Marketing Management, Global Edition South-Western Pub

Principles is a story inspired by the life Michael Rashad Davis, a southern drug dealer and businessman. He takes us on an eventful journey into his life that leads up to him meeting a Jamaican gangster that wants to get rid of him by any means necessary and take control of his organization. His new enemy will soon find out that it's not going to be as easy as he thinks. As the men trade messages of intimidation, the brutal murder plots thicken every step of the way. This story is filled with twists and turns that will keep you on edge wanting more and more while trying to fathom the circumstances. By the end of the journey, there can only be one man standing because in war there's no substitute for victory.

This user-friendly textbook offers students an overview of each aspect of the marketing process, explored uniquely from the value perspective. Delivering value to customers is an integral part of contemporary marketing. For a firm to deliver value, it must consider its total market offering - including the reputation of the organization, staff representation, product benefits, and

technological characteristics - and benchmark this against competitors' market offerings and prices. Principles of Marketing takes this thoroughly into account and ensures that students develop a strong understanding of these essential values. The book also looks in detail at the impact of social media upon marketing practices and customer relationships, and the dramatic impact that new technologies have had on the marketing environment. Written by a team of experienced instructors, Principles of Marketing is an ideal companion for all undergraduate students taking an introductory course in marketing.
