 Life, liberty, and the pursuit of happiness are prescribed ideals in America of 2050. The Moral Authority, the nation's newest branch of government, has virtually eliminated crime, poverty, and most social ills, but it also rules the land with a tyrannical fist, championing ignorance and brandishing fear. Mark Bryan is a gay man whose existence brands him an outlaw; Isaac Montoya is a charming stranger, who entices Mark to defy moral law; and Samuel Pleasant runs the Moral Authority and plans to punish moral offenders and a rebellious uprising-no matter the cost. Will liberty and justice return for all?

This book is Sally Stanley's incredible journey and amazing testimony of God giving her "The Power To Go On." Stricken with a staph infection which produced large painful sores all over her body, she was rushed into surgery, where the surgeon accidentally severed the main artery to her heart, causing blood to flood her chest cavity, which resulted with her dying on the operating table. This resulted in her "after death or out-of-body experience" and miraculous encounter with The Lord, as He spoke these marvelous words, "You have been chosen by God and your work is not finished." Upon her immediate restoration, she spent weeks on a ventilator and had several months of physical therapy. Over the next several years, Sally has experienced and recovered from a fractured vertebrae, several strokes, and heart attacks. During this time period she also cared for her husband John, after he experienced seizures and strokes, which finally lead to his death on December 12, 2013. Then in May of 2014, while walking in a pedestrian crosswalk, she was suddenly hit by an automobile, suffering multiple injuries, including a shattered right shoulder and broken neck. Sally tells everyone that over the past 20 years, many miracles have happened in my life, but faith in Christ has given me "The Power To Go On." "I hope that everyone who reads this book will understand that with God, all things are possible. It is so great to know that we have Jesus walking with us each and every day."

This book contains the real estate investment histories of four highly successful individuals. Within this publication, the investors describe the paths they took that resulted in the creation of four separate, self-sustaining real estate empires. Self-sustaining means that the companies they started would continue to flourish without the day-to-day input of the founder. To fulfil such a qualification, the founder must have built a company consisting of a group of independent real estate entrepreneurs who are capable of managing and growing the business to the next level of success. The investors contributing to this book have achieved that goal.

This book is an invitation to join the Common Good Nation. It is time to create a parallel nation based on a more mature worldview. Also, where anyone on Earth can easily join or leave it at any time because it is defined by agreement rather than geography. It is also time to create a more mature form of democracy. The geographically defined nations provide us the possibility of creating in the private sector a nation defined by agreement that can eventually become more important to people while they continue to be fully responsible as citizens of both. It is not 1776. It is 2017. Our human societies have matured. It is time to honor this maturation by providing the opportunity for people to join a nation that is based on our current level of human maturity. The Common Good Nation (CGN) you will herein be invited to join will be loved by the geographically nations. They will accurately view it as a free research and development program. Whatever it creates that works well can be copied or, if deemed best left in the private sector, supported with tax incentives. The CGN is based on people choosing their leaders from within groups of less than one hundred people where everyone knows everyone well. This puts an end to millions of people going to polls to choose between two people to be the President of their country where almost none know both well. It also ends campaign fundraising, marketing tricks, fake news, and all the other troubles with choosing leaders that way. It is also very difficult to reach a majority decision on an issue where the worldviews of the citizenry are all over the map. This is the result of primarily defining a nation by the land it occupies. More quick and wise decisions can be made when all the people in the nation share a particular worldview. The CGN described in this book is based on a particular worldview. Only those who share it will join. It will also use a more mature democratic process briefly described above. There is no taxation: except for a small annual fee to confirm a person as a citizen for the following year, all expenses are paid for with fees or donations. If you share its worldview and want to explore its use of a more mature form of democracy, we invite you to read this book and consider joining with us to create the CGN. You can do so by going to our website: www.commongoodnation.org.

A house is the biggest purchase most people will ever make, but most people don't know the best way to buy a home. The book covers everything you need to know about the home buying and selling process so that you are not taken advantage of. including:- Deciding on how much money to spend on a house(don't let your lender or agent decide for you!)- Deciding whether you should buy or rent- How to get a great deal on a house that will build instant equity- How to get the best loan with less money down (if that is your goal) and the lower overall cost- How to find the best real estate agent and lender and why you need them- How the process works including inspections, appraisals, title insurance, mortgages, closings, escrows, HOAs, etc...- How to fix up your house and maintain it- How to find contractors to help you fix up your house- How to sell your house for the most money- When and if you should refinance your house- A glossary full of definitions for real estate terms- Plus bonus chapters on starting a career in real estateThere has been a lot of talk about real estate being a bad investment. Many financial and economic advisers suggest buying a home may be worse for your finances than renting. However, I think most people do not take the home buying or selling process seriously. They put all their faith in other people to get the right deal done for them. If you blindly buy a house based on what your real estate agent or lender tell you, it may not be a good investment! However, if you are able to find great deals, get a good loan, and take care of your home, real estate can be an incredible tool to build wealth. I am a real estate agent, and real estate investor who has done very well buying hundreds of houses. I try to teach what I know to others to help them make smarter and better decisions. If you know the right way to buy a home, it beats renting every time. There is a lot of information in this book, and depending on your real estate experience you may know some of it, or be familiar with a lot of it. I have created four sections with many chapters to make it easy to navigate. The first part of the book focuses on the bare basics of buying and selling houses, while the later sections go deeper into each aspect of real estate. I hope you enjoy the book and learn how to make your real estate purchases awesome investments.
