Alcohol use by young people is extremely dangerous - both to themselves and society at large. Underage alcohol use is associated with traffic fatalities, violence, unsafe sex, suicide, educational failure, and other problem behaviors that diminish the prospects of future success, as well as health risks "and the earlier teens start drinking, the greater the danger. Despite these serious concerns, the media continues to make drinking look attractive to youth, and it remains possible and even easy for teenagers to get access to alcohol. Why is this dangerous behavior so pervasive? What can be done to prevent it? What will work and who is responsible for making sure it happens? Reducing Underage Drinking addresses these questions and proposes a new way to combat underage alcohol use. It explores the ways in which may different individuals and groups contribute to the problem and how they can be enlisted to prevent it. Reducing Underage Drinking will serve as both a game plan and a call to arms for anyone with an investment in youth health and safety.

"This is Francis Paul Prucha's magnum opus. It is a great work. . . . This study will . . . [be] a standard by which other studies of American Indian affairs will be judged. American Indian history needed this book, has long awaited it, and rejoices at its publication."-American Indian Culture and Research Journal. "The author's detailed analysis of two centuries of federal policy makes The Great Father indispensable reading for anyone interested in understanding the complexities of American Indian policy."-Journal of American History. "Written in an engaging fashion, encompassing an extraordinary range of material, devoting attention to themes as well as to chronological narration, and presenting a wealth of bibliographical information, it is an essential text for all students and scholars of American Indian history and anthropology."-Oregon Historical Quarterly. "A monumental endeavor, rigorously researched and carefully written. . . . It will remain for decades as an indispensable reference tool and a compendium of knowledge pertaining to United States-Indian relations."-Western Historical Quarterly. "Perhaps the crowning achievement of Prucha's scholarly career."-Vine Deloria Jr., *America*. "For many years to come, The Great Father will be the point of departure for all those embarking on research projects in the history of government Indian policy."-William T. Hagan, *New Mexico Historical Review*. "The appearance of this massive history of federal Indian policy is a triumph of historical research and scholarly publication."-Lawrence C. Kelly, *Montana*. "This is the most important history ever published about the formulation of federal Indian policies in the United States."-Herbert T. Hoover, *Minnesota History*. "This truly is the definitive work on the subject."-Ronald Rayman, *Library Journal*. The Great Father was widely praised when it appeared in two volumes in 1984 and was awarded the Ray Allen Billington Prize by the

Organization of American Historians. This abridged one-volume edition follows the structure of the two-volume edition, eliminating only the footnotes and some of the detail. It is a comprehensive history of the relations between the U.S. government and the Indians. Covering the two centuries from the Revolutionary War to 1980, the book traces the development of American Indian policy and the growth of the bureaucracy created to implement that policy. Francis Paul Prucha, S.J., a leading authority on American Indian policy and the author of more than a dozen other books, is an emeritus professor of history at Marquette University.

Scientific Papers of C.V. Raman TULSI SAHITYA PUBLICATIONS
In 1150 AD, Bhaskaracarya (b. 1114 AD), renowned mathematician and astronomer of Vedic tradition composed Lilavati as the first part of his larger work called Siddhanta Siromani, a comprehensive exposition of arithmetic, algebra, geometry, mensuration, number theory and related topics. Lilavati has been used as a standard textbook for about 800 years. This lucid, scholarly and literary presentation has been translated into several languages of the world. Bhaskaracarya himself never gave any derivations of his formulae. N.H. Phadke (1902-1973) worked hard to construct proofs of several mathematical methods and formulae given in original Lilavati. The present work is an enlargement of his Marathi work and attempts a thorough mathematical explanation of definitions, formulae, short cuts and methodology as intended by Bhaskara. Stitches are followed by literal translations so that the reader can enjoy and appreciate the beauty of accurate and musical presentation in Lilavati. The book is useful to school going children, sophomores, teachers, scholars, historians and those working for cause of mathematics.

Now with a new introduction for the Tor Essentials line, A Fire Upon the Deep is sure to bring a new generation of SF fans to Vinge's award-winning works. A Hugo Award-winning Novel!

"Vinge is one of the best visionary writers of SF today."-David Brin
Thousands of years in the future, humanity is no longer alone in a universe where a mind's potential is determined by its location in space, from superintelligent entities in the Transcend, to the limited minds of the Unthinking Depths, where only simple creatures, and technology, can function. Nobody knows what strange force partitioned space into these "regions of thought," but when the warring Straumli realm use an ancient Transcendent artifact as a weapon, they unwittingly unleash an awesome power that destroys thousands of worlds and enslaves all natural and artificial intelligence. Fleeing this galactic threat, Ravna crash lands on a strange world with a ship-hold full of cryogenically frozen children, the only survivors from a destroyed space-lab. They are taken captive by the Tines, an alien race with a harsh medieval culture, and used as pawns in a ruthless power struggle. Ptolemy's Almagest is one of the most influential scientific works in history. A masterpiece of technical exposition, it was the basic textbook of astronomy for more than a thousand years, and still is the main source for our knowledge of ancient astronomy. This translation, based on the standard Greek text of Heiberg, makes

the work accessible to English readers in an intelligible and reliable form. It contains numerous corrections derived from medieval Arabic translations and extensive footnotes that take account of the great progress in understanding the work made in this century, due to the discovery of Babylonian records and other researches. It is designed to stand by itself as an interpretation of the original, but it will also be useful as an aid to reading the Greek text.

