-force by rising indie comics star Gene Yang, *American Born Chinese* tells the story of three apparently unrelated characters: Jin Wang, who moves to a new neighborhood with his family only to discover that he's the only Chinese-American student at his new school; the powerful Monkey King, subject of one of the oldest and greatest Chinese fables; and Chin-kee, a personification of the ultimate negative Chinese stereotype, who is ruining his cousin Danny's life with his yearly visits. Their lives and stories come together with an unexpected twist in this action-packed modern fable.

American Born Chinese is an amazing ride, all the way up to the astonishing climax. American Born Chinese is a 2006 National Book Award Finalist for Young People's Literature, the winner of the 2007

Eisner Award for Best Graphic Album: New, an Eisner Award nominee for Best Coloring and a 2007 Bank Street - Best Children's Book of the Year. This title has Common Core Connections
