Adroit's Maryam Mirhadi, Ph.D., PMP's Article is Now Among ... AACE International S Professional Practice The AACE International Recommended Practices (RPs) are intended to be the main technical foundation of our educational, and certification products and services. The RPs are a series of documents that contain valuable reference information that has been subject to a rigorous review process and recommended for use by the Technical Board. Recommended Practices - AACE International AACE International will enhance your skills and knowledge to improve the predictability of cost and schedule performance across the entire life cycle of your assets, programs, and projects. We provide technical guidance, educational products, events and eight professional certifications to address the diverse needs of our members and customers. AACE International - Certification AACE International professional guidance documents (PGDs) provide roadmaps to improve use and understanding for collections of related recommended practices. They provide

clarification on their purpose, function, context, and inter-relationships. Note: These are living documents and subject to change frequently as new RPs become available. Professional Guidance Documents - AACE International The AACE International Professional Practice Guides (PPGs) are references containing the most worthwhile existing contributions to the cost engineering field and the advancement of total cost management. Publications - Professional Practice Guides | AACE Get this from a library! AACE International's professional practice guide to contracts and claims. [James G Zack; AACE International.;] -- Contains papers and articles that discuss working in contract administration within the context of construction claims and claims avoidance.
