Amazing discoveries about ancient knowledge bring a fresh view of human history and our place in the universe. Thousands of years ago, the Druids already measured the exact dimensions and rotations of our Earth, Sun and Moon, and how they rotate. Stonehenge and the Pyramids are based on a precise, prehistoric, 366-degree time and space geometry.

An Exploration of Imhotep—Architect of the Step Pyramid at Saqqara, High Priest of Ra, and Royal Astronomer—as Well as His Influence as the True Father of African Civilization. In this groundbreaking book, Egyptologist Robert Bauval and astrophysicist Thomas Brophy uncover the mystery of Imhotep, an ancient Egyptian superstar, pharaonic Da Vinci, Michelangelo, Galileo, and Newton all rolled into one. Based on their research at the Step Pyramid Complex at Saqqara, Bauval and Brophy delve into observational astronomy to "decode" the alignments and other design features of the Step Pyramid Complex, to uncover the true origins and genius of Imhotep. Like a whodunit detective story they follow the clues that take them on an exhilarating magical mystery tour starting at Saqqara, leading them to temples in Upper Egypt and to the stones of Nabta Playa and the black African stargazers who placed them there. Imhotep the African describes how Imhotep was the ancient link to the birth of modern civilization, restoring him to his proper place at the center of the birthing of Egyptian, and world, civilization.

The Egyptologist acclaimed for re-dating the Great Sphinx at Giza sets his sights on one of the true mysteries of antiquity: the Great Pyramid of Giza. What is the Great Pyramid of Giza? Ask that basic question of a traditional Egyptologist, and you get the basic, traditional answer: a fancy tombstone for a self-important pharaoh of the Old Kingdom. This, Egyptologists argue, is the sole finding based on the data, and the only deduction supported by science. By implication, anyone who dissents from this point of view is unscientific and woolly-minded—a believer in magic and ghosts. Indeed, some of the unconventional ideas about the Great Pyramid do have a spectacularly fabulous ring to them. Yet from beneath the obvious terms of this controversy, a deeper, more significant question arises: how is it that the Great Pyramid exercises such a gripping hold on the human psyche—adding cryptic grace to the back of the one-dollar bill and framing myriad claims of New Age "pyramid power"? In *Pyramid Quest*, Robert M. Schoch and Robert Aquinas McNally use the rigorous intellectual analysis of scientific inquiry to investigate what we know about the Great Pyramid, and develop a stunning hypothesis: This ancient monument is the strongest proof yet that civilization began thousands of years earlier than is generally thought, extending far back into a little-known time. In tracing that story, we come to understand not only the Great Pyramid but also our own origins as civilized beings.

A decade ago, French architect Jean-Pierre Houdin became obsessed by the centuries-old question: How was the Great Pyramid built? How, in a nation of farmers only recently emerged from the Stone Age, could such a massive, complex, and enduring structure have been envisioned and constructed? Laboring at his computer ten hours a day for five years—creating exquisitely detailed 3-D models of the Pyramid's interior—Houdin finally had his answer. It was a startling revelation that cast a fresh light on the minds that conceived one of the wonders of the ancient world. Written by world-renowned Egyptologist Bob Brier in collaboration with Houdin, *The Secret of the Great Pyramid* moves deftly between the ancient and the modern, chronicling two equally fascinating interrelated histories. It is a remarkable account of the step-by-step planning and assembling of the magnificent edifice—the brainchild of an innovative genius, the Egyptian architect Hemienu, who imagined, organized, and oversaw a monumental construction project that took more than two decades to complete and that employed the services of hundreds of architects, mathematicians, boatbuilders, stonemasons, and metallurgists. Here also is the riveting story of Jean-Pierre Houdin's single-minded search for solutions to the mysteries that have bedeviled Egyptologists for centuries, such as the purpose of the enigmatic Grand Gallery and the Pyramid's crack.

