Real examples. Real companies. Real business decisions. Covering the core economics principles and providing

engaging, relevant examples within just nineteen Chapters, Hubbard Essentials of Economics is the perfect teaching and learning resource for a one semester unit. The authors present economics as a dynamic, relevant discipline for Australasian students. The key questions students of first year economics ask themselves are: ‘Why am I here?’ and ‘Will I ever use this?’ Hubbard Essentials of Economics answers these questions by demonstrating that real businesses use economics to make real decisions every day. Each chapter of the text opens with a case study featuring a real business or real business situation, refers to the study throughout the Chapter, and concludes with An Inside Look—a news article format which illustrates how a key principle covered in the Chapter relates to real business situations or was used by a real company to make a real business decision.

2 Manifold are the cares of wealth and
state. Mr Dorrit's satisfaction in
remembering that it had not been

necessary for him to announce himself to Clennam and Co., or to make an allusion to his having had any knowledge of the intrusive person of that name, had been damped over-night, while it was still fresh, by a debate that arose within him whether or no he should take the Marshalsea in his way back, and look at the old gate. He had decided not to do so; and had astonished the coachman by being very fierce with him for proposing to go over London Bridge and recross the river by Waterloo Bridge—a course which would have taken him almost within sight of his old quarters. Still, for all that, the question had raised a conflict in his breast; and, for some odd reason or no reason, he was vaguely dissatisfied. Even at the Merdle dinner-table next day, he was so out of sorts about it that he continued at intervals to turn it over and over, in a manner frightfully inconsistent with the good society surrounding him. It made him hot to think what the Chief Butler's opinion of him would have been, if that illustrious personage could have plumbed with that heavy eye of his the stream of his meditations.

students through various types of public
relations writing. A focus on ethical and
legal issues is woven throughout, with