In this ground-breaking vision document, first published in 1998, Dr A.P.J. Abdul Kalam and Y.S. Rajan offer a blueprint for India to be counted among the world's top five economic powers by the year 2020. They cite growth rates and development trends to show that the goal is not unrealistic. Past successes—the green revolution and satellite-based communication linking remote regions of the country, for instance—bear them out. The same sense of purpose can make us a prosperous, strong nation in a matter of years, assert Kalam and Rajan. This is a book that every citizen who hopes for a better India must read.

#1 NEW YORK TIMES BESTSELLER • More than two million copies

in print! The premier resource for how to deliver results in an uncertain world, whether you're running an entire company or in your first management job. "A must-read for anyone who cares about business."—The New York Times When Execution was first published, it changed the way we did our jobs by focusing on the critical importance of "the discipline of execution": the ability to make the final leap to success by actually getting things done. Larry Bossidy and Ram Charan now reframe their empowering message for a world in which the old rules have been shattered, radical change is becoming routine, and the ability to execute is more important than ever. Now and for the foreseeable future: • Growth will be slower. But the company that executes well will have the confidence, speed, and resources to move fast as new opportunities emerge. • Competition will be fiercer, with companies searching for any possible advantage in every area from products and technologies to location and management. • Governments will take on new roles in their national economies, some as partners to business, others imposing constraints. Companies that execute well will be more attractive to government entities as partners and suppliers and better prepared to adapt to a new wave of regulation. • Risk management will become a top priority for every leader. Execution gives you an edge in detecting new internal and external threats and in weathering crises that can never be fully predicted. Execution shows how to link together people, strategy, and operations, the three core processes of every business. Leading these processes is the real job of running a business, not formulating a "vision" and leaving the work of carrying it out to others. Bossidy and Charan show the importance of being deeply and passionately engaged in an organization and why robust dialogues about people, strategy, and operations result in a business based on intellectual honesty and realism. With paradigmatic case histories from the real world—including examples like the diverging paths taken by Jamie Dimon at JPMorgan Chase and Charles Prince at Citigroup—Execution provides the realistic and hard-nosed approach to business success that could come only from authors as accomplished and insightful as Bossidy and Charan.

This volume contains 55 publications in the field of Acoustics and includes the famous landmark paper On the Mechanical Theory of

Vibration of Bowed Strings--perhaps the most important contribution to the theory of violins since Helmholtz, and also the English translation of Raman's celebrated monograph, Musik instrumente und ihre Klänge (Musical Instruments and Their Tones) in the Springer Encyclopaedia of Physics. The volume includes six remarkable papers on the acoustics of Indian musical instruments--the mridangam and tabla, the only percussion instruments in the world that produce harmonic vibrations, and the tanpura and veena.

#1 NEW YORK TIMES BESTSELLER • NEW YORK TIMES READERS PICK: 100 BEST BOOKS OF THE 21st CENTURY • OPRAH'S BOOK CLUB PICK • "An instant American classic and almost certainly the keynote nonfiction book of the American century thus far."—Dwight Garner, The New York Times The Pulitzer Prize-winning author of *The Warmth of Other Suns* examines the unspoken caste system that has shaped America and shows how our lives today are still defined by a hierarchy of human divisions—now with a new Afterword by the author. #1 NONFICTION BOOK OF THE YEAR: Time ONE OF THE BEST BOOKS OF THE YEAR: The Washington Post, The New York Times, Los Angeles Times, Boston Globe, O: The Oprah Magazine, NPR, Bloomberg, The Christian Science Monitor, New York Post, The New York Public Library, Fortune, Smithsonian Magazine, Marie Claire, Slate, Library Journal, Kirkus Reviews Winner of the Los Angeles Times Book Prize • National Book Critics Circle Award Finalist • Winner of the Carl Sandburg Literary Award • Dayton Literary Prize Finalist • PEN/John Kenneth Galbraith Award for Nonfiction Finalist • PEN/Jean Stein Book Award Finalist • Kirkus Prize Finalist "As we go about our daily lives, caste is the wordless usher in a darkened theater, flashlight cast down in the aisles, guiding us to our assigned seats for a performance. The hierarchy of caste is not about feelings or morality. It is about power—which groups have it and which do not." Beyond race, class, or other factors, there is a powerful caste system that influences people's lives and behavior and the nation's fate. Linking the caste systems of America, India, and Nazi Germany, Isabel Wilkerson explores eight pillars that underlie caste systems across civilizations, including divine will, bloodlines, stigma, and more. Using riveting stories about people—including Martin Luther King, Jr., baseball's Satchel Paige, a single father and his toddler son,

Wilkerson herself, and many others—she shows the ways that the insidious undertow of caste is experienced every day. Finally, she points forward to ways America can move beyond the artificial and destructive separations of human divisions, toward hope in our common humanity.
