This collection of new essays explores the many ways in which writing relates to corporeality and how the two work together to create, resist or mark the body of the "Other." Contributors draw on varied backgrounds to examine different movement practices. They focus on movement as a meaning-making process,

including the choreographic act of writing. The challenges faced by marginalized bodies are discussed, along with the ability of a body to question, contest and re-write historical narratives.

These poems are written with a lot of emotion and passion. Some of them talk about relationships, religions, one's beliefs, and most especially love. The author wants his word to be read by people who feel the same emotions he had when he wrote his poetry.

Resum: El protagonista d'aquesta història és un nen que ha de fugir junt amb els seus pares de Buenos Aires per culpa de la dictadura. Instal·lat a París haurà d'aprendre un nou idioma i buscar nous amics. Per sort coneixerà a 'El Negro', un gat amb poders màgics amb el qual podrà volar per les teulades de París fins arribar a veure la seva pàtria llunyana, de la qual tant se'n recorda.

Latin Blackness in Parisian Visual Culture, 1852-1932 examines an understudied visual language used to portray Latin Americans in mid-19th to early 20th-century Parisian popular visual media. The term 'Latinize' is introduced to connect France's early 19th-century endeavors to create "Latin America," an expansion of the French empire into the Latin-language based Spanish and Portuguese Americas, to its perception of this population. Latin-American elites traveler to Paris in the 1840s from their newly independent nations were denigrated in representations rather than depicted as equals in a developing global economy.

Darkened skin, etched onto images of Latin Americans of European descent mitigated their ability to claim the privileges of their ancestral heritage. Whitened skin, among other codes, imposed on turn-of-the-20th-century Black Latin Americans in Paris tempered their Blackness and rendered them relatively assimilatable compared to colonial Africans, Blacks from the Caribbean, and African Americans. After identifying mid-to-late

19th-century Latinizing codes, the study focuses on shifts in latinizing visuality between 1890-1933 in three case studies: the depictions of popular Cuban circus entertainer Chocolat; representations of Panamanian World Bantamweight Champion boxer Alfonso Teofilo Brown; and paintings of Black Uruguayans executed by Pedro Figari, a Uruguayan artist, during his residence in Paris between 1925-1933.

In *Our Rightful Share*, Aline Helg examines the issue of race in Cuban society, politics, and ideology during the island's transition from a Spanish colony to an independent state. She challenges Cuba's well-established myth of racial equality and shows that racism is deeply rooted in Cuban creole society. Helg argues that despite Cuba's abolition of slavery in 1886 and its winning of independence in 1902, Afro-Cubans remained marginalized in all aspects of society. After the wars for independence, in which they fought en masse, Afro-Cubans demanded change politically by forming the first national black party in the Western Hemisphere. This challenge met with strong opposition from the white Cuban elite, culminating in the massacre of thousands of Afro-Cubans in 1912. The event effectively ended Afro-Cubans' political organization along racial lines, and Helg stresses that although some cultural elements of African origin were integrated into official Cuban culture, true racial equality has remained elusive.

Los profundos dinamismos que intervienen en el mecanismo de nuestro deseo y subyacen al desarrollo de nuestra personalidad van siendo sistemáticamente revelados, reconocidos y analizados en este libro. Sigmund Freud fue pionero en la exploración de los continentes sumergidos de la mente donde yacen los restos de naufragios existenciales y los tesoros insospechados del alma humana. Los conceptos fundamentales que forman el tejido ideológico del Psicoanálisis, las ideas más controvertidas de las teorías de Freud, como las referentes a la Sexualidad, al Complejo de Edipo, a la Represión, al control de los Instintos, a la Libido, al Placer, al Super-Yo... se van revelando y clarificando en este libro de un modo comprensible, incluso

aplicables al propio conocimiento. Siguiendo el ejemplo del psicoanalista Oscar Pfister: Freud ha ideado un microscopio del alma, que permite observar y comprender las raíces de las funciones mentales, y su desarrollo y dinamismo.

