Electronic Over Current Relays | Schneider Electric India

Electronic overcurrent relays from 0.3 A to 38 A. Part of TeSys. TeSys LR97D electronic overcurrent relays provide protection against locked rotor, seizure or mechanical shocks. Unlike the thermal overload relays, these relays do not have a thermal memory.

Protection Relays by Application | Schneider Electric

This type of relay is extremely reliable and is a relatively low cost device. Electronic thermal overload relays Electronic thermal overload relays have the advantage of electronics which allow a more complex thermal image of the motor to be created. They can be combined with products having complementary functions, such as:
