He doesn't do relationships. She doesn't do flings. Everything they thought is about to unravel...

Frankie When you say you're a sexologist, people imagine Marilyn Monroe. They don't expect a woman who uses a wheelchair. As the host of the All Access Podcast, I'm breaking barriers, crushing stigmas, and creating sexual connections that are fulfilling for my fans. I'm like cupid, but with pink hair and fewer diapers. Only, I've hit a snag. A lovely listener wants some advice about accessible rope play and I'm drawing a big fat blank. Which leaves me with no option but to get out there and give it a go. Which is how I meet Jay Wood-rigger, carpenter, and all-round hottie. I'd be open to letting him wine and dine me-only Jay isn't my type. He's not a one-girl kind of guy. Monogamy isn't even in his vocab, and I'm not a woman who'll settle for being second choice. But the closer we get, the more Jay has me tied up in knots. And it's making me think, maybe I could compromise and accept a little Wood in my life. Even if it's only temporary. Jay Frankie's funny, intelligent, and ridiculously sexy. This should be a no-brainer. A little fun in the sheets, and a little romp with some ropes-simple. Only the infuriating woman is asking for more. I'm not that kind of guy. I wouldn't even

know how to be that kind of guy. I'm the definition of easy. It'll be fine. We'll be friends. Just friends. So, why does my heart feel frayed? And why is it I can't help but consider taking the ultimate leap of faith-tying myself to Frankie. Permanently.

A concise introduction to the basics of open access, describing what it is (and isn't) and showing that it is easy, fast, inexpensive, legal, and beneficial. The Internet lets us share perfect copies of our work with a worldwide audience at virtually no cost. We take advantage of this revolutionary opportunity when we make our work "open access": digital, online, free of charge, and free of most copyright and licensing restrictions. Open access is made possible by the Internet and copyright-holder consent, and many authors, musicians, filmmakers, and other creators who depend on royalties are understandably unwilling to give their consent. But for 350 years, scholars have written peer-reviewed journal articles for impact, not for money, and are free to consent to open access without losing revenue. In this concise introduction, Peter Suber tells us what open access is and isn't, how it benefits authors and readers of research, how we pay for it, how it avoids copyright problems, how it has moved from the periphery to the mainstream, and what its future may hold. Distilling a decade of Suber's influential writing and thinking about open access, this is the indispensable book on the subject for researchers, librarians, administrators, funders, publishers, and policy makers.

Why simple technological solutions to complex social issues continue to appeal to politicians and professionals who should (and often do) know better. Why do we keep trying to solve poverty with technology? What makes us feel that we need to learn to code--or else? In *The Promise of Access*, Daniel Greene argues that the problem of poverty became a problem of technology in order to manage the contradictions of a changing economy. Greene shows how the digital divide emerged as a policy problem and why simple technological solutions to complex social issues continue to appeal to politicians and professionals who should (and often do) know better.

The Go-Go's were the first all-female rock group in history to write their own songs, play their own instruments, and reach the top of the Billboard charts with their #1 album, *Beauty and the Beat*. *Made In Hollywood* is drummer Gina Schock's personal account of the band, which includes a treasure trove of photographs and memorabilia collected over the course of her 40-year career. The Go-Go's debut album, *Beauty and the Beat*, rose to the top of the charts in 1981 and their hit songs "We Got the Beat", "Our Lips Are Sealed", "Vacation", and "Head Over Heels" (to name a few) served as a soundtrack to our lives in the '80s. Now, after the release of their Critics Choice Award-winning Showtime documentary, and in anticipation of their forthcoming induction into the Rock & Roll Hall of Fame and their 2021 West Coast shows, Gina takes fans behind the scenes for a rare look at her personal images documenting the band's wild journey to the heights of fame and stardom. Featuring posters, photographs, Polaroids, and other memorabilia from her archives, *Made In Hollywood* also includes stories from each member of the Go-Go's, along with other cultural luminaries like Kate Pierson, Jodie Foster, Dave Stewart, Martha Quinn, and Paul Reubens. With a style as bold and distinctive as any Go-Go's album, *Made In Hollywood* is the perfect tribute to one of the world's most iconic groups.
