Embark on an exhilarating expedition with A. Arkell-Hardwick's "An Ivory Trader in North Kenia: The Record of an Expedition through Kikuyu to Galla-land in East Equatorial Africa; with an Account of the Rendili and Burkeneji Tribes." Journey into the heart of East Equatorial Africa with A.

Arkell-Hardwick as your guide. This riveting account details an adventurous expedition through the diverse and captivating landscapes of North Kenia, offering a unique glimpse into the life of an ivory trader during a bygone era. Arkell-Hardwick's narrative brings to life the trials and triumphs of traversing the rugged terrain of Kikuyu to the remote Galla-land. Along the way, readers will encounter the fascinating Rendili and Burkeneji tribes, learning about their customs, traditions, and ways of life. The

author's keen observations and vivid descriptions provide an in-depth look at the rich cultural tapestry of these indigenous communities. Through meticulous detail and engaging storytelling, Arkell-Hardwick captures the essence of the region's natural beauty and the challenges faced by explorers and traders. From encounters with wildlife to navigating treacherous paths, every page is filled with the excitement and unpredictability of life on an expedition. The themes of adventure, cultural

exploration, and survival are intricately woven throughout "An Ivory Trader in North Kenya." Arkell-Hardwick's firsthand experiences and interactions with the local tribes offer readers a profound understanding of the complexities and nuances of East African societies and landscapes during the time. Since its publication, "An Ivory Trader in North Kenya" has been acclaimed for its authentic portrayal of expedition life and its detailed accounts of the Rendili and Burkeneji tribes. The book's blend of historical context, personal narrative, and cultural exploration makes it a valuable resource for historians, anthropologists, and adventure enthusiasts alike. As you delve into the pages of "An Ivory Trader in North Kenya: The Record of an Expedition through Kikuyu to Galla-land in East Equatorial Africa; with an Account of the Rendili and Burkeneji Tribes," you will be transported to a world of daring exploits and profound discoveries. Arkell-Hardwick's engaging prose and comprehensive insights make this book a captivating read that resonates with the spirit of exploration. In conclusion, "An Ivory Trader in North Kenya" is more than

just an expedition log; it is a window into the adventurous spirit of early 20th-century exploration and the rich cultural heritage of East Equatorial Africa. Whether you are a history buff, a cultural enthusiast, or simply seeking an enthralling adventure, this book offers a journey you won't soon forget. Don't miss your chance to embark on this unforgettable expedition. Let "An Ivory Trader in North Kenya" transport you to the wilds of East Africa, where adventure awaits at every turn. Grab your copy now and join the readers who have been captivated by Arkell-Hardwick's extraordinary journey.

Love Your Slim Self is learning how to allow yourself, at a super-conscious level, to create a new image, one that is absolutely necessary for positive change. Then, comfortable weight loss will happen naturally.

*The Monsters We Make* Prabhat Prakashan  
Dr Alverson's story covers his early life experiences, through high school, World War II, his education and his involvement in State, Federal and International

fisheries science and management. His career and story cover the period (1950-2000) during which world fisheries would explode from small boat coastal activities to distant water fleets of large vessels. World catches would increase over 300% after WWII and most of the world's oceans and seas would be heavily exploited. Overfishing and impacts on coastal fisheries would lead the world community to seek new laws for the harvest of ocean fisheries and result in unilateral extension of national jurisdictions over ocean space. The growth of environmental movement in the later half of the 20th century would lead to conflicts between fishing and conservation groups resulting in changes in national and international fish policies. The book tracks many of these developments and Dr Alverson's personal involvements and experiences during the traumatic period of world fishery expansion. During the course of his life marine fisheries resource would be seen as the great source of world protein to feed the world's hungry and later as overfished and polluted.

*The World's Work* Harlequin

Parents and teachers of learning disabled

children have turned to Sally Smith's *No Easy Answers* for information, advice, and comfort for more than fifteen years. In this revised, trade paperback edition of the latest information on learning disabilities in a clear, honest, and accessible way. This completely updated edition contains new chapters on Attention Deficit Disorder and Attention Deficit Hyperactivity Disorder, and on the public laws that guarantee an equal education for learning disabled children. There is also an entirely new section on learning disabled adults and the laws that protect them. Sally Smith, the parent of a learning disabled child herself, guides parents along every step of the way, from determining if their child is learning disabled to challenging the school system to provide special services. Drawing on more than twenty-five years of experience at her own nationally acclaimed school, she also offers valuable strategies to teachers who are anxious or discouraged as they struggle with learning disabled students. Although there are no easy answers, Sally Smith's experience, wealth of information, and sense of humor provide essential support.

THE NUMBER 1 INTERNATIONAL BESTSELLER 'Holds the key to easing the mental torture of those who have endured a lifelong struggle with the symptoms of acute and chronic anxiety. A unique book by a unique doctor' IRISH TIMES A practical guide to understanding, managing and overcoming anxiety and panic attacks by bestselling author and GP Harry Barry. Do you or does someone you love suffer from general anxiety, social anxiety, panic attacks, a phobia, obsessive-compulsive disorder or post-traumatic stress disorder? Or are you a health-care worker treating people with these disorders? Then this book is for you. Dr Harry Barry combines a deep knowledge of the inner workings of the mind and brain with a wealth of experience treating patients as a GP to offer a way out of the fear, worry and shame of anxiety. In this wise, supportive book, Dr Barry explains clearly and simply what it is about our minds and brains that generates the symptoms of anxiety. Through a series of case studies based on his real-life experiences treating patients, he explains and demonstrates how to use

lifestyle changes, mindfulness, exercise and CBT techniques to cope with these symptoms and ultimately feel better. Previously published as *Flagging Anxiety: How to Reshape Your Anxious Mind and Brain*, this edition has been fully revised and updated.

The New England Journal of Medicine  
Guilford Publications

In life after postmodernism our conception of photography is not the same as before. *Photography After Postmodernism* starts with this conception and explores what changes have affected photography, its relation to social life and our image-centred culture. Engaging with the visual environment and issues that have emerged in the postmodern world, David Bate introduces fresh approaches and analysis of photographs and their place within the aftermath of postmodernist thought. The book shows how photographs circulate in an 'image-world' beyond their art or media origins that deeply affects our sense of time and relation to memory. The role of archives, dreams, memories and time are deployed to develop and resituate arguments about photography made by Roland Barthes in *Camera Lucida*

to further engage and understand our contemporary condition. By considering how 'afterwardness' is invoked in the developments of modern and contemporary photography, Bate demonstrates the complex ways in which photographic images resonate across public and private spaces, while carrying a slippage of meaning that is never quite fixed, yet always contingent and social. The approach shows how modernist photography was already invested in values that its discourse could not enunciate, which resonates with much contemporary photography today. Featuring a range of historical and contemporary images, the book offers detailed and innovative readings of specific photographs which open new avenues of thought for those studying and researching visual culture and photography.

Bubbles are everywhere—in water and in air, made from soap and from gas. They

are referenced in literature and sung about in songs. They are even the subject of great works of art. From the youngest child blowing bubbles in the backyard to the adult studying the fascinating science behind them, bubbles capture our imagination. F. Ronald Young's far-reaching survey of the humble bubble explores the complex behavior of these seemingly simple objects. If you stop to think about it, bubbles and droplets are the cornerstones of the world around us. They are the reason that dolphins cannot swim faster, that the sky is blue, and that coffee rings form. They are essential to knowing how atom smashers work, how detergents clean dishes, and how to pour a perfect pint. Beyond these basics, Young shows how humans have put bubbles to use throughout history. Whether in technology—making fire-fighting foams and waterproof makeup—or in medicine—cleaning wounds and clarifying ultrasounds—bubbles are capable of more than most of us have imagined. With easy-to-understand explanations, detailed illustrations, and entertaining anecdotes, Young reveals the Fizzics behind these familiar—yet surprising—objects.

