There is an untapped goldmine that

exists within each and every one of us, a tremendous treasure trove that defies imagination. If you want to discover this, then keep reading... Are you looking for something more than just another self-help book? Do you often feel overwhelmed, exhausted, and emotionally drained? Do you often ask yourself why you're not happy? Do you get sick often? Do you have difficulty staying in relationships or gravitate toward unhealthy attractions? Do you

tend to overthink and worry too much about the future? Are you becoming increasingly cynical and feeling at odds with the world? Do you lack inspiration and creativity and often feel stifled? Do you sometimes wonder why you are here, and what life is all about? Or - are you generally happy in your life but still wonder what it's all about? Your dormant third eye is most likely the cause. How do you feel about learning how to open it and transform your life? Since the beginning of human history, the third eye chakra has been recognized and revered by ancient cultures as a powerful entity that is the gateway from the physical world into the non-physical world. It has been described as "the seat of the soul", "the eye of wisdom", "the inner eye", and "the mind's eye."

Awakening the third eye to harness its amazing powers has long been the pursuit of many spiritual schools, including Buddhism and Hinduism. Today, it remains the pursuit of those seeking happiness, health, and wellbeing. When awakened, the third eye allows us to fathom into the non-physical (but very real) spiritual realm, where we can find the true enrichment and purpose that we lack. This is the realm of our higher consciousness where we can claim our deepest intuition, our highest wisdom, and inner abundance to become healthier, more productive, and happier human beings. Today, slowly but surely, science has begun to confirm this. This book is a step-by-step guide that contains all you need to know about your inner eye and the steps required to

awaken it. This is not your typical book on spirituality. This is a book about "actionable spirituality," meaning that you will learn very real and effective techniques to awaken, empower, and nurture your dormant third eye. After all, what good are vague theories and spiritual platitudes if you can't apply them to get tangible results? You will learn: How to awaken your third eye to bring your physical and spiritual body into harmony, empowering you to live as your highest possible self. How the amazing and mysterious pineal gland is related to your third eye. Basic groundwork techniques for opening the third eye. Powerful meditations for opening and balancing the third eye. How to nurture your third eye with diet, crystals, color, essential oils and

affirmations. How to balance the chakra system. Preparing yourself for the spiritual gifts of psychic dreams, seeing auras and clairvoyance. How to see and read auras. How to interpret psychic dreams and intuitive messages. And much more, including visualizations, lifestyle changes, and simple tips and methods to add to your routine. It's unfortunate that many people are skeptical of the spiritual aspect of our being and the role it can play in reconnecting us with ourselves and with the world around us. The powerful takeaways and the results you will experience will make this very clear. This book will take you on a magnificent adventure that will end with you experiencing inner peace, incredible wisdom, immense gratitude, and the

discovery of realms you never knew existed. So, start this journey that will transform your life forever, by ordering this book today!

The third eye is not some mystical discovery that has happened in the past few decades. If you look into the history and practices of various cultures and religions around the world, there is mention of the third eye. Under the

Taoist way of living, for example, there is an emphasis on connecting with oneself spiritually by opening the third eye. The Christian Bible also mentions the third eye-but it recommends and even condemns trying to open it. While the intentions and 'goodness' of the third eye are disputed, this makes it clear at the very least that it is a real, studied thing. The third eye that is spoken of in religions, cultures, and meditative practices is the pineal gland. Symbolically, the third eye is a single eye that exists on the forehead. It is positioned between the two eyebrows. It is said that by creating the connection between the third eye and the mind, we connect with our inner selves and the outside world. One of the earliest references to the third eye in the Bible is

in Matthew 6:22, where it is said 'If thine eye is single the whole body shall be full of light'. Though this comes across as positive, the text further goes on to discuss the connection to the third eye as having the potential to be one of light or darkness, depending on if the intentions of the eye opener are good or evil. However, later in the Bible, passages in Leviticus, Chronicles, Romans, John, and Ephesians go against this idea that the third eye may be good or evil. It is even said that those who practice acts of the third eye like fortune telling and the like should be punished by death, as well as those who have chosen to associate with them. Eventually, the earlier support for the third eye is explained-the third eye or sixth sense that is spoken of is a

