Biohackers Createspace Independent
Publishing Platform

After the events of Outlaw, Robin of Locksley—and his sidekick and narrator, Alan Dale—finds himself in a very different England and a very changed world. In 1190 A.D. Richard the Lionheart, the new King of England, has launched his epic crusade to seize Jerusalem from the Saracens. Marching with the vast royal army is Britain's most famous, most feared, most ferocious

warrior: the Outlaw of Nottingham, the Earl of Locksley—Robin Hood himself. With his band of loyal men at his side, Robin cuts a bloody swath on the brutal journey east. Daring and dangerous, he can outwit and outlast any foe—but the battlefields of the Holy Land are the ultimate proving ground. And within Robin's camp lurks a traitor—a hidden enemy determined to assassinate England's most dangerous rogue. Richly imagined and furiously paced, featuring a cast of unforgettable characters, Holy Warrior is adventure, history and legend at its finest.

At Large Center Street

Masters of Doom is the amazing true story of the Lennon and McCartney of video games: John Carmack and John Romero. Together, they ruled big business. They transformed popular culture. And they provoked a national controversy. More than anything, they lived a unique and rollicking American Dream, escaping the broken homes of their youth to co-create the most notoriously successful game franchises in history—Doom and Quake—until the games they made tore them apart. Americans spend more money on video games than on movie tickets. Masters of Doom is the first book to chronicle this industry's greatest story, written by one of the medium's leading observers. David Kushner takes readers inside the rags-to-riches adventure of two

rebellious entrepreneurs who came of age to shape a generation. The vivid portrait reveals why their games are so violent and why their immersion in their brilliantly designed fantasy worlds offered them solace. And it shows how they channeled their fury and imagination into products that are a formative influence on our culture, from MTV to the Internet to Columbine. This is a story of friendship and betrayal, commerce and artistry—a powerful and compassionate account of what it's like to be young, driven, and wildly creative. “To my taste, the greatest American myth of cosmogenesis features the maladjusted, antisocial, genius teenage boy who, in the insular laboratory of his own bedroom, invents the universe from scratch. Masters of Doom is a

particularly inspired rendition. Dave Kushner chronicles the saga of video game virtuosos Carmack and Romero with terrific brio. This is a page-turning, mythopoeic cyber-soap opera about two glamorous geek geniuses—and it should be read while scarfing down pepperoni pizza and swilling Diet Coke, with Queens of the Stone Age cranked up all the way.”—Mark Leyner, author of *I*

Holy Warrior Simon & Schuster

"My name is Nyah and I'm a hacker. I know things most people would never believe. Things that shouldn't exist, but do."

Heaven Became Hell ... Hollywood Be Thy Name! Bloomsbury Publishing USA

Biohackers explores fundamental

changes occurring in the circulation and ownership of scientific information. Alessandro Delfanti argues that the combination of the ethos of 20th century science, the hacker movement and the free software movement is producing an open science culture which redefines the relationship between researchers, scientific institutions and commercial companies. *Biohackers* looks at the emergence of the citizen biology community "DIYbio", the shift to open access by the American biologist Craig Venter and the rebellion of the Italian virologist Ilaria Capua against WHO data-sharing policies. Delfanti argues that these biologists and many others are involved in a transformation of both life sciences and information systems, using open access tools and claiming

independence from both academic and corporate institutions.

Out Of Control Kensington Books

BEKA COOPER IS a rookie with the Provost's Guard, and she's been assigned to the Lower City. It's a tough beat, but Beka can hear the voices of the dead on the wings of pigeons, and Beka's birds clue her in to two major murderers on the loose. The rest of the Guard is busy investigating the fire opal killer, so it's up to Beka to nab the Shadow Snake. Tamora Pierce begins a new Tortall trilogy introducing Beka Cooper, a young woman who lived 200 years before Pierce's popular Alanna character. Pierce employs first-person narration, bringing readers even closer to a character that they will love for her unusual talents and tough personality.

Outlaw Macmillan

Back in print by popular demand--"A stunning revelation of the historical Macbeth, harsh and brutal and eloquent." --Washington Post Book World. With the same meticulous scholarship and narrative legerdemain she brought to her hugely popular *Lymond Chronicles*, our foremost historical novelist travels further into the past. In *King Hereafter*, Dorothy Dunnett's stage is the wild, half-pagan country of eleventh-century Scotland. Her hero is an ungainly young earl with a lowering brow and a taste for intrigue. He calls himself Thorfinn but his Christian name is Macbeth. Dunnett depicts Macbeth's transformation from an angry boy who refuses to accept his meager share of the Orkney Islands to a

suavely accomplished warrior who seizes an empire with the help of a wife as shrewd and valiant as himself. She creates characters who are at once wholly creatures of another time yet always recognizable--and she does so with such realism and immediacy that she once more elevates historical fiction into high art.

