Reveals the course of archaeological adventures and insights that resulted in The Earth Chronicles series • Explores links between the Old world and the New in search of evidence of extraterrestrial gods in the artifacts and murals of ancient civilizations • Reveals archaeological cover-ups concerning Olmec origins in Mexico and ancient UFO artifacts in Turkey In this autobiographical book, the internationally acclaimed author Zecharia Sitchin reveals the foundational research and the adventurous expeditions that resulted in his writing the bestselling The Earth Chronicles series. Ranging from Mayan temples in Mexico to hidden artifacts in Istanbul, Turkey, from

biblical tunnels in Jerusalem to the mysteries of Mt. Sinai, from the abode of a Sumerian goddess to Greek islands, the Expeditions' destinations and amazing discoveries unmasked established fallacies, detected the fate of mysterious artifacts, and revealed ancient connections to modern space facilities. For the first time, Sitchin shares with the reader not only his encompassing knowledge of antiquity and his field experiences, but also the concrete evidence for his conclusions that ancient myths were recollections of factual events, that the gods of ancient peoples were visitors to Earth from another planet, and that we are not alone in our own solar system. Accompanied by photographs from his personal archive, here is Sitchin's own story and his inner feelings about the cord that binds him to his ancestral past.

What's the nature of reality? Does the universe ever end? What is time and does it even exist? These are the biggest imagination-stretching, brain-staggering questions in the universe - and here are their fascinating answers. From quantum weirdness to freaky cosmology (like white holes - which spew out matter instead of sucking it in), *This Book Will Blow Your Mind* takes you on an epic journey to the furthest extremes of science, to the things you never thought possible. This book will explain: Why is part of the universe missing (and how scientists finally found it) How time might also flow backwards How human head transplants might be possible (in the very near future) Whether the universe is a hologram And why we are all zombies Filled with counterintuitive stories and factoids you can't wait to share, as well as lots of did-you-knows and plenty of how-did-we-ever-not-knows, this new book from the bestselling *New Scientist* series will blow your mind - and then put it back together again. You don't need a spaceship to travel to the extremes of science. You just need this book.

Returning Nature to Our Farm Simon and Schuster

The 12th Planet Twelfth Planet Book I of the Earth Chronicles Harper
Human Origin Red Wheel/Weiser

Over the years, startling evidence has been uncovered, challenging established notions of the origins of life on

Earth—evidence that suggests the existence of an advanced group of extraterrestrials who once inhabited our world. The first book of the revolutionary Earth Chronicles series offers indisputable documentary evidence of the existence of the mysterious planet Nibiru and tells why its astronauts came to Earth eons ago to fashion mankind in their image. The product of more than thirty years of meticulous research, *The 12th Planet* treats as fact, not myth, the tales of Creation, the Deluge, the Tower of Babel, and the Nefilim who married the daughters of man. By weaving together the biblical narrative with Sumerian and Babylonian clay-tablet texts, it challenges the established notions of the origins of Earth and mankind, and offers a compelling alternative history and prehistory of both.

Discovering the Mysteries of Ancient America Twelfth Planet Press

The origin of life, particularly human life, is one of today's most intensely debated subjects. Ironically, that debate has only two socially acceptable sides: Darwinism and Creationism. Darwinists support the detailed observations and speculations of a brilliant naturalist, while Creationists support the various interpreters of the Bible's scriptural teachings. Despite the passion and intellect exhibited by both sides as they defend their positions, millions of people remain unconvinced by the arguments of either. For those individuals, it is time to present a viable, comprehensive, third option, Rationalism, which is the formation of ideas and opinions based on evidence and reasoning rather than on secular authority or divine revelation. *Everything You Know Is Wrong* stakes out a solid, defensible, entirely new position in the debate about life origins and human origins. That position is bolstered by

an astonishing array of scientific facts either unmentioned or conspicuously ignored by the two currently entrenched camps. By utilizing such a fact-based format, this book's presentation of Rationalism offers a far more convincing explanation for the origins of life, and particularly of human life, than Darwinism or Creationism ever have....or ever will.

