"It was a pleasure to read this comprehensive and insightful work by leading scholars on gender and football about the 2019 Women's World Cup. With

discussions from post-colonial lenses of Women of Color, fan appreciation and adoration, to queer relationships and even the legendary statuesque pose by World Champion Megan Rapinoe, this book interrogates the many layers of complexity in an intelligent and generous manner. From an in-depth analysis of media representation, lingering sexism, and complex discussions about racial inequities in the sport, this is a necessary read for journalists, pundits, academics, and fans interested in critical discussions that are embedded into women's football." -- Shireen Ahmed, Writer and award-winning sports activist focusing on Muslim women in sports. This book examines the most prolific international women's football tournament--the FIFA Women's World Cup--through media, fandom and how mediated women's soccer can improve on a global scale. Women's soccer has exploded in terms of media exposure, television audiences and live spectatorship. This book explores those macro-level issues, while also digging into micro-level topics such as Megan Rapinoe's celebrations and political activism, VAR reviews, LGBTQ imagery,

and cultural obstacles for women's football in Central-Eastern Europe and Nigeria. Using an interdisciplinary approach, scholars look at issues through the lenses of feminist theory, cultural studies, rhetorical criticism, political economy, performative sport fandom, autoethnography, and more. Thus, the book is important reading for students, researchers and media practitioners with interests in women's soccer, gender in sports media, coverage of women's sport, and sport fandom. The Netherlands has been one of the world's most distinctive and sophisticated football cultures. From the birth of Total Football in the sixties, through two decades of World Cup near misses to the exiles who remade clubs like AC Milan, Barcelona, Arsenal and Chelsea in their own image, the Dutch have often been

dazzlingly original and influential. The elements of their style (exquisite skills, adventurous attacking tactics, a unique blend of individual creativity and teamwork, weird patterns of self-destruction) reflect and embody the country's culture and history. This book lays bare the elegant, fractured soul of the Dutch Masters and the culture that spawned them by exploring and analysing its key ideas, institutions, personalities and history in the context of wider Dutch society.

Routledge Handbook of Football Business and Management InterVarsity Press

Called to action on 2 April 1982, the men of 45 Commando Royal Marines assembled from around the world to sail 8,000 miles to recover the Falkland Islands from Argentine invasion. Lacking helicopters and short of food, they yomped in appalling weather carrying overloaded rucksacks, across the roughest terrain. Yet for a month in mid-winter, they remained a cohesive fighting-fit body of

men. They then fought and won the highly successful and fierce night battle for Two Sisters, a 1,000 foot high mountain which was the key to the defensive positions around Stanley. This is a first hand story of that epic feat, but it is much more than that. The first to be written by a company commander in the Falklands War, the book gives a compelling, vivid description of the yomp and infantry fighting, and it also offers penetrating insights into the realities of war at higher levels. It is a unique combination of descriptive writing about front-line fighting and wider reflections on the Falklands War, and conflict in general. Gritty and moving; sophisticated, reflective and funny, this book offers an abundance of timeless truths about war. Postscript: Yomping was the word used by the Commandos for carrying heavy loads on long marches. It caught the public's imagination during this short but bitter campaign and epitomized the grim determination and professionalism of our troops.