Levittown Worthy Books

"Thr3e" is a psychological thriller that starts full-tilt and keeps the reader off-balance until the very last suspense-filled page. W Publishing Group is launching this powerful novel in two distinct hardcover editions--a black cover version and a white cover version.

Long Lost Macmillan

This document is a collection of slang terms used by various subcultures of

computer hackers. Though some technical material is included for background and flavor, it is not a technical dictionary; what we describe here is the language hackers use among themselves for fun, social communication, and technical debate.

A Game of Thrones Vintage

New York Times bestselling author Ted Dekker brings an exotic tale of adventure and creates his most memorable character ever. The story of how I, Julian Carter, and my precious two-year old son, Stephen, left Atlanta Georgia and found ourselves on a white sailboat, tossed about like a cork on a raging sea off of Australia's northern tip in 1963, is harrowing. But it pales in comparison to what happened deep in the jungle where I was taken as a slave

by a savage tribe unknown to the world. Some places dwell in darkness so deep that even God seems to stay away. There, my mind was torn in two by the gods of the earth. There, one life ended so another could begin. Some will say I was a fool for making the choices I made. But they would have done the same. They, too, would have embraced death if they knew what I knew, and saw through my eyes. My name is Julian and this is my story. But more, it is the story of my son who was born to change the world. From deep in the impenetrable jungles where New York Times bestselling author Ted Dekker was born and raised, comes **OUTLAW**, an epic adventure of two worlds that perhaps only he could write. Full of harrowing twists, sweeping violence, and wild love,

Outlaw takes us beyond the skin of this world to another unseen.

Cinder HarperCollins

They call him BoneMan, a serial killer who's abducted six young women. He's the perfect father looking for the perfect daughter, and when his victims fail to meet his lofty expectations, he kills them by breaking their bones and leaving them to die. Intelligence officer Ryan Evans, on the other hand, has lost all hope of ever being the perfect father. His daughter and wife have written him out of their lives. Everything changes when BoneMan takes Ryan's estranged daughter, Bethany, as his seventh victim. Ryan goes after BoneMan on his own. But the FBI sees it differently. New evidence points to the suspicion that Ryan is BoneMan. Now the hunter is the

hunted, and in the end, only one father will stand.

A Brutal Justice Voice

The Greatest Western Writer Of The 21st Century William Johnstone is acclaimed for his American frontier chronicles. A national bestseller, the legendary storyteller, along with J.A. Johnstone, has written a powerful new novel set in Texas--one century after the Revolutionary War. . . Liberty--Or Die For It One hundred years ago, American patriots picked up rifles and fought against British tyranny. That was Boston. There the enemy was King George III and his British troops. Now, In Last Chance, Texas, in the Big Bend River country, it's Abraham Hacker, a ruthless cattle baron who will slaughter anyone who tries to lay claim to the fertile land and

everything on it. For Last Chance, freedom is under siege one violent act at a time. Until wounded Texas Ranger Hank Cannan arrives in town. Seeing the terrorized townfolk, Cannan is ready to start a second revolution. It's going to take a lot of guts. But one way or the other, Cannan is out to set Last Chance free--with bullets, blood, and a willingness to kill--or die--for the American right of freedom. . .

NOW THE ACCLAIMED HBO SERIES GAME

OF THRONES—THE MASTERPIECE THAT BECAME A CULTURAL PHENOMENON

Winter is coming. Such is the stern motto of House Stark, the northernmost of the fiefdoms that owe allegiance to King Robert Baratheon in far-off King's Landing. There Eddard Stark of Winterfell rules in Robert's name. There his family dwells in peace and comfort: his proud wife, Catelyn; his sons Robb, Brandon, and Rickon; his daughters Sansa and Arya; and his bastard son, Jon Snow. Far to the north, behind the towering Wall, lie savage Wildings and worse—unnatural things relegated to myth during the centuries-long summer, but proving all too real and all too deadly in the turning of the season. Yet a more immediate threat lurks to the south, where Jon Arryn, the Hand of the King,

has died under mysterious circumstances. Now Robert is riding north to Winterfell, bringing his queen, the lovely but cold Cersei, his son, the cruel, vainglorious Prince Joffrey, and the queen's brothers Jaime and Tyrion of the powerful and wealthy House Lannister—the first a swordsman without equal, the second a dwarf whose stunted stature belies a brilliant mind. All are heading for Winterfell and a fateful encounter that will change the course of kingdoms. Meanwhile, across the Narrow Sea, Prince Viserys, heir of the fallen House Targaryen, which once ruled all of Westeros, schemes to reclaim the throne with an army of barbarian Dothraki—whose loyalty he will purchase in the only coin left to him: his beautiful yet innocent sister, Daenerys.

