Kalmbach Books  
 With this gloriously photographed and illustrated manual at hand, beadworkers can create awe-inspiring jewelry. It's the only current, comprehensive guide to working with cabochons--a flat piece of rock or mineral--and it covers all the basics, along with a range of new creative techniques and hot trends. Find out which tools and materials to use, which beads work best, and how to wrap them round the stones. Craft turned, pointed, twisted, brick stitch, ruffled, or scalloped edges, or add decorative fringe. For something dramatic, combine more than one cabochon in a single piece. Or, instead of natural stone, use dichroic glass or other found objects.

Make a glittering brooch, funky bracelets, a wearable art necklace, and other showstoppers.

Anna Elizabeth Draeger's book *Crystal Play* is a treat for beaders who are captivated by the versatility of crystals in jewelry. Stitchers will explore even more combinations of crystals, new crystal shapes, seed beads, and even some new bead shapes like Tila and peanut beads. Anna showcases these crystals using techniques that include plenty of favorite stitches such as peyote, St. Petersburg chain, herringbone, and right-angle weave. But Anna also includes a few surprise alternatives, like crossweave, fringe technique, and easy wireworking. The projects include many bracelets (which readers love as they are quick and satisfying), a few necklaces, and many bonus design variations (earrings, rings,

pendants). Anna's playful, imaginative look is what truly sets this book apart! *Creative Beading Vol. 14* John Wiley & Sons

Weaving with shaped beads and 2-holed beads is fun. You can form them into different shapes, such as diamonds like what we showed in this tutorial. Using Herringbone Stitch you can weave brick beads and create a diamond shape. Since the center of the diamond is flat, it is a nice base for embellishments and layering. Consider one diamond as a component that you can also use as earrings. Black and white is a matching color. Add a dash of bronze to give your Ebony & Ivory bracelet a flare. The tutorial is catered for intermediate to advance students. One must have basic knowledge in Herringbone, Right Angle Weave, Ladder and Peyote Stitch to easily follow the tutorial. It has in-depth instructions and ultra-clear diagrams at each step. Additionally, you can ask me question you have on the tutorial. No more getting stuck and frustrated on a confusing or just plain inaccurate pattern.