An asteroid transformed Mars from a lush planet with rivers and oceans into a bleak and icy hell. Is Earth condemned to the same fate, or can we protect ourselves and our planet from extinction? In his most riveting and revealing book yet, Graham Hancock examines the evidence that the barren Red Planet was once home to a lush environment of flowing rivers, lakes, and oceans. Could Mars have sustained life and civilization? Megaliths found on the parched shores of Cydonia, a former Martian ocean, mirror the geometrical conventions of the pyramids at Egypt's Giza necropolis. Especially startling is a Sphinx-like structure depicting a face with distinguishable diadem, teeth, mouth and an Egyptian-style headdress. Might there be a connection between the structures of Egypt and those of Mars? Why does NASA continue to dismiss these remarkable anomalies as "a trick of light"? Hancock points to the intriguing possibility that ancient Martian civilization is communicating with us through the remarkable structures it left behind. In exploring the possible traces left by the Martian civilization and the cosmic cataclysm that may have ended it, *The Mars Mystery* is both an illumination of our ancient past and a warning--that we still have time to heed--about our ultimate fate.

This Book Will Blow Your Mind Simon and Schuster

There is not much in mythology that has drawn so much interest than the lost continent of Atlantis. In this book the author, W. Scott-Elliot, tries to provide a geographical, historical and ethnological sketch of all that was and might have been. He even includes essays on the Lemurian race, their language and life. This is a treasure chest for anybody interested in Atlantis.

The Wars of Gods and Men Writers Club Press

Explains the links between the Bible and ancient Sumerian texts, probing the age-old question of the relationship between humanity and its creators. • Challenges scientific maxims of the basis of human life. • Draws fascinating parallels between the leaders of the Anunnaki (from the 12th planet) and Yahweh. • A comprehensive new look at the history of man. • First time available in hardcover. In *Divine Encounters* Zecharia Sitchin draws on basic Judeo-Christian texts to analyze the creation myths, paralleling Biblical stories to the myths of Sumer and Mesopotamia in order to show that humanity did not evolve without assistance. Sitchin daringly hypothesizes instead that Enki, one of the leaders of the Anunnaki from the 12th planet, created humanity as a "primitive worker." Furthermore, Sitchin suggests that the extraterrestrial encounters of today demonstrate the continued interest of the Anunnaki in the Earthlings they created.

Lost History and Legends, Unearthed and Explored Simon and Schuster

An insider's look into the decades of research behind Zecharia Sitchin's books as well as an in-depth overview of his theories and discoveries • Includes carefully selected chapters from the Earth Chronicles series as well as never-before-published letters, articles, and lectures • Each piece includes an introduction, offering context and insight into Sitchin's passionate work and revealing the man behind the theories • Explains the genesis of The 12th Planet, the Anunnaki influences on the Sumerian civilization, the orbit of Nibiru, the prehistory of the Americas, the extraterrestrial origins of modern man, and much more What if the tales from the Old Testament and other ancient writings, such as those from Sumer, Babylon, Egypt, and Greece, were not myths or allegory but accounts of actual historical events? Known for his ability to read and interpret ancient Sumerian and Akkadian clay tablets, Zecharia Sitchin (1920-2010) took the words of our most ancient ancestors as fact and, through decades of meticulous research, showed that they revealed a coherent narrative about the true origins of humanity and civilization. Drawing both widespread interest and criticism, his Earth Chronicles series of books, beginning with The 12th Planet, detailed how humanity arose after the arrival of the Anunnaki ("those who from Heaven to Earth came"), alien "gods" who created modern man in their own image and imparted gifts of civilizing knowledge. Providing an insider's look into the decades of research behind Zecharia Sitchin's complete works as well as an in-depth overview of his theories, this collection includes carefully selected chapters from the Earth Chronicles series as well as never-before-published letters, articles, and lectures. We learn about the genesis of The 12th Planet in "The Book as a

Story," the Sumerians and their Anunnaki influences in "The Sudden Civilization," the orbit of Nibiru in "UFOs, Pyramids, and the 12th Planet," the prehistory of the Americas in "Cities Lost and Found," the extraterrestrial origins of modern man in "The Cosmic Connection--DNA," and much more. We get to read never-before-published lectures, culled from Sitchin's decades of presentations, as well as the article that spurred the writing of There Were Giants Upon the Earth. Each piece includes an introduction by Sitchin's niece, offering context and insight into Sitchin's passionate work. These introductions reveal the man behind the theories, a world traveler known for his scholarship, dry humor, and precisely chosen words. If his theories are true, as Sitchin wholeheartedly believed, then this collection presents some of the most important knowledge we have of our origins and future.

