The new emphasis in the Singapore mathematics education is on Big Ideas (Charles, 2005). This book contains more than 15 chapters from various experts on mathematics education that describe various aspects of Big Ideas from theory to practice. It contains chapters that discuss the historical development of mathematical concepts, specific mathematical concepts in relation to Big Ideas in mathematics, the spirit of Big Ideas in mathematics and its enactment in the mathematics classroom. This book presents a wide spectrum of issues related to Big Ideas in mathematics education. On the one end, we have topics that are mathematics content related, those that discuss the underlying principles of Big Ideas, and others that deepen the readers' knowledge in this area, and on the other hand there are practice oriented papers in preparing practitioners to have a clearer picture of classroom enactment related to an emphasis on Big Ideas.

From the Carnegie Medal 2020 winning author of Lark comes The Donut Diaries, a British Diary of a Wimpy Kid, featuring Dermot, an overweight eleven-year-old. Hilariously funny and insightful.

Dermot Milligan's got problems. He's overweight and hooked on donuts. He has a pushy, over-achieving mother, and a father who spends all his time hiding in the loo. His sisters, Ruby and Ella (known as Rubella) attack him relentlessly from the opposite directions of Chav and Goth. And now, he's being sent to a nutritionist, Doctor Morlock, who looks like a Dementor from Harry Potter and the Deathly Hallows. This diary is Doc Morlock's idea. Not only does Dermot have to write down how many donuts he eats, but also - and this is the really rubbish part - he has to talk about HIS FEELINGS! But things are about to get even worse - he's being separated from his friends and sent to St Michael's, a posh school where he just knows he's going to stick out like a sore thumb. A sore thumb with a weight problem . . .
