examples in down to earth language provide a supplement to an Evidence class that will remove any confusion as to how the Rules should be interpreted. Based on decades of trying cases and classroom teaching, Prof. Avery is familiar with the most common mistakes lawyers and students make in applying the Rules and has designed these materials to highlight typical errors and correct them. Each multiple-choice question has tempting, but incorrect, answer choices, and then an explanation in simple and direct language that clarifies the rule. The student who works through these questions will be well prepared for Evidence exams and courtroom challenges. New to the

Third Edition: Fifteen new multiple-choice questions have been added since the Second Edition. All amendments to the Rules since the Second Edition have been taken into account, and the Rules are current as of the summer of 2022. Professors and students will benefit from: Realistic questions, many drawn from the author's own courtroom experience Classroom tested examples that have been refined over the years

Wolters Kluwer Law & Business
Defining Federal Crimes, Second Edition (available for free to students in e-book format) frames federal criminal law as a distinctive world created and shaped by

the interplay between the three branches of the federal government. It provides an overview of basic doctrine while inviting students to explore the many difficult and unsettled questions that continue to perplex judges, prosecutors, defense attorneys, and policymakers. Particularly since students' basic Criminal Law courses draw on penal laws from any number of jurisdictions, this book will be their first exposure to an actual criminal law system, in which each law-shaping institution can react to the moves of the others. New to the Second Edition: Reorganization of the domestic Commerce Clause section and exploration of the

Supreme Court's aborted engagement with the Treaty Power in *Bond v. U.S.* (Ch.2) Inclusion of the Court's deployment of the "rule of lenity" in *Yates v. U.S.* and reorganization of the mens rea section, including *Elonis v. U.S.* (Ch.3) Revisions to highlight the growing tension between the cases precluding mail fraud liability for deceit that "merely" causes the victim to enter into a transaction and those permitting liability an intangible property "right to control" theory (Ch.4) Considerable revision to the "under color of official right" extortion sections to accommodate *McDonnell v. U.S.*; a new case (*Ocasio v. U.S.*) exploring the interaction between

"under color of official right" complicity and victim status in "fear of economic loss" extortion; a new case (U.S. v. Baroni--the "Bridgegate Case") offering an interesting use of the "misapplication" prong of section 18 U.S.C. 666 (Ch.6) New cases emerging from the Matthew Shepard and James Byrd, Jr., Hate Crimes Prevention Act of 2009, including U.S. v. Miller (Ch.7) New case (Rosemond v. U.S.) in Aiding and Abetting discussion; a new section on Accessory after the Fact and Misprison of Felony liability, including U.S. v. Olson; substantial revision of Material Support of Terrorism section (Ch.8) Substantial updates to Ch.9, including coverage of

the opioid crisis and enforcement responses to it; exploration of the Court's analysis of *McFadden v. U.S.*; discussion of Congress's use of its appropriations power to limit the federal prosecution of medicinal marijuana cases, including *U.S. v. Kleinman*; a new case (*U.S. v. Campbell*) about the Maritime Drug Law Enforcement Act; a new section on prior felony informations and their use for plea bargaining leverage, including *U.S. v. Kupa*; new discussion of the charging policies of the Attorneys General and of disparate judicial analyses of narcotics mandatory minimums Extended discussions of corporate liability to include recent judicial efforts to oversee

deferred prosecution agreements (Ch.11)
 Reorganization of Ch.12, with more attention given to the clash between Chevron deference and the rule of lenity Professors and students will benefit from: Comprehensive overview of the many federal criminal offenses prosecutors use to charge political corruption and explores difficult questions associated with criminalizing aspects of the political process Framing of apparently diverse offenses like money laundering, RICO, and material support of terrorism as the complicity-broadening devices that make them intellectually interesting and practically potent Use of "Notes and Questions" to situate

major cases in their proper political and historical contexts, tie together topics from different parts of the book that touch on similar themes, and explore lingering doctrinal ambiguities

This book examines how historical narratives of mass atrocities are constructed and contested within international criminal courts. In particular, it looks into the important question of what tends to be foregrounded, and what tends to be excluded, in these narratives.

Criminal Procedures: Cases, Statutes, and Executive Materials is known for its focus on materials from multiple institutions, including primary materials from U.S. Supreme Court cases, state high court cases, state and federal statutes, rules of procedure, and police and prosecutorial policies, along with materials from social science studies. Taken together, the principal materials highlight procedural variety, focus on real-world topics, provide the political context, offer a comparative analysis of different legal

approaches, and consider the impact of procedures. The 2021 Supplement covers the most recent decisions of the U.S. Supreme Court as well as newsworthy developments such as policing and bail reform, emerging legal responses to new surveillance technologies, and the declination policies of newly-elected prosecutors. New to the 2021 Edition: Two new authors joined the editorial team in 2019: Jenia Iontcheva Turner of SMU Dedman School of Law and Kay L. Levine of Emory University School of Law. With her doctoral training in Socio-Legal Studies and her balanced experience as a prosecutor and a defense attorney in state court, Professor

Levine sharpens the focus of the book on the real-world operation of courtroom actors in high-volume state systems. With her background in international criminal tribunals and comparative criminal procedure, Professor Turner strengthens the comparisons between court systems in the U.S. and those around the world. The 2021 Supplement incorporates all of the Criminal Procedure rulings of the U.S. Supreme Court from its October 2019 Term and its October 2020 term, whether through reprinting opinions as principal materials or through summary coverage in new notes and practice problems. The Supplement includes opinions from high state courts that

add texture to the doctrines described in the main volume. The Supplement also spotlights new legislative and enforcement trends, including proposals for limiting police use of force, “defunding” or reforming police departments, emerging legal responses to new surveillance technologies, bail reform, and the declination policies that prosecutors publish and apply.