The 12th Planet Harper

Over the years, startling evidence has been unearthed, challenging established notions of the origins of Earth and life on it, and suggesting the existence of a superior race of beings who once inhabited our world. The product of thirty years of intensive research, The 12th Planet is the first book in Zecharia Sitchin's prophetic Earth Chronicles series--a revolutionary body of work that offers indisputable documentary proof of humanity's extraterrestrial forefathers. Travelers from the stars, they arrived eons ago, and planted the genetic seed that would ultimately blossom into a remarkable species...called Man. The 12th Planet brings to life the Sumerian civilization, presenting millennia-old evidence of the existence of Nibiru, the home planet of the Anunnaki, and of the landings of the Anunnaki on Earth every

3,600 years, and reveals a complete history of the solar system as told by these early visitors from another planet. Zecharia Sitchin's Earth Chronicles series, with millions of copies sold worldwide, deal with the history and prehistory of Earth and humankind. Each book in the series is based upon information written on clay tablets by the ancient civilizations of the Near East. The series is offered here, for the first time, in highly readable, hardbound collector's editions with enhanced maps and diagrams.

The Lost Book of Enki Rowman & Littlefield

Night and day, month after month, year after year, our ancestors dutifully recorded the passage of time on clay tablets, watching the heavens from stage towers and pyramids and from megalithic monuments whose incredible size and precise architecture boggle the mind. . . . Who were the builders of these mysterious structures? What was their purpose? Whose signature is indelibly written on these timeless stones, and who was the Divine Architect? Why was Stonehenge and its likes built by ancient civilizations at the very same time--4,100 years ago? What is their message for our time? With these questions in mind, Zecharia Sitchin, renowned researcher of past ages, takes us on a journey through the records of time in this, the fifth book of his Earth Chronicles series. Drawing deeply on Sumerian and Egyptian writings, millenia-old artifacts, and sacred architecture ranging from ancient Mesopotamia to pre-Columbian civilizations in the Americas, this bestselling scholar provides astounding insights into the origins of the calendar, astronomy, and astrology. He takes readers to the climax circa 2100 b.c. when Marduk, the Babylonian national god, attained supremacy on

Earth and proclaimed the New Age of Aries--after which society, religion, science, and the status of women were never the same.

The Incredible Sciences of the Ancients Simon and Schuster
An in-depth analysis of Sitchin's revelations about the Anunnaki, early humanity, and Earth's future • Examines Sitchin's research into the Anunnaki arrival on Earth, the lineage of the Nefilim, their space travel technology, and their creation of modern humans • Written by longtime Sitchin friend and colleague M. J. Evans, Ph.D., and draws upon her research and personal discussions with Sitchin • Explores the lust and lovemaking relationships of the Nefilim and suggests we inherited our warlike and love making tendencies from them Known for his provocative interpretations of ancient Sumerian and Akkadian clay tablets, Zecharia Sitchin (1920-2010) read the words of our most ancient ancestors as fact and, through decades of meticulous research, showed that these ancient tablets revealed a coherent narrative about the extraterrestrial inhabitants of Earth and the origins of modern humanity. Drawing upon her many conversations with Zecharia Sitchin over nearly 20 years, M. J. Evans, Ph.D., longtime Sitchin friend and colleague, provides an in-depth analysis of Sitchin's revelations about the Anunnaki, focusing on Anunnaki activities on Earth and Earth's future. She explores the genesis of Sitchin's interest in the Nefilim, the leaders of the Anunnaki, and the controversy caused by the publication of Sitchin's first book, *The 12th Planet*. She examines Sitchin's research into the Nefilim family tree, the Anunnaki arrival on Earth to mine gold to repair the atmosphere on their planet, Nibiru, and their creation of modern humans as workers for their mines and to build their civilization on Earth. She shows how, in the context of 21st-

century technological capabilities, Sitchin's work casts a different light on ancient events, with implications for our future. The author reveals the details of the love and lust proclivities of the Nefilim gods Anu, Enlil, and Enki and the goddess Ishtar/Inanna and shows how we inherited these tendencies from our Anunnaki creators as well as their use of war for problem solving. Concluding with an examination of Sitchin's prediction of a nuclear event on Earth in 2024 AD, she shows how we would be repeating the aggressive warlike behaviors of our Anunnaki creators, who may very well become our saviors when Nibiru next returns to our solar system.