The Forgotten Origins of the Sanctuary of Anubis Simon and Schuster

Did a highly advanced civilization exist in prehistory? Is the Giza Pyramid a remnant of their technology? Then, what was the power source that fueled such a civilization? The technology of harmonic resonance, claims renowned master craftsman and engineer Christopher Dunn. In a brilliant piece of reverse engineering based on twenty years of research, Dunn reveals that the Great Pyramid of Giza was actually a large acoustical device! By its size and dimensions, this crystal edifice created a harmonic resonance with the Earth and converted Earth's vibrational energies to microwave radiation. The author shows how the pyramid's numerous chambers and passageways were positioned with the deliberate precision to maximize its acoustical qualities. This may be the same technology discovered by Nikola Tesla and the solution to our own clean energy needs.

behind the Gantenbrink door mean? What is the real purpose of the Relief Chambers and the red ochre "graffiti" in them? Who is behind the secretly tunneling and excavating in these chambers, and why? Is there really a hidden Hall of Records from Atlantis beneath the Great Sphinx? Is the Great Pyramid just a tomb or does it serve a higher purpose involving a lost science of immortality? Why do the ancient texts ascribe the Pyramid's design to the supreme god of wisdom Thoth, the writer of the fabled Books of Hermes? Will the Great Pyramid prove to be the "missing link" to our true origins or a "metaphysical machine" to access the world beyond? Providing a firsthand account of the strange events that have taken place at the Giza plateau in the last three decades, Bauval reveals the hidden agendas behind these events and raises important questions about the meaning of Egypt's ancient structures and the very origins of civilization.

Secrets of the Stone of Destiny Tree of Life Books

A bestselling modern classic—both poignant and funny—narrated by a fifteen year old autistic savant obsessed with Sherlock Holmes, this dazzling novel weaves together an old-fashioned mystery, a contemporary coming-of-age story, and a fascinating excursion into a mind incapable of processing emotions. Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. Although gifted with a superbly logical brain, Christopher is autistic. Everyday interactions and admonishments have little meaning for him. At fifteen, Christopher's carefully constructed world falls apart when he finds his neighbour's dog Wellington impaled on a garden fork, and he is initially blamed for the killing. Christopher decides that he will track down the real killer, and turns to his favourite fictional character, the impeccably logical Sherlock Holmes, for inspiration. But the investigation leads him down some unexpected paths and ultimately brings him face to face with the dissolution of his parents' marriage. As Christopher tries to deal with the crisis within his own family, the narrative draws readers into the workings of Christopher's mind. And herein lies the key to the brilliance of Mark Haddon's choice of narrator: The most wrenching of emotional moments are chronicled by a boy who cannot fathom emotions. The effect is dazzling, making for one of the freshest debut in years: a comedy, a tearjerker, a mystery story, a novel of exceptional literary merit that is great fun to read.

Restoring the Spiritual Engine of the World Simon and Schuster

The Master Game is a rollercoaster intellectual journey through the back streets and rat runs of history to uncover the traces in architecture and monuments of a secret religion that has shaped the world. Pivotal historical events and processes, not least the Renaissance, the birth of scientific rationalism, and the French and American revolutions, are radically reevaluated in the light of new investigative evidence presented in *The Master Game*. Even the belief that the United States has a "global mission," so obvious today, may ultimately prove to be less the result of a shortterm reaction to terrorism than the inevitable working out of a covert plan originally set in motion almost two thousand years ago. The Master Game refers to a scheme or "game" played on the world stage to bring about a world order governed by a lofty goal which, today, we term the "Masonic Ideal." The Master Game traces the origins of this game of symbols and words and talismans from ancient Egypt all the way to modern times, and places it squarely on the elitist Scottish Rite Freemasonry, headquartered in Washington, DC, and ruled by a secretive and powerful brotherhood of men who have attained the thirtythird degree. The Master Game exposes this world order's true purpose and, more importantly, shows how it has affected the United States of America and badly backfired on 9/11. The book is adapted and expanded from the authors' earlier, outofprint book *Talisman*.

The Cygnus Constellation holds the key to proving that life originated in the heavens—and will ultimately return there. Best-selling author Andrew Collins has uncovered an astronomy that is about 17,000 years old, with standing stones, temples, and monuments across the globe oriented towards Cygnus's stars. He also found that the use of deep caves by Palaeolithic man led to the rise of religious thought and the belief in life's stellar origins. Now modern-day technology has confirmed that high-energy particles come from a binary star known as Cygnus X3. Ancient people knew what science is finally verifying: that the DNA of life

came originally from deep space.

