A Grammar of Moroccan Arabic

Georgetown Classics in Arabic Languages and Linguistics series

A Basic Course in Moroccan Arabic is a textbook in spoken Moroccan Arabic that is written for beginners who are unfamiliar with the Arabic language,

alphabet, pronunciation, vocabulary, and grammar. Written in Latin transcription it is carefully designed to present these elements in a progressive, user-friendly, step-by-step manner. Following the initial pronunciation introductions and practice, there are 130 lessons consisting of a text where a small number of phrases and sentences illustrate grammatical points. These sections also contain exercises in new grammar and vocabulary. Each lesson is structured in a way that guides the learner naturally and comfortably into an understanding of the structure of Moroccan Arabic. From there, the course progresses into ninety-seven short, conversational dialogs that place the student in a variety of social situations. First introduced to Arabic language

students in the 1960s, A Basic Course in Moroccan Arabic still has no equal for clarity and ease of use. An audio CD of MP3 files that further aid and enhance the lessons is now bound into this volume.

Moroccan Arabic Verb Dictionary

Moroccan Arabic was written by a dogged student of the language (and a natural teacher) and it was edited by a native speaker and equally wonderful teacher. Finally, a straight-forward and

easy to use primer for learning Moroccan Arabic - and now, new and improved in this 2nd edition. It incorporates reader suggestions and features more details on the transliteration system, additional words, new word lists, and the text has been completely revised and re-edited. Practical and witty, it's basically the equivalent of a VCR repair manual, just a bare-bones list of how to do the important things: here's the present tense, here's the future tense, etc, etc. In other words, it's a reference book with simple examples, none of the filler, and a few youthful surprises. It's just the kind of cheat-sheet everyone craves. Best of all, and unlike the others, everything is provided side-by-side in English, transliteration, and Arabic. And it uses a simple real-word transliteration system

that is simply written the way things sound without the use of exotic linguistic symbols. It's the perfect book for everyone with an interest in contemporary Morocco: travelers, tourists, students, diplomats, business people, academics, artists, Peace Corp volunteers, Fulbright Scholars and student grantees, etc. Praise for Moroccan Arabic from students, scholars and travelers on both side of the Atlantic: "Fills a gaping hole in Moroccan Arabic instruction. Based on the first-hand immersion experiences of a native English-speaker who navigated Moroccan culture and language for a year... and as a researcher in Morocco myself, I found it handy." --Nabil Khan, Fulbright Student Grantee "I love the sense of humor woven throughout - it's

an enjoyable read. A great example of collaboration." --Edwin Bodensiek, Dir. of Outreach and Public Relation, CIES - Fulbright, Washington, DC "A great resource. I wish had this book when I was traveling and researching in Morocco." --Dr Jennifer A Roberson, Professor of Islamic Art, Sonoma State University, California "Written by a born teacher. This book enhances effective language instruction and builds a collection of everyday conversation resources for Anglo-American students and scholars." --Dr Khalid Amine, Universite Abdelmalek Essaadi and President, ICPS - Tangier Many people contributed to making this book a reality - and by agreement of all those involved, the proceeds from the sale of this book go to support the publishing program at

the International Centre for Performance Studies (ICPS) - Tangier, Morocco. Initial research for the book was conducted during a Fulbright graduate student grant. The ongoing project (encourage more people to learn Darija, provide improved study materials, and provide a funding stream for ICPS-Tangier) is sustained by the generosity of numerous all-volunteer partners - kindly lend your assistance by sending an email to collaborative.media@ymail.com