The King Who Refused to Die John Wiley & Sons

An inspiring story about what happens when 3,500 acres of land, farmed for centuries, is left to return to the wild, and about the wilder, richer future a natural landscape can bring. For years Charlie Burrell and his wife, Isabella Tree, farmed Knepp Castle Estate and struggled to turn a profit. By 2000, with the farm facing bankruptcy, they decided to try something radical. They would restore Knepp's 3,500 acres to the wild. Using herds of free-roaming animals to mimic the actions of the megafauna of the past, they hoped to bring nature back to their depleted land. But what would the neighbors say, in the manicured countryside of modern England where a blade of grass out of place is considered an affront? In the face of considerable opposition the couple persisted with their experiment and soon witnessed an extraordinary change. New life flooded into Knepp, now a breeding hotspot for rare and threatened species like turtle doves, peregrine falcons, and purple emperor butterflies. The fabled English nightingale sings again. At a time of looming

environmental disaster, Wilding is an inspiring story of a farm, a couple, and a community transformed. Isabella Tree's wonderful book brings together science, natural history, a fair bit of drama, and—ultimately—hope.

When Time Began New York Review of Books

Since earliest times, human beings have pondered the incomprehensible questions of the universe, life . . . and the afterlife. Where did mortal man go to join the immortal Gods? Was the immense and complex structure at Giza an Egyptian Pharaoh's portal to immortality? Or a pulsating beacon built by extraterrestrials for landing on Earth? In this second volume of his trailblazing series *The Earth Chronicles*, Zecharia Sitchin unveils secrets of the pyramids and hidden clues from ancient times to reveal a grand forgery on which established Egyptology is founded, and takes the reader to the Spaceport and Landing Place of the Anunnaki gods—"Those Who from Heaven to Earth Came."

The War of the Worlds Red Wheel/Weiser

Since earliest times, humanity has pondered the incomprehensible mysteries of the universe, life...and the afterlife. In *The Stairway to Heaven*, the second book of Zecharia Sitchin's *Earth Chronicles* series, the author answers these fundamental questions: Was there somewhere on Earth where, after death, mortal man could join the immortal Gods? Where was this place? By whom was it established? And does it still exist today? After years of painstaking research--combining recent archaeological discoveries with ancient texts and artifacts--Sitchin has identified the legendary Land of the Gods, and provided astounding new revelations about the Great Pyramids,

the Sphinx, and other mysterious monuments whose true meanings and purposes have been lost for eons. The Earth Chronicles deal with the history and prehistory of Earth and humankind. Each book in the series is based upon information written on clay tablets by the ancient civilizations of the Near East. For the first time, the entire Earth Chronicles series is now available in a hardcover collector's edition.

The 12th Planet Harper Collins

Why is it that our current twenty-first century A.D. is so similar to the twenty-first century B.C.? Is history destined to repeat itself? Will biblical prophecies come true, and if so, when? It has been more than three decades since Zecharia Sitchin's trailblazing book *The 12th Planet* brought to life the Sumerian civilization and its record of the Anunnaki—the extraterrestrials who fashioned man and gave mankind civilization and religion. In this new volume, Sitchin shows that the End is anchored in the events of the Beginning, and once you learn of this Beginning, it is possible to foretell the Future. In *The End of Days*, a masterwork that required thirty years of additional research, Sitchin presents compelling new evidence that the Past is the

Future—that mankind and its planet Earth are subject to a predetermined cyclical Celestial Time. In an age when religious fanaticism and a clash of civilizations raise the specter of a nuclear Armageddon, Zecharia Sitchin shatters perceptions and uses history to reveal what is to come at The End of Days.
