Born 1906 in London as the son of an English mother and a German father, Rudolf Uhlenhaut was an engineer and designer for Daimler-Benz. He became famous for his achievements regarding the Silver Arrows, the 300 SL with the famous gull wing doors, the legendary Mercedes-Benz 300 SLR, known as the 'Uhlenhaut Coupé' and the various experimental C 111 versions well-known for several speed records. -- Uhlenhaut joined Daimler-Benz in 1931 after finishing his studies of mechanical engineering in Munich. In 1936 he took over as head of the racing department and conducted the Silver Arrows and Rudolf Caracciola to their 1937 European championship. Based upon the 300 SL 'Gullwing', initially a thoroughbred racing sports car, he created the road versions W198 and the smaller open-topped W121, both launched at the International Motor Sports Show in New York 1954. Though Uhlenhaut never owned a car of his own, his official company car, a 300 SLR with a top speed of 290 km/h became famous as the Uhlenhaut Coupé the fastest car of its day authorized for road use! -- This first ever comprehensive biography of Rudolf Uhlenhaut, illustrated with many previously unpublished photographs, depicts his life and technical achievements, presenting a complete compilation of all the patents he filed and exploring their significance. It also draws a vivid picture of the person behind the technical innovations and tries to explore his character and motivation.

Codenamed W460, the iconic Mercedes-Benz G-Wagen, with its boxy, square edged no frills look, set out to be Stuttgart's answer to the Range Rover. However, by going back to Gottlieb Daimler's premise of "Nothing but the best," it quickly took its place throughout the world as "The Best 4X4." This Essential Buyer's Guide will navigate you through the various model changes, starting from the simple hand-built W460, through to the more luxurious market of the W463. You will find details of model changes, engine specifications, and issues that you may come across when looking to buying one of the best purpose-made vehicles around. Nik Greene has written many feature articles and regular copy for popular classic car and club magazines in the UK and France, and his passion for Mercedes cars has steered him towards researching and writing for one of the elite motor manufacturers. Having restored many cars, his present stable of cars includes the Mercedes W126 S-Class 560SE and his beloved Mercedes G-Wagen, as well as several classic Citroens and Renaults. Mercedes Benz 124 Series Service and Repair Manual Haynes Manuals N. America, Incorporated A convenient size to fit any glove box, this service history booklet is provided as a supplementary maintenance log to your existing Mercedes-Benz service booklet. This booklet will allow you to continue a service log history when the page entries in your original booklet are full and may also serve as a new service history book if you have purchased a secondhand vehicle that has no service history book. Includes space for any ASSYST (FSS) entries on each service page.

Mercedes-Benz 124 Series ('85 to '93) Service and Repair Manual Mercedes-Benz Sprinter CDI Workshop Manual

A lavishly illustrated tribute to one of the most beloved European cars of all time. For nearly seventy years, no car has moved the lovers of classic cars more than the 300 SL. A legend since its launch in 1954 as a gullwing coupe, the 300 SL has been seen as the very model of what a sports car can be, its style and beauty perfectly matched to its power and handling. This beautifully illustrated tribute volume brings together Hans Kleissl, one of the world's leading experts on the 300 SL, and former Daimler historian and Mercedes-Benz archive manager Harry Niemann. The resulting book captures the magic and mystique of the car through history, photographs, insights into its technological breakthroughs, and firsthand accounts of its storied run. There's no better gift for the passionate fan of the 300 SL.
