Now completely up-to-date with the latest research advances, the Seventh Edition retains the distinctive character of earlier editions. Twenty-two concise chapters, co-authored by six highly distinguished biologists, provide current, authoritative coverage of an exciting, fast-changing discipline.

France in the World Bantam

With the intrigue of a psychological thriller, Camus's masterpiece gives us the story of an ordinary man unwittingly drawn into a senseless murder on an Algerian beach. Behind the intrigue, Camus explores what he termed "the nakedness of man faced with the absurd" and describes the condition of reckless alienation and spiritual exhaustion that characterized so much of twentieth-century life. First published in 1946; now in translation by Matthew Ward.

End of History and the Last Man Spark Publishing Group

NATIONAL BESTSELLER The definitive full-scale portrait of J. Pierpont Morgan's tumultuous life, both in and out of the public eye History has remembered him as a complex and contradictory figure, part robber baron and part patron saint. J. Pierpont Morgan earned his reputation as "the Napoleon of Wall Street" by reorganizing the nation's railroads and creating industrial giants such as General Electric and U.S. Steel. At a time when

the country had no Federal Reserve system, he appointed himself a one-man central bank. He had two wives, three yachts, four children, six houses, mistresses, and one of the finest art collections in America. In this extraordinary book, drawing extensively on new material, award-winning biographer Jean Strouse vividly portrays the financial colossus, the avid patron of the arts, and the entirely human character behind all the myths. Praise for Morgan "Magnificent . . . the fullest and most revealing look at this remarkable, complex man that we are likely to get."—The Wall Street Journal "A masterpiece . . . No one else has told the tale of Pierpont Morgan in the detail, depth, and understanding of Jean Strouse."—Robert Heilbroner, Los Angeles Times Book Review "It is hard to imagine a biographer coming any closer to perfection."—St. Louis Post-Dispatch "Strouse is in full command of Pierpont Morgan's personal life, his financial operations, his collecting, and his benefactions, and presents a rich, vivid picture of the background against which they took place. . . . A magnificent biography."—The New York Review of Books "With uncommon intelligence, maturity, and psychological insight, Morgan: American Financier is that rare masterpiece biography that enables us to penetrate the soul of a complex human being."—The Philadelphia Inquirer

15th-century Manuscript Bantam Classics

One of the 20th century's enduring works, *One Hundred Years of Solitude* is a widely beloved and acclaimed novel known throughout the world, and the ultimate achievement in a Nobel Prize-winning career. The novel tells the story of the rise and fall of the mythical town of Macondo through the history of the Buendía family. It is a rich and brilliant chronicle of life and death, and the tragicomedy of humankind. In the noble, ridiculous, beautiful, and tawdry story of the Buendía family, one sees all of humanity, just as in the history, myths, growth, and decay of Macondo, one sees all of Latin

America. Love and lust, war and revolution, riches and poverty, youth and senility -- the variety of life, the endlessness of death, the search for peace and truth -- these universal themes dominate the novel. Whether he is describing an affair of passion or the voracity of capitalism and the corruption of government, Gabriel García Márquez always writes with the simplicity, ease, and purity that are the mark of a master. Alternately reverential and comical, *One Hundred Years of Solitude* weaves the political, personal, and spiritual to bring a new consciousness to storytelling. Translated into dozens of languages, this stunning work is no less than an accounting of the history of the human race.

The Modern Denial of Human Nature New York : McGraw-Hill

An insider's history of the online social network traces the collaborations and conflicts among its founders, the personalities that shaped its development, and the ways in which the site has become an integral part of contemporary culture.

Les Très Riches Heures Du Duc de Berry Random House Trade Paperbacks

Candide is the picaresque tale of the titular character's fantastical journey from an insular, idealized life in a picturesque castle through the difficulties and evils of the real world. Satirical, comical, witty, and cutting, Candide was widely banned in its day for containing blasphemous and seditious concepts. Despite that, it survived controversy to become an important book in the Western literary heritage. Today Candide remains a breezy and darkly funny read. This book is part of the Standard Ebooks project, which produces free public domain ebooks.

Torrent of Portyngale Crescent

This dynamic collection presents a new way of writing national and global histories while developing our understanding of France in the world through short, provocative essays that range from prehistoric frescoes to Coco Chanel to the terrorist attacks of 2015. Bringing together an impressive group of established and up-and-coming historians, this bestselling history conceives of France not as a fixed, rooted entity, but instead as a place and an idea in flux, moving beyond all borders and frontiers, shaped by exchanges and mixtures. Presented in chronological order from 34,000 BC to 2015, each chapter covers a significant year from its own particular angle--the marriage of a Viking leader to a Carolingian princess proposed by Charles the Fat in 882, the Persian embassy's reception at the court of Louis XIV in 1715, the Chilean coup d'état against President Salvador Allende in 1973 that mobilized a generation of French left-wing activists. France in the World combines the intellectual rigor of an academic work with the liveliness and readability of popular history. With a brand-new preface aimed at an international audience, this English-language edition will be an essential resource for Francophiles and scholars alike.

