Marketing Management Vikas Publishing House
 Business to business markets are considerably more challenging than consumer markets and as such demand a more specific skillset from marketers. Buyers, with a responsibility to their company and specialist product knowledge, are more demanding than the average consumer. Given that the products themselves may be highly complex, this often requires a sophisticated buyer to understand them. Increasingly, B2B relationships are conducted within a global context. However all textbooks are region-specific despite this growing move towards global business relationships – except this one. This textbook takes a global viewpoint, with the help of an international author team and cases from across the globe. Other unique features of this insightful study include: placement of B2B in a strategic marketing setting; full discussion of strategy in a global setting including hypercompetition; full chapter on ethics and CSR early in the text; and detailed review of global B2B services marketing,

trade shows, and market research. This new edition has been fully revised and updated with a full set of brand new case studies and features expanded sections on digital issues, CRM, and social media as well as personal selling. More selective, shorter, and easier to read than other B2B textbooks, this is ideal for introduction to B2B and shorter courses. Yet, it is comprehensive enough to cover all the aspects of B2B marketing any marketer needs, be they students or practitioners looking to improve their knowledge.

Greg Marshall and Mark Johnston (both of Rollins College) have taken great effort to represent marketing management the way it is actually practiced in successful organizations today. Given the dramatic changes in the field of marketing, it is a sure bet that the job of leading marketing manager's contributions to the organization and its customers, clients, and partners has changed at the same level. Yet, no marketing management book on the market today fully and effectively captures and communicates to students how marketing management is really practiced in the 21st century business world. Clearly, it is time for an updated approach to teaching and learning within the field. Marketing Management 3e is designed to fulfill this need.

Global Marketing Management Routledge

Practiced virtually, digitally, and socially to a greater degree than ever before imagined. Enabled and informed by analytics and new technologies. Strategic, comprehensive, and concise, the fifth edition of this popular textbook introduces students to the important concepts of global marketing today, and their managerial implications. Increasingly, marketing activities must be integrated at a global level. Yet, the enduring influence of culture requires marketers to adapt local strategies in light of cultural differences. Global Marketing takes a strategic approach, recognizing the need to address both the forces of globalization and those of localization. Key updates include: Extensive real-life examples and cases from developed and emerging markets, including Africa, Latin America, and the Middle East; New topics such as digital distribution options, the participation of customers, and the rise of social media, including Twitter, Facebook, and TikTok; Updated exploration of often overlooked topics, such as China's state-owned enterprises, the importance of diasporas as target markets, the threat of transnational criminal organizations to

legitimate marketers, and new tensions among trading partners; A stronger recognition of the need for a growth mindset, value orientation, and innovation. Written in a student-friendly style, this fully updated new edition continues to be the textbook of choice for students of global marketing.

In today's socially networked and highly competitive world, it is imperative that marketers are always truthful because customers eventually find out if they have been misled. This can lead to their angst with the company going viral, thereby destroying the company's reputation. *Marketing Management* advocates 'marketing based on absolute truth'. Also brand image is sensitive to market sentiments. Brands can be in danger: one wrong product or one shoddy campaign can destroy a brand built over years. Companies must align everything that they do with the core spirit of their brands. Further, when everything seems to go digital, it is important that marketers keep in mind that customers are primarily interested in their products/services. The book advocates that superior products and services will always be central to marketing. Key Features Best Practices • Researched, implemented, and result-driven practices taken from leading companies across diverse industries throughout the world • Marketers can adopt these practices to elevate individual and organizational performance Corporate Insights • Examples of marketing concepts being implemented by well-known Indian companies and brands • Latest moves of companies and brands as they cope with competition and environment Case Studies • A brief case study after each chapter, focusing on specific issues dealt within the chapter Specialized Questions • Questions meant to make students ponder upon various aspects of marketing and challenge the existing paradigms
