ONE OF THE TEN BEST COOKBOOKS OF THE YEAR: The New Yorker, San Francisco Chronicle, Boston Globe • ONE OF THE BEST COOKBOOKS OF THE YEAR: The Washington Post, Time Out, NPR, Los Angeles Times, Food52, Glamour, New York Post, Minneapolis Star Tribune, Vice, Epicurious, Shelf Awareness, Publishers Weekly, Library Journal "Mouthwatering, visually stunning, and intoxicating, Black Food tells a global story of creativity, endurance, and imagination that was sustained in the face of dispersal, displacement, and oppression."—Imani Perry, Professor of African American

Studies at Princeton University In this stunning and deeply heartfelt tribute to Black culinary ingenuity, Bryant Terry captures the broad and divergent voices of the African Diaspora through the prism of food. With contributions from more than 100 Black cultural luminaires from around the globe, the book moves through chapters exploring parts of the Black experience, from Homeland to Migration, Spirituality to Black Future, offering delicious recipes, moving essays, and arresting artwork. As much a joyful celebration of Black culture as a cookbook, Black Food explores the interweaving of food, experience, and community through original poetry and essays, including "Jollofing with Toni Morrison" by Sarah Ladipo Manyika, "Queer Intelligence" by Zoe Adjonyoh, "The Spiritual Ecology of Black Food" by Leah Penniman, and "Foodsteps in Motion" by Michael W. Twitty. The recipes are similarly expansive and generous, including sentimental favorites and fresh takes such as Crispy Cassava Skillet Cakes from Yewande Komolafe, Okra & Shrimp Purloo from BJ Dennis, Jerk Chicken Ramen from Suzanne Barr, Avocado and Mango Salad with Spicy Pickled Carrot and Rof Dressing from Pierre Thiam, and Sweet Potato Pie from Jenné Claiborne. Visually stunning artwork from such notables as Black Panther Party creative director Emory Douglas and artist Sarina Mantle are woven throughout, and the book includes a signature musical playlist

curated by Bryant. With arresting artwork and innovative design, Black Food is a visual and spiritual feast that will satisfy any soul.

The Asian Vegan Kitchen is a collection of recipes from across Asia, featuring the spices and the many tasty ingredients that have made these cuisines popular world-wide. It caters to the growing segment of people of all ages who have chosen to eschew animal products, yet still want to add some global spice and excitement to their diet. There is one big difference between this and many other vegan cookbooks. These dishes do not use replacement ingredients for traditional recipes. Instead, author Hema Parekh - a noted teacher of vegetarian cooking styles in Tokyo - has selected recipes that were traditionally vegetarian, and have been enjoyed by diners for decades, even centuries. In doing so, she has had to make only minor changes, if any, for these recipes to be deliciously appealing to everyone: vegan, vegetarian or otherwise. Over 200 dishes have been selected to cover a wide variety of tastes. Here readers will find vegan-ready recipes for everything from Japan's sushi to northern Indian curries, from Vietnamese spring rolls, to red-hot tofu, Chinese-style. Soups, noodle dishes and some desserts are also included. The recipes are simple, with detailed explanations. Also included are over 50 mouth-watering photos and a comprehensive glossary. Vegan cooking just became a lot more interesting. A long-time vegetarian, Hema Parekh has been teaching vegetarian cooking in Tokyo for almost twenty years. She has written two popular books on vegetarian cooking in Japanese - A Touch of Spice and

Indian Vegetarian Cooking - and is working on a third. Parekh has lived in Japan for 27 years.

This wide-ranging volume explores the tension between the dietary practice of veganism and the manifestation, construction, and representation of a vegan identity in today's society. Emerging in the early 21st century, vegan studies is distinct from more familiar conceptions of "animal studies," an umbrella term for a three-pronged field that gained prominence in the late 1990s and early 2000s, consisting of critical animal studies, human animal studies, and posthumanism. While veganism is a consideration of these modes of inquiry, it is a decidedly different entity, an ethical delineator that for many scholars marks a complicated boundary between theoretical pursuit and lived experience. *The Routledge Handbook of Vegan Studies* is the must-have reference for the important topics, problems, and key debates in the subject area and is the first of its kind. Comprising over 30 chapters by a team of international contributors, this handbook is divided into five parts: History of vegan studies Vegan studies in the disciplines Theoretical intersections

Contemporary media entanglements Veganism around the world These sections contextualize veganism beyond its status as a dietary choice, situating veganism within broader social, ethical, legal, theoretical, and artistic discourses. This book will be essential reading for students and researchers of vegan studies, animal studies, and environmental ethics.