Arrian's Peripus Ponti Euxini affords us a unique insight into the cultural and political background of the early second century

Economics University of Chicago Press

Combining history with cultural analysis, this is a social, cultural and political history of gay life in the major cities of the world since the 1940s.

Focusing on New York, London, Paris, Amsterdam and Berlin, the book chronicles the importance of urban centres in the evolution of gay culture.

Love in the Time of Cholera (Illustrated Edition) Simon and Schuster

Set on the Caribbean coast of South America, this love story brings together Fermina Daza, her distinguished husband, and a man who has secretly loved her for more than fifty years.

Molecular Biology of the Gene American SniperThe Autobiography of the Most Lethal Sniper in U.S. Military History

King Lear is a tragedy by Shakespeare, written about 1605 or 1606. Shakespeare based it on the legendary King Leir of the Britons, whose story is outlined in Geoffrey of Monmouth's pseudohistorical *History of the Kings of Britain* (written in about 1136). The play tells the tale of the aged King Lear who is passing on the control of his kingdom to his three daughters. He asks each of them to express their love for him, and the first two, Goneril and Regan do so effusively, saying they love him above all things. But his youngest daughter, Cordelia, is compelled to be truthful and says that she must reserve some love for her future husband. Lear, enraged, cuts her off without any inheritance. The secondary plot deals with the machinations of Edmund, the bastard son of the Earl of Gloucester, who manages to convince his father that his legitimate son Edgar is plotting against him. After Lear steps down from power, he finds that his elder daughters have no real respect or love for him, and treat him and his followers as a nuisance. They allow the raging Lear to wander out into a storm, hoping to be rid of him, and conspire with Edmund to overthrow the Earl of Gloucester. The play is a moving study of the perils of old age and the true meaning of filial love. It ends tragically with the deaths of both Cordelia and Lear—so tragically, in fact, that performances during the Restoration period sometimes substituted a happy ending. In modern times, though, King Lear is performed as written and generally regarded as one of Shakespeare's best plays. This Standard Ebooks production is based on William George Clark and William Aldis Wright's 1887 Victoria edition, which is taken from the Globe edition. This book is part of the Standard Ebooks project, which produces free public domain ebooks.

Albania, a Country Study DC Comics

In some senses, Albania is a living museum of the past. Originally a small herding community in the most inaccessible reaches of the Balkans, the presence of Albanians in southeastern Europe has been documented for over a thousand years. Albanian traditional folk culture, which evolved over centuries of relative isolation, is surprisingly rich. Yet despite recent events this culture remains little known to the Western world. Due to the lasting effects of a half century of Stalinist dictatorship, very few individuals even in Albania know much about their own popular traditions. The Dictionary of Albanian Religion, Mythology, and Folk Culture makes available for the first time a wealth of knowledge about Albanian popular belief and folk customs. Alphabetical entries shed light on blood feuding, figures of Albanian mythology, religious beliefs, communities, and sects, calendar feasts and rituals, and popular superstitions, as well as birth, marriage, and funeral customs, and sexual mores. This unique volume will stand as the standard reference work on the subject for years to come.

You Were Born Rich Bristol Classical Press

A brilliant inquiry into the origins of human nature from the author of *Rationality*, *The Better Angels of Our Nature*, and *Enlightenment Now*.

"Sweeping, erudite, sharply argued, and fun to read..also highly persuasive." --Time Updated with a new afterword One of the world's leading experts on language and the mind explores the idea of human nature and its moral, emotional, and political colorings. With characteristic wit, lucidity, and

insight, Pinker argues that the dogma that the mind has no innate traits—a doctrine held by many intellectuals during the past century—denies our common humanity and our individual preferences, replaces objective analyses of social problems with feel-good slogans, and distorts our understanding of politics, violence, parenting, and the arts. Injecting calm and rationality into debates that are notorious for ax-grinding and mud-slinging, Pinker shows the importance of an honest acknowledgment of human nature based on science and common sense.

Groucho Standard Ebooks

New York Times Notable Book: “A well-told business yarn . . . A fly-on-the-wall look at how eBay got to be eBay.” —Chicago Tribune When Pierre Omidyar launched a clunky website from a spare bedroom over Labor Day weekend of 1995, he wanted to see if he could use the Internet to create a perfect market. He never guessed his old-computer parts and Beanie Baby exchange would revolutionize the world of commerce. In this fascinating book, Adam Cohen, the first journalist ever to get full access to the company, tells the remarkable story of eBay’s rise. He describes how eBay built the most passionate community ever to form in cyberspace and forged a business that triumphed over larger, better-funded rivals. And he explores the ever-widening array of enlistees in the eBay revolution, from a stay-at-home mom who had to rent a warehouse for her thriving business selling bubble-wrap on eBay to the young MBA who started eBay Motors (which within months of its launch was on track to sell \$1 billion in cars a year), to collectors nervously bidding thousands of dollars on antique clothing-irons. “Skillfully synthesizes the story of eBay’s corporate evolution with profiles of more peripheral figures.” —The Washington Post Book World “The definitive history of eBay—a strange and exhilarating tale.” —Jeffrey Toobin, New York Times bestselling author of *True Crimes* and *Misdemeanors*

Some Merry Adventures of Robin Hood Samuel French, Inc.

Large numbers of Indians - over an estimated 300 million citizens with internet-enabled mobile phones at present - have been receiving unprecedented amounts of fake, false, half-true, hateful, inflammatory (or incendiary) information in the recent past and are going to receive more such information during the general elections, the results of which will be known on 23 May 2019. The so-called WhatsApp army of the right-wing ruling regime has been 'weaponised' to influence political outcomes. Facebook and its sister social media platform, WhatsApp, are not really neutral and agnostic as they claim they are. They have been complicit in promoting the interests of Narendra Modi and his supporters in the Bharatiya Janata Party and the Rashtriya Swayamsevak Sangh for some time now, well before Modi became Prime Minister of India in May 2014. Even as the world's largest social media organisation of its kind is increasingly being questioned in different countries, this book takes a critical look at the working of Facebook and WhatsApp in India.

Russia Vintage

#1 BESTSELLER • The groundbreaking book that redefines what it means to be smart, with a new introduction by the author “A thoughtfully written, persuasive account explaining emotional intelligence and why it can be crucial.”—USA Today Everyone knows that high IQ is no guarantee of success, happiness, or virtue, but until Emotional Intelligence, we could only guess why. Daniel Goleman's brilliant report from the frontiers of psychology and neuroscience offers startling new insight into our “two minds”—the rational and the emotional—and how they together shape our destiny. Drawing on groundbreaking brain and behavioral research, Goleman shows the factors at work when people of high IQ flounder and those of modest IQ do surprisingly well. These factors, which include self-awareness, self-discipline, and empathy, add up to a different way of being smart—and they aren't fixed at birth. Although shaped by childhood experiences, emotional intelligence can be nurtured and strengthened throughout our adulthood—with immediate benefits to our health, our relationships, and our work. The twenty-fifth-anniversary edition of Emotional Intelligence could not come at a better time—we spend so much of our time online, more and more jobs are becoming automated and digitized, and our children are picking up new technology faster than we ever imagined. With a new introduction from the author, the twenty-fifth-anniversary edition prepares readers, now more than ever, to reach their fullest potential and stand out from the pack with the help of EI.

The Stranger Potomac Books Incorporated

First published in 1990, *The Encyclopedia of Homosexuality* brings together a collection of outstanding articles that were, at the time of this book's original publication, classic, pioneering, and recent. Together, the two volumes provide scholarship on male and female homosexuality and bisexuality, and, reaching beyond questions of physical sexuality, they examine the effects of homophilia and homophobia on literature, art, religion, science, law, philosophy, society, and history. Many of the writings were considered to be controversial, and often contradictory, at that time, and refer to issues and difficulties that still exist today. This volume contains entries from M-Z.

Arrian: Periplus Ponti Euxini Other Press, LLC

Discourses on Livy is the founding document of modern republicanism, and Harvey C. Mansfield and Nathan Tarcov have provided the definitive English translation of this classic work. Faithful to the original Italian text, properly attentive to Machiavelli's idiom and subtlety of thought, it is eminently readable. With a substantial introduction, extensive explanatory notes, a glossary of key words, and an annotated index, the Discourses reveals Machiavelli's radical vision of a new science of politics, a vision of "new modes and orders" that continue to shape the modern ethos. "[Machiavelli] found in Livy the means to inspire scholars for five centuries. Within the Discourses, often hidden and sometimes unintended by their author, lie the seeds of modern political thought. . . . [Mansfield and Tarcov's] translation is careful and idiomatic."—Peter Stothard, *The Times* "Translated with painstaking accuracy—but also great readability."—Weekly Standard "A model of contemporary scholarship and a brave effort at Machiavelli translation that allows the great Florentine to speak in his own voice."—Choice

A Country Study Harper Collins

The #1 New York Times bestselling memoir of U.S. Navy SEAL Chris Kyle, and the source for Clint Eastwood's blockbuster movie which was nominated for six academy awards, including best picture. From 1999 to 2009, U.S. Navy SEAL Chris Kyle recorded the most career sniper kills in United States military history. His fellow American warriors, whom he protected with deadly precision from rooftops and stealth positions during the Iraq War, called him "The Legend"; meanwhile, the enemy feared him so much they named him al-Shaitan ("the devil") and placed a bounty on his head. Kyle, who was tragically killed in 2013, writes honestly about the pain of war—including the deaths of two close SEAL teammates—and in moving first-person passages throughout, his wife, Taya, speaks openly about the strains of war on their family, as well as on Chris. Gripping and unforgettable, Kyle's

masterful account of his extraordinary battlefield experiences ranks as one of the great war memoirs of all time.
