BROOKLYN BUCKLEY

Number 1 in series Digital Manga, Inc. The lusty vampire, the sympathetic werewolf, the tragic banshee are just a few of the dark and frightening creatures you'll discover in *Banshees, Werewolves, Vampires, and Other Creatures of the Night*. Huffington Post Weird News columnist and author Varla Ventura takes readers on a wild ride through the shadowy hills of rural Ireland, the dark German forests, and along abandoned farms and country roads across the world to discover some of the most frightening and freaktacular tales, tidbits, and encounters with all those beasties that go bump in the night. Along with classic pieces from Bram Stoker, Elliot O'Donnell, Sabine Baring Gould, William Butler Yeats and many others, Ventura includes:

- Famous vampires you may not know
- The identity of the author of the first English vampire novel (and his relationship to Mary Shelley's *Frankenstein*)
- Excerpts from the first psychic vampire novel ever written
- Stories of 19th century werewolf hunters
- Why banshees are the most feared of supernatural creatures

Vampires Weiser Books

With over 2,000 entries in A-to-Z format, **THE VAMPIRE ENCYCLOPEDIA** is a one-stop reference for everything and anything to do with vampires, from books and films to the history of the vampire legend and ways to RESIST THESE IRRESISTIBLE CREATURES. The vampire is alive and flourishing in books, hit television shows, clubs, even comic

books—there's no end in sight for the immortal ones!

The World of the Undead Little, Brown An "innovative" (The New Yorker) retelling of the story of Dracula. Told with the flourish and poise of a talented storyteller, Kostova turns the age-old tale into a compelling "late night page-turner" (San Francisco Chronicle) When a young woman discovers a cache of ancient letters, she is thrown into the turbulent history of her parents' dark pasts. Uncovering a labyrinthine trail of clues, she begins to reconstruct a staggering history of deceit and violence. Debut novelist Elizabeth Kostova creates an adventure of monumental proportions, a relentless tale that blends fact and fantasy, history and the present, with an assurance that is almost unbearably suspenseful and utterly unforgettable.

The Vampire Gallery McFarland

An exhaustive work covering the full range of topics relating to vampires, including literature, film and television, and folklore.

- Nearly 240 A-Z entries on all aspects of vampirism
- Photographs and illustrations of vampire films, television shows, and other matters relating to vampires
- Brief bibliographies referring the reader to secondary sources on individual entries
- A general bibliography of scholarship on vampires

The Living Dead in Myth, Legend, and Popular Culture

Encyclopedia of the Vampire

The Living Dead in Myth, Legend, and Popular Culture

A comprehensive, authorized compendium of all things Buffy the Vampire Slayer, published in celebration of the revered show's twentieth anniversary. From its debut in 1997,

Buffy the Vampire Slayer became a cult hit with legions of devoted viewers and propelled the show's creator Joss Whedon to stardom. Now, fans can discover Buffy's world fully with this full-color A-to-Z encyclopedia that catalogs, explains, and cross-reference every detail of the Buffyverse, from characters, locations, and weapons to episodes, demons, and recurring gags. Packed with content from the television show, *The Buffy the Vampire Slayer Encyclopedia* is the first companion book that also includes key facts from the official canon comics and its spin-off show *Angel*—making this comprehensive volume the only truly complete guide to the entire Buffyverse. Lavishly produced and written by Buffy experts, *The Buffy the Vampire Slayer Encyclopedia* is the authoritative source for fans, allowing them to indulge in the intricacies and nuances of the series as never before. With color stills and photography throughout, an eerie cover with special effects, and an incredible design that reflects the show's aesthetics, this fully authorized companion is a must-have for all Buffy enthusiasts. A look at the forgotten ancestors of the modern-day vampire, many of which have very different characteristics • Looks at the many ancestral forms of the modern vampire, including shroud eaters, appesarts, and stafi • Presents evidence for the reality of this phenomenon from pre-19th-century newspaper articles and judicial records Of all forms taken by the undead, the vampire wields the most powerful pull on the modern imagination. But the countless movies and books inspired by this child of the night who has a predilection for human blood are based on incidents recorded as fact in newspapers and judicial archives in the centuries preceding the works of Bram Stoker and other writers. Digging through these forgotten records, Claude Lecouteux unearths a very different figure of the vampire in the many accounts of individuals who reportedly would return from their graves to attack the living. These ancestors of the modern vampire were not all blood suckers; they included shroud eaters, appesarts, nightmares, and the curious figure of the stafia, whose origin is a result of masons secretly interring the shadow of a living human being in the wall of a building under construction. As Lecouteux shows, the belief in vampires predates ancient Roman times, which abounded with lamia, stirges, and ghouls. Discarding the tacked together explanations of modern science for these