Mirrors of Orion Simon and Schuster

According to the ancient Maya, the world as we know it will end on 22nd December, 2012. On that date, their calendar will click round to zero for the first time in over 5,000 years. They prophesied that this destruction will be preceded by a series of natural disasters, including earthquakes and floods. Does this sound familiar? What will this mean for us? Should we take seriously their claims that this will be a time of apocalyptic cataclysm? And, just how did the Maya, a clever but nonetheless Stone Age people, calculate the date of an astronomical event that would take place many millennia in the future? These are just some of the questions posed by Adrian Gilbert, co-author of the international bestseller "The Mayan Prophecies." In "The End of Time," he revisits the ancient archaeological sites of the Maya and makes astonishing new discoveries about their cosmology. He also makes use of modern computer technology to 'backtrack' the skies to the way they would have appeared in previous ages, which has resulted in some major findings concerning the astronomical significance of the Mayan calendar. This absorbing, thought-provoking book is enhanced by a number of illustrations and photographs to help explain the many theories and ideas conveyed in the text. And, in case, an apocalyptic event really is upon us, the author offers tips for survival.

The phrase "As above, so below" is attributed to the Egyptian god of wisdom named Thoth. This echoes the biblical expression "on earth as it is in heaven." Many diverse ancient cultures have erected sacred cities, pyramids, standing stones, or temples in order to mirror the stars. In particular the constellation Orion has been repeatedly projected as a talismanic pattern on numerous landscapes around the world. This book describes the sky-ground templates of Egypt, the American Southwest, Mexico, Nazca, the UK, Europe, Syria, Zimbabwe, Nigeria, and other regions. It also discusses the celestial rituals of the Mithras cult, the Age of Taurus, the Sirius cosmology of the Dogon, and South African rock art. This essential archaeo-astronomy primer expands the star correlation theory to encompass the entire globe. Packed with nearly 225 photos, drawings, diagrams, maps, and star charts. "As above, so below. The parallels Gary David has found between the ancient Egyptian sky-ground system involving the pyramids of

Giza and the constellation of Orion, and a similar project to build heaven on earth by the Hopi of Arizona, are eerie, compelling and deeply thought-provoking." -Graham Hancock, author of Fingerprints of the Gods "Gary David's work is a treasure of enormous importance." -William Henry, author of Lost Secrets of the Watchers "The correlation Mr. David makes between the Hopi and Egyptian 'sky-view' is most interesting." -Robert Bauval, author of The Orion Mystery "...a must-read for pre-Columbian aficionados and aspiring anthropologists alike." -Ross Hamilton, author of Star Mounds From the INTRODUCTION: This book is a survey of the archaeo-astronomy of various cultures around the globe. How did ancient people conceptualize the heavens? What was their notion of the cosmos? How did their sacred ceremonies or ritual enactments bring them closer to the omnipotent or at least very powerful celestial beings? What structures, temples, or standing stones did they erect to create models of the sky realm? By its very nature this book is extensive rather than intensive, allowing the reader to pursue further areas of special cultural interest. In essence, it is a primer for the concept of sky-ground mirrors—the terra firmament, so to speak. Well-known constellation correlations, such as the Orion-Giza schema, join newly discovered sidereal correspondences, such as those in Syria and Nigeria. Ancient people comprehended the language of the stars much better than we do today, despite our Hubble Space Telescope and Very Large Array. If we can translate the encoded messages from the celestial dimension to understand what these time-traveling pinpoints of light are endeavoring to tell us, then we will realize the complexity and depths of our past knowledge of a truly living cosmos. We will ultimately find that spirit and matter are a single continuum extending far into our future—mirror reflecting mirror down the sacred portal that leads to Orion.

