Targeting Handwriting Victoria Year 6 Student Book focuses on developing students' own styles, while emphasising fluency and legibility. The book includes: 'Mature' real-world applications, e. g. developing a signature

and tips for note taking teaching pages with two sets of copying lines, for reinforcement and extra practice a section on calligraphy The Targeting Handwriting Years 3-6 Student Books have been designed to make learning cursive handwriting as easy as possible for students. New skills are introduced sequentially, so that students build on skills one by one and aren't called on to use skills that haven't been introduced yet. Wherever possible, students copy

words underneath models, so that left-handers aren't disadvantaged, and practice of numerals and punctuation is integrated into the writing activities. The books also encourage and support student self-assessment.

Deep learning is often viewed as the exclusive domain of math PhDs and big tech companies. But as this hands-on guide demonstrates, programmers comfortable with Python can achieve impressive results in deep learning with little math background, small amounts of data, and minimal code. How? With fastai, the first library to provide a consistent interface to the most frequently used deep learning applications. Authors Jeremy Howard

and Sylvain Gugger, the creators of fastai, show you how to train a model on a wide range of tasks using fastai and PyTorch. You'll also dive progressively further into deep learning theory to gain a complete understanding of the algorithms behind the scenes. Train models in computer vision, natural language processing, tabular data, and collaborative filtering Learn the latest deep learning techniques that matter most in practice Improve accuracy, speed,

and reliability by understanding how deep learning models work Discover how to turn your models into web applications Implement deep learning algorithms from scratch Consider the ethical implications of your work Gain insight from the foreword by PyTorch cofounder, Soumith Chintala Deep Learning for Coders with fastai and PyTorch This large number line is numbered -20 to +100. A hilarious look at what happens when boys and monsters mix... When a little boy receives a letter from a monster, inviting himself over to play, the boy isn't quite sure what to do. Afraid to offend, manners in hand, the little

boy invites the monster  
over for Saturday.  
Strangely enough, it  
seems the monster is  
facing a similar crisis of

etiquette -- his letter was  
meant for his monster  
cousin, who just happens  
to live underneath the  
boy's bed! Told in funny

rhyming verse, with  
striking black-and-white  
illustrations and spot  
colour, this story is sure to  
keep kids howling.
