This picture book builds the foundation of vocabulary and spelling by teaching simple English words supported by colorful pictures. My First Words is a fun resource for teaching your child their first words in English. Each word in the book is illustrated to help your little one associate it with its meaning, to help them remember it, and to make the learning process interesting and fun. The book contains over 80 words, which are organised into themes, including animals, fruit and vegetables, clothes and colours. These basic yet important words will form an invaluable foundation upon which your child will be able to build as they continue to learn English later in life. Children who learn languages through play at an early age are more likely to succeed in foreign language learning as adults. And that's exactly what My First Words aims to help parents with - enthralling their kids, showing them the exciting world of another language and culture, and opening up a world of opportunities that foreign language education brings. Agnieszka Murdoch, the author of the book and educator with more than 15 years of experience of learning and teaching foreign languages, created My First Words with her own daughter in mind. She needed a resource that would help her

introduce her daughter to her first foreign words and to help her embark on the exciting lifelong journey that learning foreign languages brings. Speaking a foreign language is an incredible gift. You can give it to your child by encouraging them to learn some basic English words through play, with My First Words: English. The author is the founder of 5-Minute Language - an online community for language learners, where she shares her tips and advice on how to learn foreign languages effectively and independently. She also runs a popular blog and YouTube channel called 5-Minute Language.

*My First Word Book about School* Harmony

**NATIONAL BESTSELLER** • For anyone who wants to learn a foreign language, this is the method that will finally make the words stick. "A brilliant and thoroughly modern guide to learning new languages."—Gary Marcus, cognitive psychologist and author of the New York Times bestseller *Guitar Zero* At thirty years old, Gabriel Wyner speaks six languages fluently. He didn't learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he's discovered. Starting with pronunciation, you'll learn how to rewire your ears and turn foreign sounds into

familiar sounds. You'll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you'll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you'll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.