Set against the cultural and political backdrop of interwar Europe and the Americas, *Poetry in Pieces* is the first major study of the Peruvian poet Cesar Vallejo (1892-1938) to appear in English in more than thirty years. Vallejo lived and wrote in two distinct settings---Peru and Paris---which were continually crisscrossed by new developments in aesthetics, politics, and practices of everyday life. Michelle Clayton combines close readings of Vallejo's writings with cultural, historical, and theoretical analysis, connecting Vallejo---and Latin American poetry---to the broader panorama of international modernism and the avant-garde, and

to writers and artists such as Rainer Maria Rilke, James Joyce, Georges Bataille, and Charlie Chaplin. Poetry in Pieces sheds new light on one of the key figures in twentieth-century Latin American literature, while exploring ways of rethinking the parameters of international lyric modernity.

"Laurent Dubois mines the history of French soccer for fascinating theories and riveting stories. His understanding of the relationship between the game and politics is subtle, leading readers deep into important discussions about race and national identity. For those of us who admired the poetics of Les Bleus this is essential reading."—Franklin Foer, author of *How Soccer Explains the World* "Laurent Dubois is historian, fan and graceful writer all in one. In soccer, he has found an innovative way to explore France and its empire. A serious book and an excellent read."—Simon Kuper, author of *Soccernomics* "Beautifully lyrical and authoritative. We meet a host of players, colonized and colonizer, following them from their original playing fields—a vast lawn, a concrete lot—to their triumphs in national and international play." —Alice Kaplan, author of *The Interpreter* "This book is a brilliant, beautifully written, and unique history of French colonialism and post-coloniality through the lens of football/soccer. Dubois weaves an eminently readable and engaging narrative that tracks tensions around race and national identity through the biographies of key football players and officials who became iconic of the aspirations of peripheral

subjects of the French empire. More than a simple history of French football, the book amounts to a description of France's imperial project and an incisive reflection on the race question in contemporary France. It will please both fans of the 'beautiful game' and those inclined to dismiss sports as but the opium of the masses."—Paul Silverstein, author of *Algeria in France: Transpolitics, Race and Nation*

Uruguay is not conventionally thought of as part of the African diaspora, yet during the period of Spanish colonial rule, thousands of enslaved Africans arrived in the country. Afro-Uruguayans played important roles in Uruguay's national life, creating the second-largest black press in Latin America, a racially defined political party, and numerous social and civic organizations. Afro-Uruguayans were also central participants in the creation of Uruguayan popular culture and the country's principal musical forms, tango and candombe. Candombe, a style of African-inflected music, is one of the defining features of the nation's culture, embraced equally by white and black citizens. In *Blackness in the White Nation*, George Reid Andrews offers a comprehensive history of Afro-Uruguayans from the colonial period to the present. Showing how social and political mobilization is intertwined with candombe, he traces the

development of Afro-Uruguayan racial discourse and argues that candombe's evolution as a central part of the nation's culture has not fundamentally helped the cause of racial equality.

Incorporating lively descriptions of his own experiences as a member of a candombe drumming and performance group, Andrews consistently connects the struggles of Afro-Uruguayans to the broader issues of race, culture, gender, and politics throughout Latin America and the African diaspora generally. *Written Culture in a Colonial Context* Univ of California Press

When African American intellectuals announced the birth of the "New Negro" around the turn of the twentieth century, they were attempting through a bold act of renaming to change the way blacks were depicted and perceived in America. By challenging stereotypes of the Old Negro, and declaring that the New Negro was capable of high achievement, black writers tried to revolutionize how whites viewed blacks--and how blacks viewed

themselves. Nothing less than a strategy to re-create the public face of "the race," the New Negro became a dominant figure of racial uplift between Reconstruction and World War II, as well as a central idea of the Harlem, or New Negro, Renaissance. Edited by Henry Louis Gates, Jr., and Gene Andrew Jarrett, *The New Negro* collects more than one hundred canonical and lesser-known essays published between 1892 and 1938 that examine the issues of race and representation in African American culture. These readings--by writers including W.E.B. Du Bois, Paul Laurence Dunbar, Alain Locke, Carl Van Vechten, Zora Neale Hurston, and Richard Wright--discuss the trope of the New Negro, and the milieu in which this figure existed, from almost every conceivable angle. Political essays are joined by essays on African American fiction, poetry, drama, music, painting, and sculpture. More than fascinating historical documents, these essays remain essential to the way African American identity and history are still understood today.