connection to the Holy Spirit, and it is this spirit that should be used for guidance. This taking in of the Holy Spirit should be so much that it fills, which keeps out the evil spirits because there is no room for them. It is common to hear the third eye referred to as a chakra, with it being one of seven that are found at various points in the body. These chakras align with the unified field theory and ideas presented in quantum physics-that humans are not single entities but instead made up of atoms and molecules that have aggregated together. Each 'human' entity is just a physical body that has been assigned to contain the seven chakras. The chakras explain different energy centers found in the body, each of them with its own location and 'color'. Many cultures

believe that the flow of energy is important to health-that is why treatments which align 'qi' or energy like Reiki and acupuncture are used to treat some conditions, according to traditional medicine practices. It has been used for high blood pressure, pain in the joints, back, or anywhere else, migraines, and more. In this book, you will learn more about: How to open your third eye Healing mind and body through meditation The ways to protect yourself during third eye activation Chakras yoga Experiences after the opening of the third eye The powers of an open third eye Using crystals, oils, plants, and other tools for chakra healing Setting the environment for third eye meditation Other practical advice for opening the third eye Balancing chakras Finding

Using essential oils to influence your energetic make-up and karmic patterns

- Details how to identify which tattvas--the Five Great Elements--are dominant in your energetic make-up
- Explores the energetic signatures of the essential oils associated with each tattva and chakra, including their archetypes, sacred geometry, sacred sounds, and colors
- Explains how to identify your personal

vibrational signature, purify your energy body, impart vibrational properties to jewelry, and work with yantras and mantras The tattvas, the Five Great Elements--earth, water, fire, air/wind, and ether/space--create and sustain not only the universe but also all of its inhabitants. Each of us has a unique combination of these elemental energies behind our personal characteristics--everything from the color of our eyes to our behaviors and emotional temperament. What tattvas are dominant in your make-up can also be influenced by your surroundings and by karma. Essential oils, in addition to working biologically and chemically, also work at the energetic level, making them ideal for working with the tattvas. Teaching you how to use essential oils to

affect the very fabric of your being, Candice Covington details how the Tattvas Method of essential oils allow you to access the deepest, most hidden aspects of Self, those beyond the reach of the mind, the very energetic causation patterns that set all behaviors and thoughts into motion. She reveals how the tattvas are the energy that animate each chakra and how we can use their archetypal energy to shape our inner life and align with our greater soul purpose. The author provides energetic profiles of each tattva, chakra, and essential oil, explains their relationships to one another, and details how to identify what tattva or chakra is dominant at any given time. Exploring the energetic signatures of the tattvic essential oils, she details their elemental

make-up, animal and deity archetypes, sacred geometry symbols, sacred syllables, and colors. She reveals how to discover the energy patterns responsible for directing unhealthy life patterns and explains how to identify your personal vibrational signature, purify your energy body, and craft your own unique ritual practice with essential oils. Showing how essential oils are powerful vibrational tools for effecting change, the author reveals how they allow each of us to deliberately steer our own destiny, fulfill our personal dharma, and be all that our souls intended us to be.

The Opening of the Third Eye: The human brain is a priceless computer lying perfectly maintained but almost silent! None of us uses the full potential of this amazing instrument, yet we all possess a secret 'trigger' for activating its mechanism. Called 'the Third Eye' in occult language, this 'trigger' can release a vortex of psychic energy for the extension of awareness in new dimensions, for speeding up or slowing down time as experienced on our planet, and achieving one hundred per cent personality integration. Dr. Baker reveals that the Third Eye derives its power from the pineal, pituitary and carotid glands, allied to 'whirlwinds' of energy known as

'chakras' or force centres. There are seven of these centres in the human body, their physical location being the base of the spine, the solar plexus, the spleen, the heart, the throat, the brow, and the top of the head. Five safe techniques for arousing the Third Eye are provided. They have been practised by the author 'without hazard and with many rewards for over forty years.' In our present condition we can only observe the outer surface of the planet, manifesting in gaseous, liquid and solid form. We are completely unaware of the subtler states of matter beneath these outward appearances. But the Third Eye reveals all underlying structures. 'This means that one could observe the termites in apparently solid wooden paneling; or, more constructively, man's

inner organs could be observed and all traces of disease in them immediately recognised, with consequent enormous benefits to medical progress.'