Reveals how the largest Sun Temple in the world, built according to Hermetic principles, is located at one of Christianity's holiest sites: the Vatican • Shows how famous Renaissance philosophers and scientists called for a Hermetic reformation of Christianity by building a magical Temple of the Sun in Rome • Explains how the Vatican architect Bernini designed St. Peter's Square to reflect heliocentric and Hermetic principles • Reveals how the design was masterminded by Bernini, Jesuit scholars, the mystical Queen

Christine of Sweden, and several popes In 16th century Italy, in the midst of the Renaissance, two powerful movements took hold. The first, the Hermetic Movement, was inspired by an ancient set of books housed in the library of Cosimo de' Medici and written by the Egyptian sage Hermes Trismegistus. The movement expounded the return of the "true religion of the world" based on a form of natural magic that could draw down the powers of the heavens and incorporate them into statues and physical structures. The other movement, the Heliocentric Movement launched by Copernicus, was a direct challenge to the Vatican's biblical interpretation of a geocentric world system. Declared a heresy by the Pope, those who promoted it risked the full force of the Inquisition. Exploring the meeting point of these two movements, authors Robert Bauval and Chiara Hohenzollern reveal how the most outspoken and famous philosophers, alchemists, and scientists of the Renaissance, such as Giordano Bruno and Marsilio Ficino, called for a Hermetic reformation of the Christian religion by building a magical utopic city, an architectural version of the heliocentric system. Using contemporary documents and the latest cutting-edge theses, the authors show that this Temple of the Sun was built in Rome, directly in front of the Vatican's Basilica of St. Peter. They explain how the Vatican architect Bernini designed St. Peter's Square to reflect the esoteric principles of the Hermetica and how the square is a detailed representation of the heliocentric system. Revealing the magical architectural plan masterminded by the Renaissance's greatest minds, including Bernini, Jesuit scholars, Queen Christine of Sweden, and several popes, the authors expose the ultimate heresy of all time blessed by the Vatican itself.

The Secret History of Extraterrestrials Simon and Schuster
An examination of the cultural occupations of Egypt over the past two millennia and how we can return to the sacred harmony of ancient Egypt • Explores the golden civilization of ancient Egypt and its system of natural magic that birthed the Western Mystery tradition • Examines each phase of Egyptian history from the Pharaonic period, through the Roman conquest, to the ongoing Islamization • Provides a revised portrait of the life of Muhammad, revealing his connections to the Essene tradition Imagine the paradise of ancient Egypt: a lush green valley with a gentle river, full of animals and birds of all sizes. The first settlers, arriving by

way of the desert, would have marveled at this beautiful landscape. This awe held on through the first three millennia of settlement in Egypt. Centered on careful observations of the natural rhythms of their environment, particularly the Nile, this enlightened civilization lived in a state of spiritual balance and harmony they called "living in Maat." This state was further enhanced by the sacred landscape of Egypt and the colossal monuments and pyramids the Egyptians built to reflect the heavens, thus creating a cosmic "spiritual engine" for the ancient world. But sadly, the paradise and Maat of ancient Egypt were not to last, and for the past two thousand years Egypt has experienced many occupations by hostile forces bent on taking control of this magical land. Exploring the exemplary social and cultural model that produced the golden civilization of ancient Egypt as well as the many waves of conquest and destruction up to the present day, Robert Bauval and Ahmed Osman examine

each phase of Egyptian history from its origins and the Pharaonic period, through the Roman conquest and its Christianization, to the Pan-Arabization of Nasser and the ongoing Islamization that began with the Muslim caliphate in the 7th century. They show how the current Islamic rulers are actively working to eradicate all traces of Egypt's spiritual roots, the source of the Western Mystery tradition. They provide a revised portrait of the life of Muhammad, revealing his connections to the Essene tradition, and explain how most Sharia Law is not based on the Koran. Revealing how even the dams built on the Nile are impeding Egypt's sacred role, the authors sound the call for a return to the original tenets of Egyptian civilization, one that sustained itself in harmony and peaceful creativity for more than three millennia.

Lost in the mists of time and legend is the true history of Britain before the arrival of the Romans and after their departure. Using ancient historical records, this book asserts that Britain was never fully conquered by the Romans but retained its culture as its royal families intermarried with the caesars. Two British kings, both named Arthur, became the single King Arthur of myth and legend. As a result of 40 years of research, this book reveals the location of the graves of both Arthurs, the burial place of the "true cross of Christ," and many other mysteries. It challenges many orthodox beliefs perpetuated by a church that long ago lost touch with its roots.
