Get a plan to ace the exam—and make the most of the time you have left. Whether you have two months, one month, or even just a week left before the exam, you can turn to the experts at CliffsNotes for a trusted and achievable cram plan to ace the GRE General Test—without ever breaking a sweat! First, you'll determine exactly how much time you have left to prepare for the exam. Then, you'll turn to the two-month, one-month, or one-week cram plan for week-by-week and day-by-day schedules of the best way to focus your study according to your unique timeline. Each stand-alone plan includes: Diagnostic test—helps you pinpoint your strengths and weaknesses so you can focus your review on the topics in which you need the most help Subject reviews—cover everything you can expect on the actual exam: text completions, sentence equivalences, vocabulary, reading comprehension, analytical writing, arithmetic, algebra, geometry, and applications Full-length practice test with answers and detailed explanations—a simulated GRE exam gives you an authentic test-taking experience Test-prep essentials from the experts at CliffsNotes Reflects changes to the latest GRE General Test Make the most of the time you have left! 2 months to ace the test... 1 month to ace the test... 1 week to ace the test!

**The Most Comprehensive Review and Ultimate Guide to the ISEE Middle Level Math Test** Cengage Learning

This bestselling author team explains concepts simply and clearly, without glossing over difficult points. Problem solving and mathematical modeling are introduced early and reinforced throughout, providing students with a solid foundation in the principles of mathematical thinking. Comprehensive and evenly paced, the book provides complete coverage of the function concept, and integrates a significant amount of graphing calculator material to help students develop insight into mathematical ideas. The authors' attention to detail and clarity—the same as found in James Stewart's market-leading Calculus text—is what makes this text the market leader. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

**FSA Grade 8 Math Prep 2020** Cengage Learning

The only book you will ever need to ACE the HiSET Math Test! Successfully Used by Thousands of HiSET Test Takers HiSET Math Prep 2020 - 2021, which reflects the 2020 - 2021 test guidelines, is dedicated to preparing test takers to ace the HiSET Math Test. This comprehensive HiSET Math Prep book with hundreds of examples, abundant sample HiSET mathematics questions, and two full-length and realistic HiSET Math tests is all you will ever need to fully prepare for the HiSET Math. It will help you learn everything you need to ace the math section of the HiSET test. Effortless Math unique study program provides you with an in-depth focus on the math portion of the exam, helping you master the math skills that students find the most troublesome. This HiSET Math preparation book contains most common sample questions that are most likely to appear in the mathematics

section of the HiSET. Inside the pages of this comprehensive HiSET Math book, students can learn basic math operations in a structured manner with a complete study program to help them understand essential math skills. It also has many exciting features, including: Content 100% aligned with the 2020 HiSET test Written by HiSET Math instructors and test experts Complete coverage of all HiSET Math concepts and topics which you will be tested Over 2,500 additional HiSET math practice questions in both multiple-choice and grid-in formats with answers grouped by topic, so you can focus on your weak areas Abundant Math skill building exercises to help test-takers approach different question types that might be unfamiliar to them Exercises on different HiSET Math topics such as integers, percent, equations, polynomials, exponents and radicals 2 full-length practice tests (featuring new question types) with detailed answers HiSET Math Prep 2020 - 2021 is an incredibly useful resource for those who want to review all topics being covered on the HiSET test. It efficiently and effectively reinforces learning outcomes through engaging questions and repeated practice, helping you to quickly master Math skills. **Kaplan New York City Specialized High School Admissions Test** Cengage Learning

ALGEBRA AND TRIGONOMETRY: REAL MATHEMATICS, REAL PEOPLE, 6th Edition, is an ideal student and instructor resource for courses that require the use of a graphing calculator. The quality and quantity of the exercises, combined with interesting applications and innovative resources, make teaching easier and help students succeed. Retaining the series' emphasis on student support, selected examples throughout the text include notations directing students to previous sections to review concepts and skills needed to master the material at hand. The book also achieves accessibility through careful writing and design—including examples with detailed solutions that begin and end on the same page, which maximizes readability. Similarly, side-by-side solutions show algebraic, graphical, and numerical representations of the mathematics and support a variety of learning styles. Reflecting its new subtitle, this significant revision focuses more than ever on showing students the relevance of mathematics in their lives and future careers. **The ACT For Dummies** Cengage Learning