A Basic Course in Moroccan Arabic
Routledge

A historical reference work on Morocco must take as its subject al-maghrib al-aqsa (the far west) as the Arabic scholars have generally referred to the approximate region of present-day Morocco, roughly the north-west corner

of Africa but at times including much of the Iberian peninsula, because the modern nation-state is a relatively recent creation owing much to events in the late 19th and early 20th centuries. External influences on Morocco tend to come across the narrow straits of Gibraltar to the north, from the east along the Mediterranean litoral, or up from the Sahara. In each case, access is constrained by geography and continued control from outside the region has been difficult to manage over the long term. Although many of the dynasties that came to power in Morocco conquered much broader regions, history and topology have so conspired that there is still more coherence to an historical focus on al-maghrib al-aqsa than is the case for most modern nation-states. This

third edition of Historical Dictionary of Morocco contains a chronology, an introduction, a glossary, and an extensive bibliography. The dictionary section has over 600 cross-referenced entries on important personalities, politics, economy, foreign relations, religion, and culture. This book is an excellent access point for students, researchers, and anyone wanting to know more about Morocco.

My First Words in Moroccan Yatir

Nitzany

This book is intended primarily as an

original contribution to the investigation of the phonology of the two main languages spoken in Morocco. Its central topic is syllable structure. Our theoretical outlook is that of generative phonology. Most of the book deals with Tashlhiyt Berber. This language has a syllable structure with properties which are highly unusual, as seen from the vantage point of better-studied languages on which most theorizing about syllabification is based. On the one hand, complex consonant sequences are a common occurrence in the surface representations. On the other hand, syllable structure is very simple: only one distinctive feature bundle (phoneme) may occur in the onset, the nucleus or the coda. The way these two conflicting demands are reconciled is by

allowing vowelless syllables. Any consonant may act as a syllable nucleus. When a string is syllabified, nuclear status is preferentially assigned to the segments with a higher degree of sonority than their neighbours. Consider for instance the expression below, which is a complete sentence meaning 'remove it (m) and eat it (m)': /kks=t t-ss-t=t/ [k. st. s . t:"] . k~t. t. s. . slt. The sentence must be pronounced voiceless throughout, as indicated by the IPA transcription between square brackets ; the syllabic parse given after the IPA transcription indicates that the sentence comprises four syllables (syllable nuclei are underlined). The differences between the dialects of Berber have to do primarily with the phonology and the lexicon.

THIS BOOK DOESN'T CONTAIN ANY ARABIC LETTERS! ALL ARABIC WORDS IN THIS BOOK WERE WRITTEN IN ENGLISH-TRANSLITERATION! Have you always wanted to learn how to speak the Arabic dialects of North Africa? Or learn how to speak the Egyptian, Libyan, Moroccan, Tunisian or the Algerian dialect but simply didn't have the time? Well if so, then, look no further. You can hold in your hands one of the most advanced

and revolutionary method that was ever designed for quickly becoming conversational in a language. In creating this time-saving program, master linguist Yatir Nitzany spent years examining the twenty-seven most common languages in the world and distilling from them the three hundred and fifty words that are most likely to be used in real conversations. These three hundred and fifty words were chosen in such a way that they were structurally interrelated and, when combined, form sentences. Through various other discoveries about how real conversations work—discoveries that are detailed further in this book—Nitzany created the necessary tools for linking these words together in a specific way so that you may become rapidly and almost

effortlessly conversant—now. If your desire is to learn complicated grammatical rules or to speak perfectly proper and precise Arabic, this book is not for you. However, if you need to actually hold a conversation while on a trip to a North African Arab speaking country, to impress that certain someone, or to be able to speak with your grandfather or grandmother as soon as possible, then the Nitzany Method is what you have been looking for. This method is designed for fluency in a foreign language, while communicating in the present tense. Nitzany believes that what's most important is actually being able to understand and be understood by another human being right away. More formalized training in grammar rules,

etc., can come later. This is one of the several, in a series of instructional language guides, the Nitzany Method's revolutionary approach is the only one in the world that uses its unique language technology to actually enable you to speak and understand native speakers in the shortest amount of time possible. No more depending on volumes of books of fundamental, beginner, intermediate, and advanced levels, all with hundreds of pages in order to learn a language. With Conversational Arabic Quick and Easy, all you need is this book. Learn Arabic today, not tomorrow, and get started now!