inexplicable phenomena, the author looks back to another folk belief that has come down through the centuries like that of the undead: the existence of multiple souls in every individual, not all of which are able to move on to the next world after death.

Romancing the Vampire Hachette UK
The mysterious D is a vampire hunter, one of those who protect the ordinary humans against the alliance of mutants and the race of vampires known as the Nobility, in the distant future of 12,090 A.D.

Mona the Vampire HarperCollins UK
Our enduring love of vampires - the bad boys (and girls) of paranormal fantasy - has persisted for centuries. Despite being bloodthirsty, heartless killers, vampire stories commonly carry erotic overtones that are missing from other paranormal or horror stories. Even when monstrous teeth are sinking into pale, helpless throats - especially then - vampires are sexy. But why? In *A History Of The Vampire In Popular Culture*, author Violet Fenn takes the reader through the history of vampires in 'fact' and fiction, their origins in mythology and literature and their enduring appeal on TV and film. We'll delve into the sexuality - and sexism - of vampire lore, as well as how modern audiences still hunger for a pair of sharp fangs in the middle of the night.

Their Multiple Forms and Hidden Purposes Checkmark Books
Hundreds of entries discuss various topics related to the Anne Rice series of vampire novels, and include characters, themes, places, and symbolism in the novels

The Vampire Almanac Gramercy
"Vampires. Why do we care? In these pages you will find what is very simply, the most literate, imaginative, and just plain fascinating answer to that question ever written." ?Whitley Strieber In a culture that does not do death particularly well, we are obsessed with mortality. Margot Adler writes, "Vampires let us play with death and the issue of mortality. They let us ponder what it would mean to be truly long lived. Would the long view allow us to see the world differently, imagine social structures differently? Would it increase or decrease our reverence for the planet? Vampires allow us to ask questions we usually bury." As Adler, a longtime NPR correspondent and question asker, sat vigil at her dying husband's bedside, she found herself newly drawn to vampire novels and their explorations of mortality. Over the next

four years—by now she has read more than 270 vampire novels, from teen to adult, from gothic to modern, from detective to comic—she began to see just how each era creates the vampires it needs. Dracula, an Eastern European monster, was the perfect vehicle for 19th-century England’s fear of outsiders and of disease seeping in through its large ports. In 1960s America, Dark Shadows gave us the morally conflicted vampire struggling against his own predatory nature, who still entralls us today. Think Spike and Angel, Stefan and Damon, Bill and Eric, the Cullens. Vampires Are Us explores the issues of power, politics, morality, identity, and even the fate of the planet that show up in vampire novels today. Perhaps, Adler suggests, our blood is oil, perhaps our prey is the planet. Perhaps vampires are us.

The Terrifying Truth! about Vampires, Ghosts, Monsters, and More Apple Paperbacks

Presents profiles of famous vampires since the 18th century, including Barnabas Collins, Count Dracula, Lord

Ruthven, and Graf Orlock

Encyclopedia of the Vampire: The Living Dead in Myth, Legend, and Popular Culture Weiser Books

Vampires have always fascinated and frightened, and now their reach goes beyond horror-flick fans. Teens the world over have fallen under the spell of these mysterious, blood-sucking, and oh-so-alluring beings! From Buffy to Twilight, vampire fans have gotten smarter and savvier, and this is the book for them. Learn how vampires live, how they avoid capture, and why they’re so darn attractive. Also trace the history of vampire lore--in literature, movies, and on television--from the woods of Transylvania to the modern-day high school. Chock full of info and insight, each gorgeous page will draw in readers of every age, with innovative styling, never-before-seen imagery, and deliciously wicked design. Perhaps this enticing tome is best read while wearing a garlic necklace . . .