And They Found Dragons: 3 Book Bundle MIT Press

Queen Levana is a ruler who uses her 'glamour' to gain power. but long before she crossed paths with Cinder, Scarlet, and Cress, Levana lived a very different story - a story that has never been told ... until now.

A Gentle Tyranny Random House

This story is based on 10 years of my life as a Hollywood musician and my secret life as a top shot-caller in the gritty Hollywood underworld. The four of us set out for Hollywood on September 1st, 1987, with dreams of becoming the next Motley Crue. We had the talent and the looks, and vowed to each other to avoid the lure of drugs. Unfortunately, Hollywood had other plans. When the record deal fell through and I was on my

last dime, I found myself being dragged into an underground world of corruption. Before long, I was working for organized crime, doing business deals with outlaw motor cycle gangs, staying one step ahead of the FBI, and losing touch with the world I had once known. My guitar cases were now filled with deadly weapons. Love, betrayal, Wicca, crystal meth, and a crippling blast from a sawed-off shot gun would all have roles in bringing me to my knees. Many of the people and events in the story have been the focus of local and national new programs, though I have changed most of the names. This book includes my adventures with dozens of celebrities, from famous musicians to Hollywood actors and known underworld figures. It goes into great depth explaining how

methamphetamine made the jump from the biker culture to the Hollywood nightlife and then via the Internet to the rest of the country.

Hacking Whiskey Pluto Press

Hacking Whiskey is the opposite of stuffy, preachy books on how to drink whiskey "the right way." Aaron Goldfarb, the writer behind the most googled article about infinity bottles, has gathered all the whiskey hacks to help readers turn average whiskey into a better-tasting spirit, and have fun while doing it.

King Hereafter Tor Teen

In Nedé--a safe haven for women--seventeen-year-old Reina draws strength from a forbidden friendship when torn between her formidable grandmother and her mother as she faces a decision

that could change their world.

No Logo Hachette UK

I hadn't planned on writing a book when I quit the Hells Angels. After forty years in the Hells Angels, George Christie was ready to retire. As president of the high-profile Ventura charter of the club, he had been the yin to Sonny Barger's yang. Barger was the reckless figurehead and de facto world leader of the Hells Angels. Christie was the negotiator, the spokesman, the thinker, the guy who smoothed things out. He was the one who carried the Olympic torch and counted movie stars, artists, rock musicians, and police chief captains among his friends. But leaving the Hells Angels isn't easy, and within two weeks of retirement, he was told he was "out bad"—blackballed by his fellow Angels,

prohibited from wearing the club patch, and even told he should remove his Death Head tattoo. Now Christie sets out to tell his story. *Exile on Front Street* is the tale of how a former Marine gave up a comfortable job with the Department of Defense and swore allegiance to the Hells Angels. In this revealing, hard-hitting memoir, he recounts his life as an outlaw biker with the world's most infamous motorcycle club.

Water Walker Macmillan + ORM

First in the newest series from Ted Dekker, master of suspense, whose books have sold 9 million copies. Humming with intensity, *Eyes Wide Open* is a raw adrenaline rush from first page to last.

The Shadowglass W. W. Norton & Company

In Cory Doctorow's wildly successful *Little Brother*, young Marcus Yallow was arbitrarily detained and brutalized by the government in the wake of a terrorist attack on San Francisco—an experience that led him to become a leader of the whole movement of technologically clued-in teenagers, fighting back against the tyrannical security state. A few years later, California's economy collapses, but Marcus's hacktivist past lands him a job as webmaster for a crusading politician who promises reform. Soon his former nemesis Masha emerges from the political underground to gift him with a thumbdrive containing a Wikileaks-style cable-dump of hard evidence of corporate and governmental perfidy. It's incendiary stuff—and if Masha goes missing, Marcus is supposed to release it

to the world. Then Marcus sees Masha being kidnapped by the same government agents who detained and tortured Marcus years earlier. Marcus can leak the archive Masha gave him—but he can't admit to being the leaker, because that will cost his employer the election. He's surrounded by friends who remember what he did a few years ago and regard him as a hacker hero. He can't even attend a demonstration without being dragged onstage and handed a mike. He's not at all sure that just dumping the archive

onto the Internet, before he's gone through its millions of words, is the right thing to do. Meanwhile, people are beginning to shadow him, people who look like they're used to inflicting pain until they get the answers they want. Fast-moving, passionate, and as current as next week, *Homeland* is every bit the equal of *Little Brother*—a paean to activism, to courage, to the drive to make the world a better place. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.