As in previous editions, the focus in PREALGEBRA remains on the Aufmann Interactive Method (AIM). Students are encouraged to be active participants in the classroom and in their own studies. For the first time in this edition, How To examples appear before the paired Examples and You Try It problems—a hallmark feature found in all other books in the Aufmann series. Presenting students with worked examples, and then providing them with the opportunity to immediately solve similar problems, helps them build their confidence and eventually master the concepts. Simplicity is key in the organization of this edition, as in all other editions. All lessons, exercise sets, tests, and

supplements are organized around a carefully constructed hierarchy of objectives. Each exercise mirrors a preceding objective, which helps to reinforce key concepts and promote skill building. This clear, objective-based approach allows students to organize their thoughts around the content, and supports instructors as they work to design syllabi, lesson plans, and other administrative documents. New features like Focus on Success, Apply the Concept, and Concept Check add an increased emphasis on study skills and conceptual understanding to strengthen the foundation of student success. The Sixth Edition also features a new design, enhancing the Aufmann Interactive Method and making the pages easier for both students and instructors to follow. Available with InfoTrac Student Collections <http://gocengage.com/infotrac>. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

#### **Middle School Math** Cengage Learning

Kaufmann and Schwitters have built this text's reputation on clear and concise exposition, numerous examples, and plentiful problem sets. This traditional text consistently reinforces the following common thread: learn a skill; practice the skill to help solve equations; and then apply what you have learned to solve application problems. This simple, straightforward approach has helped many students grasp and apply fundamental problem solving skills necessary for future mathematics courses. Algebraic ideas are developed in a logical sequence, and in an easy-to-read manner, without excessive vocabulary and formalism. The open and uncluttered design helps keep students focused on the concepts while minimizing distractions. Problems and examples reference a broad range of topics, as well as career areas such as electronics, mechanics, and health, showing students that mathematics is part of everyday life. The text's resource package—anchored by Enhanced WebAssign, an online homework management tool—saves instructors time while also providing additional help and skill-building practice for students outside of class. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

#### Geometry Common Core John Wiley & Sons

As in previous editions, the focus in PREALGEBRA & INTRODUCTORY ALGEBRA remains on the Aufmann Interactive Method (AIM). Students are encouraged to be active participants in the classroom and in their own studies as they work through the How To examples and the paired Examples and You Try It problems. Student engagement is crucial to success. Presenting students with worked examples, and then providing them with the opportunity to immediately solve similar problems, helps them build their confidence and eventually master the concepts. Simplicity is key in the organization of this edition, as in all other editions. All lessons, exercise sets, tests, and supplements are organized around a carefully constructed hierarchy of objectives. Each exercise mirrors a preceding objective, which helps to reinforce key concepts and promote skill building. This clear, objective-based approach allows students to organize their thoughts around the content, and supports instructors as they work to design syllabi, lesson plans, and other administrative documents. New features like Focus on Success, Apply the Concept, and Concept Check add an increased emphasis on study skills and conceptual understanding to strengthen the foundation of student success. The Third Edition also features a new design, enhancing the Aufmann Interactive

Method and making the pages easier for both students and instructors to follow. Available with InfoTrac Student Collections <http://gocengage.com/infotrac>. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

**Prealgebra and Introductory Algebra: An Applied Approach** American Book Company

The first SAT guide for students with learning disabilities. For the growing number of students with learning disabilities who take the SAT each year, studying for the test is even more grueling than it is for traditional students. There is nothing on the market to prepare them for the SAT, and traditional manuals are inadequate both in content and presentation. LD SAT Study Guide is the first commercially available SAT preparation manual that prepares students with disabilities in general, and devotes specific attention and instruction to the more common disabilities, including dyslexia, ADD/ADHD, nonverbal learning disabilities, math disabilities, and visual or auditory processing disorders. As a free supplement to the book, readers will have access to a companion website that

enables them to take several practice tests and receive subject-specific feedback that pinpoints their strengths and weaknesses. Students can then focus their preparation accordingly to maximize their overall SAT score.