### Anxiety and Panic Spring

For fans of Rene Denfeld and Shari Lapena comes a rich, atmospheric family drama set in the 1980's following the disappearances of two paperboys from a small midwestern town. It's August 1984, and paperboy Christopher Stewart has gone missing. Hours later, twelve-year-old Sammy Cox hurries home from his own paper route, red-faced and out of breath, hiding a terrible secret. Crystal, Sammy's seventeen-year-old sister, is worried by the disappearance but she also sees opportunity: the Stewart case has echoes of an earlier unsolved disappearance of another boy, one town over. Crystal senses the makings of an award winning essay, one that could win her a scholarship - and a ticket out of their small Iowa town. Officer Dale Goodkind can't believe his bad luck: another town and another paperboy kidnapping. But this time he vows that it won't go unsolved. As the abductions set in motion an unpredictable chain of violent, devastating events touching each life in unexpected ways, Dale is forced to face his own demons. Told through interwoven perspectives--and based on the real-life

Des Moines Register paperboy kidnappings in the early 1980's--The Monsters We Make deftly explores the effects of one crime exposing another and the secrets people keep hidden from friends, families, and sometimes, even themselves.

**Farmers' Guide** Bantam

The white shape silhouetted against a blue background changes on every page. Is it a rabbit, a bird, or just spilt milk? Children are kept guessing until the surprise ending -- and will be encouraged to improvise similar games of their own.

*Every Other Sunday* Candlewick Press  
Presents the story of the feral boy known as the Savage of Aveyron, discovered in the mountain wilderness of Southern France in the late 18th century, and describes the attempts led by Paris physician Jean Marc Gaspard Itard to civilize him.

*No Easy Answer* Taylor & Francis

A noted parenting expert provides the latest research on child development and offers games and activities parents can use to support their child's natural abilities. Drawing on the latest fascinating research in child brain development, noted

parenting expert Jan Faull gives parents the essential tools to recognize and encourage their child's natural development- and have fun with their kids in the process. Simple to use and easy to understand, the techniques in *Amazing Minds* show parents how to support their children's capacity for learning. Faull describes chronologically what babies are capable of and the research behind those findings-then provides clear instruction, practical exercises, and fun games to play with babies to enhance their innate learning process. *Amazing Minds* will change how people view babies-from newborns to toddlers- and foster a new level of nurturing for generations of parents, educators, and caregivers.

The hilarious hosts of NPR's "Car Talk" have collected 100 of the best questions--and, more importantly--their answers to a wide variety of car conundrums. Illustrated.

Medical Record Gurze Books

Jennifer Sharpe is a divorced mother of two with a problem just about any working parent can relate to: her boss expects her

to work as though she doesn't have children, and her children want her to care for them as though she doesn't have a boss. But when, through a fateful coincidence, a brilliant physicist comes into possession of Jennifer's phone and decides to play fairy godmother, installing a miraculous time-travel app called *Wishful Thinking*, Jennifer suddenly finds herself in possession of what seems like the answer to the impossible dream of having it all: an app that lets her be in more than one place at the same time. With the app, Jennifer goes quickly from zero to hero in every part of her life: she is super-worker, the last to leave her office every night; she is super-mom, the first to arrive at pickup every afternoon; and she even becomes super-girlfriend, dating a musician who thinks she has unlimited childcare and a flexible job. But Jennifer soon finds herself facing questions that adding more hours to her day can't answer. Why does she feel busier and more harried than ever? Is she aging faster than everyone around her? How can she be a good worker, mother, and partner when she can't be honest with anybody in her life? And most important, when

choosing to be with your children, at work, or with your partner doesn't involve sacrifice, do those choices lose their meaning? *Wishful Thinking* is a modern-day fairy tale in which one woman learns to overcome the challenges—and appreciate the joys—of living life in real time.
